INTERESTING FIGURES.

United States Got 200,000
Cords of Canadian Pulp
Wood in Three Months—
Our Imports of Paper.

"About \$4 a cord, or to be exact, \$4.36, was the average value of the pulp wood shipped from Canada into the United States during the three months ending in September and as there was something over 200,000 cords of it, the price we paid for Canadian wood during those three months was in round numbers not far from \$800,000; rather a large sum, says the paper mill as the result of its canvass of the situation in the last issue of the well-known trade weekly."

"If this average were kept up for a year the total of imports of Canadian wood would be between 800,000 and 900,000 cords, and the price figure is taken from the official report of the Dominion statistician, it would be evident that while our pulp mills can hardly make use of considerable Canadian wood, we are not dependent upon the forests of the Dominion."

The statistics upon which these conclusions are based were found in the Ottawa, Ont., correspondence of the paper. The correspondence follows:

"Official figures show that Canada's export business in pulp and paper is growing. Owing to delay, the latest returns to hand are for September. During that month Canada exported wood pulp to the United States to the value of \$308,026, and to Great Britain, \$257,083; to other countries nothing."

"For the first three months of the fiscal year, that is, July, August, and September, Canada exported wood pulp to the value of \$790,900. It was distributed as follows: Great Britain, \$215,556; United States, \$674,828; other countries, \$721."

"United States mills have to export during September, which was 74,085 cords, valued at \$322,899. For the months of July, August and September, Canada sent to American mills 205,721 cords of pulp wood, valued at \$880,000."

"American mills continue to find in Canada a good customer for their paper in its various forms, under the general tariff during September, Canada imported from the States chemical paper, valued at \$1,179,797; sulphur, \$265. From all other countries, September, \$24, three months' preferential tariff, \$457; sulphur, \$290."

"In envelopes bearing 35 per cent. duty, Canada, during September, imported from the United States, 5,827 M., valued at \$5,147, and during the three months ending Sept. 31, 18,596 M., valued at \$16,026. During September, the imports of envelopes from Great Britain were, under general tariff, 6 M., valued at \$7, under preferential tariff, 1,913 M., valued at \$1,111. For the three months the imports from over seas were: General tariff, 42 M., valued at \$39, and preferential tariff, 3,863 M., valued at \$3,576. From other countries, general tariff, 5 M., valued at \$5, and sulphur, 60 M., valued at \$176."

"In paper, felt and straw board, bearing 35 per cent. duty, Canada imported during September from American mills, stock valued at \$12,208, and during the three months ending Sept. 31, stock valued at \$40,234."

"The other imports in this line were a mere nothing as compared with the American business. In September, the imports from Great Britain were only \$75, and for the three months, \$1,056."

"In wall papers and borders bearing 35 per cent. duty, Canada imported from the states during September stock to the extent of 825,150 rolls, valued at \$5,648, and during the three months ending Sept. 31, 173,898 rolls, valued at \$11,962, under general tariff, and 246 rolls, valued at \$40, under preferential tariff. 1420 rolls, valued at \$938, and for the three months, 3,510 rolls, valued at \$29, under general tariff, 2508 rolls, valued at \$781. The business done with other countries for September was, under general tariff, 110 rolls, valued at \$155; under surplus, 1522 rolls, valued at \$504, and for three months, under general tariff, 517 rolls, valued at \$688, and under surplus tariff, 1707 rolls, valued at \$571."

"In printing paper costing 21 cents per pound or less, and bearing 15 per cent. duty, Canada's total imports for the three months ending Sept. 31 were 33,175 pounds, valued at \$1170, all purchased at American mills."

Printing Paper.

In printing paper not elsewhere specified, bearing 25 per cent. duty, Canada imported during September from America, 284,142 pounds, valued at \$18,079; and during the three months ending September 31, under general tariff, 939,857 pounds, valued at \$54,276; and under surplus tariff, 450 pounds, valued at \$150. During September in this line of goods, Canada imported from Great Britain all under preferential tariff, 211,970 pounds, valued at \$14,039. For the three months the imports from other countries during September were 13,394 pounds, valued at \$187; under preferential tariff, 628,702 pounds, valued at \$37,740. From other countries, during September, Canada imported 1,920 pounds, valued at \$274. For the three months ending Sept. 31, the imports from other countries, under general tariff, 9,338 pounds, valued at \$1,068; and under surplus tariff, 4,700 pounds, valued at \$518."

