3. It is so simple that no skill is required to use it successfully.

4. It is securely faster el when placed in the kettle, and being immersed, the fragrance of the contents is confined in the Jar, a more perfect vacuum produced and the handling of the hot jars entirely avoided.

5. It is well known that fruit Jars which are closed with rigid fastenings burst by fermentation, and the effect upon the closet and surrounding is well underssood by many housekeepers.

The Cover of the Valve Jar being a perfect safety valve makes an explosion impossible, and entirely obviates every difficulty that exists in other fastenings. For sale by
