Bodies of Russian Royalty Buried Secretly at Pekin

Pekin, April 23.—Seven bodies, four of them said to be those of members of the Russian imperial family, have arrived in Pekin from Harbin, and were buried in the Russian cemetery outside the city wall. The whole proceeding was surrounded with the greatest secrecy, even the Russian legation receiving scant information of the circumstances.

The bodies were declared to be those of Grand Duke Sergius Michaelovitch; Prince Ivan, husband of Princess Helene, daughter of King Peter of Serbia; Prince Igor, brother of Prince Ivan; Grand Duchess Elizabeth, a sister of the late empress, and three servants, who shared the fate of these members of the royal family, when, it is alleged, they were killed and their bodies thrown down into a coal mine near Perm.

The discovery of their whereabouts was said to have been made by a commission appointed by Admiral Kolchak last summer.

Boundaries Will Be Contracted to Better Enable Her to Take Care of Herself-Canada Might Have Been Offered Mandate for League if Funds Forthcoming - Greece to Ad-

San Remo, April 23.—Armenia is to be created an independent state. This decision was reached by the supreme council of the allies today, because neither the United States nor any

minister Smyrna.

other power was willing to accept a mandate over the country.

The boundaries of Armenia have not yet been defined, and the new republic will probably be rather con-tracted, as it is believed that the smaller the country the more easily can it take care of itself, because if too many Turks are left within its confines they might overthrow the

government.
The comment of those in close relation with the council is that the league of nations has been rather slightingly treated respecting Armenia. The coun cil sent a somewhat vague letter to the league, asking it to take the mandate. The league executive, at a meeting in Paris, replied favorably, but called attention to the fact that it had no funds and no staff, suggesting that the council should authorize an international loan guaranteed by

the powers composing the council.

It was pointed out that the new states ought not to be burdened with a large debt to begin with, and the council was also requested to eject the Turkish forces from the borders of the new state. These proposals have not been accepted by the council, which thus declines to avail itself of

The Turkish treaty has been al finished by the council. Premier Nitti gave his opinion of the treaty in the remarks he made to the council, saying: "I am constrained to tell you that this treaty to fay mind is a more imperfect, production, then anything the peace conference has done."

In its discussions over relation

cil will not treat the subject as an allied question. It has already been decided that as the allies were not at war with Russia, each ally is free to have such intercourse or non-interrse as it may deem fit. Marshal Foch will dine with Pren Lloyd George tonight, and Mr. Lloyd

George with Premier Millerand tomorrow evening. The council now hopes to leave San Remo on Monday next.

To Fix Definite Sum.

Paris, April 23.—The supreme council at its meeting Saturday will discuss the principle for the fixing of a definite sum of repuration in the German treaty. principle for the fixing of a definite sum of reparation in the German treaty, which David Lloyd George, the British premier, has been urging. The despatch adds that an accord is said to have been reached in many of the important points outstanding. The council also will discuss questions relative to the enforcement of the treaty of Versailles, and a reply to the latest German note will be considered.

GERMAN ENVOY AT SAN REMO.

Paris, April 23.—According to a despatch to The Temps, Herr von Herff, German charge d'affaires at Rome, has arrived at San Remo.

The Journal des Debats, which also announces Von Herff's arrival, says it is probable that he was called to San Remo unofficially to give information to the council, but adds that he will not enter into the direct discussions of the body.

MINERS ARE FIRM ON CLOSED SHOP

Ucompromising Also on Check-Off Clause and Recognition of Union.

nouncement by Hon. C. C. Ballantyne, in Commons-Vote Two Millions for New Ice-Breaker, to Replace One Lost En Route to Russia-Franchise Bill Furnishes Theme for Long Debate.

Ottawa, April 23 .- For three hours in today the franchise bill was der consideration by the house. An nendment proposed by Hon. W. S. Fielding to one of the clauses was under consideration the whole time.

Mr. Fielding's amendment proposes that the returning officer shall be chosen from among certain public officials. Opposition members press-

ed the amendment.

The claim was made that the question was one, not of abolishing patron-age alone, but of "re-establishing pub-lic confidence in parliamentary institutions." One opposition member, J. J. Denis of Joliette, further threatened that if the Fielding amendment were rejected, members on his side of the house would oppose the clause as long

as they possibly could.

For Deeper St. Lawrence.

In supply in the evening, there was discussion on the St. Lawrence channel just before committee rose. It would cost another \$20,000,000, Hon. C. C. Ballantyne said, to complete the proposed 35-foot channel from Montreal to the sea. In view of aerial transport possibilities, D. D. McKenzle suggested a 30-foot channel up to Port Arthur would be preferable. Ballantyne said there were 29,000,000 cubic yards of dredging to be done in the St. Lawrence channel, curves also had to be widened. An item of \$478.000 for dredging carried.

Replying to Mr. Dechane, Montmagny, the minister said he regretted the fact that the financial condition of the country would not permit of a partially built dredger being completed

or any new dredger being built A vote of \$2,000,000 to provide for the construction of an ice-breaker to be used on the St. Lawrence River was also passed. It will possess \$,000 horsepower and will carry a comple-

sian government, after costing \$1,000,000. It was to replace this vessel that the new one was being built.

Desertions from Montcalm. Hon. C. C. Ballantyne, minister of marine, was sharply questioned in respect to desertions from the Montcalm when she was on her way to the Markalene Islands with food. Captal Power, of Quebec South, commained that the men had not been given a hearing. It was using harsh words to call them deserters. He was

words to call them deserters. He was informed that they had gone for a walk on the ice and could not return because of a break in the ice.

"They did go for a walk and a long walk," warmly replied Mr. Ballantyne. "They had no intention of coming back. I cannot find words strong ough to express my feelings on
