**SUPERIOR PAINLESS DENTISTRY!**

"There is a world wide cry against the dentists that they torture their patients. Those of strong physique submit and endure the agony. With a second class this is simply impossible, and thousands of teeth are neglected and lost even though the patients may be able to pay for our most skillful services. Then there is a third class who, after months of mental torture in anticipation, finally come into our hands, and, with nerves strung to a hurtful point, pass through the ordeal, but at what a cost! We do not sufficiently consider the consequences of shock in the dental chair, yet undoubtedly many suffer for months and even years from injuries to the nervous system received whilst in our hands.

The greatest duty of our profession today is to discover and adopt a mode of painlessly performing our operations."

NOTE—The above is an abstract from a paper read by an eminent dentist of New York City before a society of dentists in Philadelphia. The famous Hale Method of painless dentistry, for which we are sole agents for Canada is the best Method on earth.

Mrs. Stewart, wife of Rev. J. W. B. Stewart, had her most restful night of her serious illness. Yesterday her attending doctors, after consultation, performed an operation, tapping the abdominal cavity. A very large amount of fluid was drawn off, so that Mrs. Stewart got almost immediate relief. There are yet some minor complications, but Mrs. Stewart may be now declared out of danger. During her sickness she has had the best of care from two doctors and two day and two night nurses.

**CONGRATULATE JUDGE McKEOWN ON APPOINTMENT**

Address Presented to His Honor at Kent Circuit Court Session—No Cases For Trial

Mr. Justice McKeown returned home last evening from Richibucto, where he presided over the Kent County Circuit Court. At the opening of the court on Tuesday last the following address was presented to his honor:—

To the Honorable, Harrison A. McKeown, Judge of the Supreme Court of the Province of New Brunswick:

We, the members of the Bar of the County of Kent, take this our first opportunity of congratulating you on your elevation to the Bench of this province.

As a member of the Bar, as one of His Majesty's counsel, as attorney general, you have shown yourself eminently fitted to fill a position in which integrity, firmness, courtesy and a thorough knowledge of the law is required; you have shown yourself to be possessed of all these qualifications, and we feel that you will derive the greatest satisfaction, not only to your brethren at the bar, but to the people of the province generally. The Bench of New Brunswick, has always maintained a high standing among the judicial tribunals of the country, and we feel that you will well and faithfully maintain its high standard of excellence.

We heartily welcome you to the County of Kent, and wish you every success on this circuit, and trust you may live long to fill the high position in which you have been placed.

ROBERT HUTCHINSON, R. H. DAVIS, W. L. JAMES, W. L. CARTER, GEORGE A. HUTCHINSON, R. A. IRVING, F. ROBIBOUX, Richibucto, N. B., September 28, 1909.

Justice McKeown replied in a fitting manner, thanking the people of Kent County for their expressions of good will and the kind words contained in the address, and His Honor stated that he trusted that he would always perform the functions of his office in accordance with the correct administration of justice.

As there was no business, criminal or civil, to come before the court, the grand jury was discharged and the court adjourned sine die.

**PORK HAS TAKEN LOFTY RISE IN PRICE; PEAS SCARCE**

What is to be the ultimate price of salt pork is a question that is occupying the attention of wholesale grocers. For some weeks past the price of this commodity has been gradually increasing until now it is quoted at the unprecedentedly high figure of \$27.50 to \$30 a barrel, according to grade. The best "American backs," a choice cut and best grade, is selling at the latter figure, while "mess" or "clear" is only slightly lower. The usual quotation is about \$24.

One of the dealers, speaking of the present price, said he did not remember when pork had been as high as it now is. In Chicago, some years ago, it could be purchased as low as \$4 or \$5 a barrel, now the price asked is \$24. The nearest approach to the present figure within his recollection was in 1892, when Cudahy cornered the market and the price jumped to \$21.50 in Chicago. When the market broke, however, there was a slump of \$7 a barrel in price. The present high price, he claims, was not the result of a corner but was on account of the scarcity of hogs and an increased demand for the product.

Lard also is unusually high, and the same may be said of other similar products. For instance the price of sausages now is almost double what it was a few years ago.

Another article that will cost the consumer more than usual this year is canned peas. The local jobbers have received shipments of new canned peas lately, but in practically every case they got only 50 per cent of what they ordered. In some instances jobbers received barely enough to fill their orders. The quotations now for peas range from \$1 to \$1.50 a dozen.

**NEARLY \$1,200 IN CASH; DIAMONDS TOO**

The Boston Journal, in referring to the death of Mrs. Emeline Williams, who is said to have been a native of New Brunswick or P. E. I., says: "Though she lived practically a pauper's life in the Leverett street house, with an old friend, Mary Gallagher, nearly \$1200 in cash and four diamond rings, worth at least \$400 were found on her person and in the house by the physicians who treated her."

"For some years she and Mary Gallagher had lived together and all who knew them imagined they had no more money than was necessary barely to live on."

As stated in a despatch in the Times on Tuesday, Mrs. Rita Atte, who lived in the house with Mrs. Williams is making a claim for a share of the money on the ground that Mrs. Williams owed her for three years' work at \$3 a week.

**THE NEW WHARF**

Owing to the unfavorable weather of the past week Contractor D. C. Clark, who is building the new wharf on the west side, for the government, has been unable to make much headway. Up to the time the rain set in, however, good progress had been made with the work. The last crib of the seven which go to make up the big structure is now built up as high as it can be at its present situation at the Old Fort. Owing to the dredging operations being carried on in Sand Point slip it has not been possible to move the crib around there to deep water to add to its height.

In the meantime men are at work whenever the sides serve building up the superstructure and driving piles. It is practically impossible to say when the wharf will be ready, as so much depends on the weather, but Mr. Clark says he is pushing the work along as rapidly as possible, so as to bring it to completion.
