

**DIAMONDS CASE BY PSEUDO CRIPPLE; DIAMONDS STOLEN**

Lured Jewellers' Clerk to Room in Hotel on Pretence of Disability.

**TIED HIM AND ESCAPED**

Philadelphia, May 10.—Diamonds valued at \$10,000 were stolen here today by a guest at a prominent hotel from a jeweller's clerk, whom he had inveigled to his room by stating that he was crippled and unable to go to the jewelry store to make purchases. The thief entered the hotel on crutches, and although he was unaccompanied, registered as "Charles" and wife, Bridgeton." He stated he had been in an automobile accident and that his wife would follow him. He was assigned to a room on the seventh floor.

Shortly afterwards he telephoned to the jeweller's and stated that he was confined to his room and wished to purchase some diamonds. H. L. McAdie was sent with about \$25,000 worth of trinkets. Several hours later McAdie was found strapped hand and foot to a chair in the bathroom of the suite. "Du Bois" had disappeared, leaving behind the crutches.

**CONSERVATIVES WILL HOLD A CONVENTION**

(Continued From Page 1).

Stanfield, Truro, N.S.; Geo. P. Jones, Agincourt, N.B.

J. A. MacDonald, Cardigan, P.E.I., ex-M.L.A., secretary Kings County Liberal-Conservative Association; J. Brown, Charlottetown, P.E.I., member Liberal-Conservative Association of Charlottetown; J. A. MacArthur, Montreal, member executive Liberal-Conservative Association of Montreal; Rod. Monty, R.C., Montreal, member executive Liberal-Conservative Association of Montreal; Charles Emard, R.C., Montreal, secretary Liberal-Conservative Association of Montreal; Arthur Broadbent, K.C., Montreal, member executive Liberal-Conservative Association of Montreal; Arthur Laonde, advocate, Young Men's Liberal-Conservative Association of Montreal; Henry C. K.C., Toronto, past president Liberal-Conservative Association of Toronto; Martin J. Ingham, Toronto, secretary Central Liberal-Conservative Association of Toronto; Gen. A. E. Ross, M.L.A., Kingston, Ont.; Hon. E. J. Macdonald, ex-M.L.A., Rodney, Ont.

Time for election.

The resolutions adopted were:

That in the opinion of this conference of Dominion-wide Liberal-Conservative organizations in the provinces of Canada, and that such organizations prepare to enable those who believe in the constitutional policy of Sir John Macdonald and Sir George Dunningan, to express their opinion at the impending general election of that great policy that has stood the test of time and has common-sense for forty years and more Canada what it is today—a policy that during that long period has been the pathfinder to progress and to harmony between all the provinces, along with liberty and good-feelery and that enter and preserve our Canadian heritage for our own Canadian people as an integral part of the British Empire.

That it is fit and becoming that this nation-wide conference should seize this first opportunity to acknowledge to the Canadian people that it is a policy that can never be liquidated to the men of our army who fought and suffered, to the homes and families that were dependent upon those who were willing sacrifices on the altars of our country who gave their all that we might live and still be free.

Women in Politics.

That this conference has an abiding faith in the awakened sense of duty which our women now bring to political life in this Dominion.

That the time has arrived when the Canadian people should be advised to predict that the time has arrived to disunite us today. For no class can live and prosper without itself.

That agriculture, in its broadest and best sense, is Canada's greatest field for enterprise, and no handicraft or industry should be allowed to impede the progress of our farmers.

That real labor, as known and understood, constitutes Canada's greatest asset; therefore, Canada's traditional National Policy must be maintained because it is their due, but because by justice always we can provide the same influence on the criminal element of the L.W.W. from taking hold in the ranks of real labor.

That this is the time for enterprise, the time for foresight, the time for the Liberal-Conservative party to unite in working to co-operate, to co-ordinate, all branches of human industry, all sections of the population, to make a national policy that has ever governed the actions of the Liberal-Conservative party in our country—a policy that has brought to the people of any one class or section by any other class or section, to rebuild a greater and a stronger, a more united, prosperous Canada as the largest and the leading Dominion in the great Commonwealth of the British Empire.

Duty to Reorganize.

Therefore be it resolved that we, the fill our plain duty to our country by taking immediate steps to reorganize the Liberal-Conservative party in all the provinces. With such organization we can feel assured that thru united force and action, and the help of common-sense, that the Liberal-Conservative party will not only intelligently grapple with the present apprehension and discontent that is to be found everywhere, but will deal—and deal in a definite and permanent way—for the common good of all, for the common good of Canada, with our fiscal, our soldier, our labor, our fisheries, and agriculture, and other domestic problems that, consistently cry today for attention and action.

Therefore be it further resolved that when active organization of the Liberal-Conservative party thru out Canada has progressed satisfactorily, a Dominion convention of the Liberal-Conservative party be held in the city of Ottawa at the earliest possible date during the present year for the purpose of selecting a leader and dealing with such other matters as may properly come before the convention.

**RHODES AVE. CHURCH HOLDS ANNIVERSARY**

Of Pastorate of Rev. A. A. Kelley—Special Services on Sunday.

The tenth anniversary of Rev. A. A. Kelley's pastorate of Rhodes Avenue Baptist Church was fittingly celebrated with special services on Sunday. The church was filled all day and the building was tastefully decorated with flowers and bunting.

