DOMINION STEEL ISSUES COME INTO PROMINENCE

Ganadian Exchanges-Dominion Coal and Some Bank Shares Are Also Higher.

World Office,

Wednesday Evening, Feb. 22.

The buoyancy in London financial direless ceasioned by a more contirmed, conviction that peace proposals are making distinct headway, had its influence on Cauadian securities to-day. This was supplemented by the closing of New York, which confined the daily operators to domestic lesses as a means of trading. The local market as a consequence was broader and had a tone of buoyancy in the issues most susceptible to manipulation. Dominion Steel stocks were the feature of the day, with good seconds in Coal and Bank of Commorce. The rapid rise in American Steel stocks recently has undousteelly had an influence on home issues of this class, and a following is much more easily procurable thereby. The dealings in the issues however, were comparatively small here in comparison with Montreal, where most of the holdings appear to be concentrated. The bonds and spreferred roses a point and the common, a large fraction of a point. Coal received a more generous support to day, the price being advanced above yes tertiay's opiotations. The activity in commone was continued iluring the morning session with the addition of some two points to quotations, but tradiag fell flat in the shares, and there were no dealings coring the lats session. Other issues were not seffired into activity and few net changes resulted. C.P.R. advanced about by with London and some other of the speculative issues changed hands at a fractional betterment. Dominion Bank made a recovery of 2 points, and imperial and Standard sold at firmer figures.

Loudon, Feb. 22. At the opening of the stock exchange to-day, there was an all-round feeling of cheerfulness on the peace reports from St. Petersburg. Consols, rose a quarter of a point, Japanese ½ a point and Russians ¼ of a point. All departments shared in the improvement. The advance of Russians was somewhat checked by surgestions that the possible indemnity may necessitate a further loan.

by surgestions that the possible informulty necessitate a further loan.

changed to 4d lower than yesterday, and in the United States were closed to-day. Wheat supplies in the United States and abroad changed very little during January. In December, it will be recalled, European stocks declined quite heavily, while American stocks remained practically inchanged. In January American supplies decreased slightly, while European stocks, owing to revisions, stood practically unchanged. The American and Canadian stocks on Feb. 1 aggregated 90,784,000 bushels, decrease of 3,914,000 bushels from Jan. 1, European stocks on Feb. 1 aggregated 80,400,000 bushels, a decrease of 50,000 bushels from Jan. 1. There is here indicated an aggregate American and European stock of 141,184,000 bushels, a decrease of 4,000,000 bushels from Jan. 1. This decrease in the world's supply compares with a decrease of 7,000,000 bushels in January a year ago and 5,000,000 bushels in January, 1903, but with an increase of 3,000,000 bushels in January, 1903, but with an increase of 3,000,000 bushels in January, 1903, but with an increase of 3,000,000 bushels in January, 1903, but yith an increase of 3,000,000 Wheat supplies in the United States and

Dogs of No Use. Berlin, Feb. 22.-Lieutenant-General Von Trotha, commanding the German Von Trotha, commanding the German troops in Damaraland, German South-west Africa, begs that no more dogs be sent to him for war purposes. A notice to this effect appears semi-offipotice to this effect appears semi-offi-cially to-night. The dogs already tried have been of little use. A few months ago the war office consented that dogs be used with the African expeditionary troops as sentinels, for hunting the wounded in the thickets of the country and in tracking the natives. A private agency invited gifts of dogs for these purposes from the public, and several hundred, chiefly collies, were sent to Africa.

INVESTMENTS. Dominion Statistics show that the value of material imported into this country of this class during the last fiscal year amounted to 125,456 tons, valued at \$4,151,756.

The demand for steel products, such as the company's plant is capable of turning out, has been greatly increased by the new railways under construction. Competent authorities estimate that the railroad requirements for steel, outside of rails in Canada, for the next five years will be augmented over present consumption

In offering this stock to the public we deem it one of the best investments placed on the market for some time. We consider the time opportune for starting the plant, as the iron and steel trade has shown marked improvement for some months, and the future for some years to come in this country is assured and very promising. We believe that this stock will be changing hands at an advance of one hundred per cent.