"In wrapping paper, bearing 25 per cent. duty, Canada, during September, imported from the United States, 80,358 pounds, valued at \$2,921; and during the three months ending Sept. 31, 244,387 pounds, valued at \$8,092. The imports from British mills for September were 12,607 pounds, valued at \$574; and for the three months, under general tariff, 4,076 pounds, valued at \$293; under preferential tariff, 20,810 pounds, valued at \$941; and under surplus tariff, 6,500 pounds, valued at \$294. From other countries during September the imports of wrapping paper were under general tariff, 70 pounds, valued at \$5; under surplus tariff, 599 pounds, valued at \$551, and for the three months under general tariff, 7,805 pounds, valued at \$457; and under surplus tariff, 19,352 pounds, valued at \$970."

WRONG IDEA.

Don't get the wrong idea into your head that starvation is good for dyspepsia. It's not. Those who have not studied the subject very deeply or with trained scientific minds, might think so. But facts prove otherwise. All specialists in stomach and digestive disorders know that it is best for dyspepsia to be fed. Why, dyspepsia is really a starvation disease! Your food doesn't feed you. By starvation, you may give your bowels and kidneys less to do, but that does not cure your digestive trouble, simply makes you weaker and sicker; less likely to be permanently cured than ever. No, the only right way to permanently cure yourself of any form of dyspepsia or indigestive trouble, is to eat heartily of all the food that you find best agrees with you, and help your digestion to work with Stuart's Dyspepsia Tablets. This is a safe, certain, scientific, reliable method of treatment, which will cure the most obstinate cases if preserved in. Stuart's Dyspepsia Tablets have a gentle, tonic, refreshing effect on the secretory glands of the entire digestive tract. They gently force the flow of fresh digestive juices. They contain, themselves, many of the chemical constituents of the juices, thus when dissolved they help to dissolve the food around them in stomach or bowels. They therefore quickly relieve all the symptoms of indigestion, and coax the glands to take a proper pleasure in doing their proper work. They coax you back to health. No other medical treatment of any sort can turn a "Cure" will give you the solid, permanent, curative results, that will Stuart's Dyspepsia Tablets. Write for a free Book of Symp-toms, F. A. ANNAPOLIS.

Rev. Isaiah Wallace is Seriously Ill at Aylesford.

Annapolis, Dec. 29.—The sudden death of Harry E. Wilson, formerly of Clarence in this county, occurred on the 15th inst. of brain fever. Deceased was a lawyer with a large practice in Chicago having practiced there for over five years. He was also a prominent Free Mason and had filled the chair of Worshipful Master for several years. He was a son of Mr. and Mrs. Alfred Wilson of Clarence. The remains were brought to Laureltonwood and interred in the cemetery there.

The death of Mrs. Morse, widow of the late Mayor Morse occurred at Paradise last week after a protracted illness, at an advanced age. One daughter, Mrs. F. Leavitt of this town, and two sons, Samuel K. of Paradise and Thomas H. of Montana, survive her.

The funeral of the late Stephen D. Ritchie, took place from the family residence on Monday afternoon and was very largely attended. Services were held in St. Alban's church, Legville, conducted by Rev. H. Howland and the remains laid to rest in the cemetery at that place.

Rev. Isaiah Wallace, Baptist Minister, is seriously ill at the residence of his son, Rev. L. F. Wallace, Aylesford.

There has been a large amount of floating ice lately in the Annapolis River, here, impeding navigation.

With Crick in the Back.

You are up against a whole lot of trouble unless you have a strong remedy like Nervine to settle pain and dislodge stiffness from the muscles and joints. Just rub Nervine on the painful spot—not much rubbing because Nervine has more power than ordinary remedies. You won't suffer long after Nervine is applied for it relieves almost instantly. Mr. Philip Adams of Oakland says, "If I hadn't used Nervine I guess my back would be stiff yet. A few applications of Nervine took out all the soreness and stiffness. I can recommend Nervine for any kind of muscular pain, also for rheumatism. Price 25c."

Spoke each to one another,
"Where came that stain about your foot,
"No lifted hand may cover?"
"From stamping a neighbor's farm fame out,
"Brother, my brother."

Spoke each to one another,
"Where came that blood upon your hand,
"No lifted hand may cover?"
"From breaking of a woman's heart,
"Brother, my brother."

"Yet on the earth clean men we walked
Glutton and Thief and Liar,
Superstitious and false in claims
That no man might discover."