Preaching in the morning, the pastor reviewed the memories of past years and expressed his joy for the blessings conferred. He said it has been his privilege to receive 135 by baptism, one of whom paid the supreme sacrifice at St. Julien.

Touching upon the finances of the church he pointed out that ten years ago the total receipts were \$17,125. Last year the amount was \$2,851. Ten years ago the contribution to the pastor's salary was \$100, while today the sum is \$1,125, supplemented by the home missions. We heard the command of our Master to the call of other missions, India, South America and other countries called, and from our poverty we enlarged our gifts. Last year we gave \$500 to benevolence, as against \$100 ten years ago.

A pleasant social gathering was held in the church last evening under the auspices of the Juniors' Union. A musical program was contributed, and a pleasant time was spent.

**WESTON COUNCIL HEARS VETERANS**

G.W.V.A. Ask for Picture House Permit and Monopoly in Movies.

At the regular meeting of the Weston council last night, held in the town hall, the Weston G.W.V.A. made application for a permit to erect a picture show with exemption from taxation for five years. The request was made, that no other promoter of picture show business be allowed in the town during that time. The object of the branch in attempting this commercial project was stated by President McKitterick to be an effort to erect a clubhouse for the boys. The capitalization will be about \$40,000 and the cost of the building, \$20,000. A strong appeal was also made by Secretary J. P. Allen, he asking that exemption be granted on the ground of protection of local capital.

Mayor John Gardhouse informed the G.W.V.A. that exemption for the first and second years has already been granted by Weston on all new buildings. "It would be difficult to bind town council to exemption, even though we may think it should be so," said the mayor, who was of the opinion that the requests were reasonable.

The Veterans also asked for a grant. THREE—WESTON COUNCIL.

Honor Roll Honorable.

The committee appointed to provide an honor roll of the boys who enlisted in Weston, Rev. Hughes Jones, Dr. E. P. Irwin and Frank, and whose work was to collect complete details of each of the men and prepare the same for book form, reported that they had collected 1,000 names. "Only about 10 per cent. of the men we have written," informed Mr. Prann, "responded to our solicitations." Rev. Mr. Jones then read a list of the names of the boys who had enlisted, and he assured the council they were willing to go to the front.

Dr. Irwin spoke very feelingly. "Personally, I feel that perhaps there has been too much distinction made between the returned soldier and the ordinary citizen. I think that if the boys had been taken back as ordinary citizens it would have been better for them and better for the community. We do not forget what the boys did, nor did we forget what a good many people did who did not go to the war. Practically every man and woman in the world helped to win the war. Those who could labored and sacrificed. It is better that the boys should get back and be citizens rather than be apart from the community as returned soldiers."

In return for the excellent work accomplished by the members of the executive committee, Danforth Park Ratepayers' Association will entertain the executive to a theatre party and supper on Thursday evening. The ladies' committee have been voted a sum of money for an entertainment by the association.

An effort to beautify the tract with flowers will be made this season and increased police protection will be requested to save the crops and flowers from pilage.

**NO GAP BETWEEN LIFE AND DEATH**

Sir Oliver Lodge Believes Existence to Be Continuous.

Sir Oliver Lodge, the great British scientist, delivered his final Canadian lecture in Massey Hall last night, before a well-filled house. He took as his subject "The Continuity of Existence," and said at the outset that our body was simply an instrument for our use so long as it lasted. The evidence of those who had gone thru death and had come back was, according to Sir Oliver, that they retained conscience, character and memory, and knew exactly what was transpiring. The evidence, extensive as it was, was, he said, amounted to absolute proof, and convinced him of its reality. The universe, like life, was continuous, he said, both as regards space and time. There were no gaps. Both the visible and the invisible, but they were there all the same.

In referring to the subject of his lecture, Sir Oliver said that if we believed the messages sent from the other side we found that the beings there not disassembled, but in fact one felt in substance just as in life on earth.

Feel Substantial Existence.

They declare, said Sir Oliver, they feel a solid, substantial existence and in appearance are unchanged, they are not of the ghost shape, as we have been led to believe in the past—at least that is what they say, added Sir Oliver, who further declared that he was coming to the conclusion that the dead were not in a different universe to ourselves, but in the same one, and saw things as we see them, but from a different aspect. They probably saw thru the ether, and doing so, everything looked brighter and better than to us.

Continuous Existence.

Sir Oliver thought existence was continuous and had heard from those who had gone thru death, that there was no stopping in this existence—there was no gap at all, but that the matter dropped from the medium of the ether remained and we did not go to another existence, and peculiar as it seemed we still retained some connection with matter.

Ethical Photographs.

Dealing with the question of ethereal photographs Sir Oliver said he was doubtful on the subject, as photos would be taken, but under certain conditions he might be convinced that the ether body could, with the matter existing in the medium, be photographed. Sir Oliver said he wanted to bring these semi-miraculous occurrences under the range of superstitious beliefs, and he asked students to work to that end, but warned them to be always aware of their facts or harm might be done.

"We have all had pre-existence," said Sir Oliver, who had a memory of a body must have had a commencement. It was impossible to go back to the beginning of anything.

"Why did we not remember our pre-existence?" asked Sir Oliver. He contended children had a memory of something transpiring in previous existence, but the thought was lost as they grew up.

"When we look at the evils in the world," said Sir Oliver, "let us be downhearted and realize that this is only part of our existence and part of the life to be suffered. This world is the best of all possible worlds under the conditions, and it was wrong to say 'the world was made a world worse than he should.'"
