REDUCING LIVING COST

The cost of living in the United States is being reduced to a certain extent by a greater use of flour. According to estimates of the United States Grain Corporation, the consumption of wheat flour in that country has increased almost 15 per cent, or 3,000,000 barrels in the past seventy days. This goes to indicate that housewives are effecting a more direct saving in household expenditures by eating more bread and less of the higher-priced foods. This has been advocated for some time in the United States. A bulletin on the wheat flour movement says that the past week was the first time since early in July when wheat deliveries from farms have been less than for the corresponding week last year. This fall in deliveries is said to be wholly due to the fact that more than 50,000,000 bushels have left the farm in excess of the total quantity for the same period last year. The increase in flour consumption is confirmed by a sharp fall in the price of replaced foods. Lard is away down, and edible oils show declines. Condensed and evaporated milk do not show the usual autumn tendency to rise.

MANY EGGS EXPORTED

In the past seven months 64,853 cases of eggs, or 1,930,650 dozen, have been exported from Canada. The month of May saw the largest exportation, when 18,023 cases were shipped. The present month is well on its way to equal that record, as up to September 29, 13,122 cases had been shipped. The following figures give the exports by months: March, 7,620 cases; April, 8,495; May, 13,023; June, 6,489; July, 3,345; August, 3 to September 6, 7,445, and September 7 to 20, 13,122. On September 1 there were 13,121,807 dozen eggs in cold storage in Canada. There were 502,890 dozen eggs

UNSCIENTIFIC, UNSOUND, UNFAIR, IMPRACTICABLE

Some of the Terms Applied by Packers to Board of Commerce Action in Ordering Reduction in Bacon Prices

Toronto, Sept. 29.—The packers to-night issued the following statement regarding the order of the board of commerce promulgated today is, on the face of it, impractical.

"The implication of it is: (a)—That packers are at present selling product at prices which would permit reduction of two cents to fifteen cents per pound without loss; or, (b) that the board, without regard to the actual cost of the product, arbitrarily imposes the reduction.

"Meats now being sold are the product of hogs bought in the past two months, during which live hog prices advanced throughout the world to the highest level in history. At present prices these meats are showing heavy losses. In regard to this loss, packers desire no sympathy. It is a phase of the business which they must meet in every year's operations.

"The actual facts are that in its most prosperous year the profits of the packing industry in Canada were less than one-half cent per pound of product sold. The order assumes to fix selling prices of products on the basis of market prices in March, regardless of and ignorant as to whether these prices will return cost or not.

"The action of the board has been taken after a superficial inquiry without conference with the trade, and without any opportunity being afforded of presenting the packer's case.

"Not only does the order assume to fix present prices on an unfair basis, but it enacts a basis of continued fixing of prices which is unscientific and unsound, and would necessitate the operation of all plants at a continual loss.

"If left to take a normal course, prices of products will decline in keeping with the lower tendency of live hogs, but without the demoralization of the trade and of the live hog industry, to the detriment of the entire country, which must inevitably result from the enforcement of such ill-considered regulation."

LEATHER TRADE BUSY
In discussing the hide and leather situation, dealers point out that the big advances in the price of shoes are not wholly caused by the price of leather. They claim that the main item is labor. They think that the increased value of labor is responsible for approximately two-thirds of the advances. The leather situation does not show much change, dealers still claiming to be under-selling the leather market, which remains firm. A good demand is apparent, factories are exceptionally busy, and the fact that they are sold away ahead tends to show that there is no let-up in the buying of leather goods. Hides are, if anything, a little weaker.

Why the Discount on the Canadian Dollar?

The current issue of Investment Items is devoted to a readable explanation of Foreign Exchange, with particular reference to the present American and Sterling Exchange situations.

Among other things, it explains why the Canadian dollar is worth only about 96 cents in payment of American goods. It indicates also how this discount can be overcome.

The issue is of timely interest to business men and investors.

LUDLOW STREET Y P S.

Last evening in the Ludlow street Baptist church, West End, the Young People's Society listened to a very interesting address by Rev. David Hutchinson, D. D., on Canadian Baptist Missionary Work in Telegu, India; and Bolivia, South America. A hearty vote of thanks was extended the speaker at the close of his address. During the meeting a very pleasing solo was rendered by Mrs. Peter McArthur, who has just come to Canada from Glasgow, Scotland, to join her husband, Rev. Peter McArthur, pastor of the North Head Baptist Church, Grand Manan.
