Mayor Redfern's Resolution re the Waterworks Passed Without Discussion-

Bicycle By-Law Deferred Until the Wheelmen Get in Their Buggestions.

Last evening's meeting of the council was brief, what business there was being disposed of without delay.

The secretary of the Victoria Wheelman's Club asked that the passage of the bicycle by-law be delayed for a week, when the club will offer suggestions. The letter was laid on the table, on motion of Ald. Partridge, who said he would ask that the by-law be laid over. A. B. Barham, manager of the B. C. Pottery, asked for instructions to remove the 18-inch pipe ordered by the city. As an inducement for the immediate removal of the pipe, the company offered to deliver the pipe free of charge. The offer was accepted.

Messrs, Dumbleton & Innes for W. J. R. Cowell wrote asking for exemption from water rates for the Metallurgical Works to be established by Mr. Cowell. Laid on the table. Another letter was received asking the

council to sign the petition looking to the visit of the Royal Artillery band. The mayor stated that further information had been written for. The J. F. Hoffer Fireworks Company offered to come here to manufacture the

fireworks for any display that may be undertaken this year. Referred to celebration committee. The city engineer reported that the cofferdam at Beaver Lake had been rais-

ed at a cost of \$1,530.07. Received. Chief Deasy reported that Foreman Henry had resigned his position, and recommended that W. B. Smith be appointed in his place, The report was referred to the firewar-

dens, and the chief will be instructed to keep a book in which men wishing positions in the department may enter their names. The market superintendent reported re-

ceipts amounting to \$76,90 during April. Messrs. Bodwell, Irving & Duff wrote

that in case it was decided to refer the differences between the city and waterworks contractors to a competent en-gineer, either Mr. E. G. Tilton or Mr. G. A. Keefer would be acceptable to Laid on the table.

In connection with the claim of the estate of the late Hon. A. N. Richards. the finance committee reported that in view of the fact that Mr. Richards was paid \$825 for 13 days' services before the royal commission, and although six years elapsed no claim was made by Mr. Richards, he evidently having considered himself fully paid with the \$825, the claim be not paid. Received and filed and a copy ordered forwarded to Mr.

Ald. McCandless' motion for the removal of the Indian reserve was seconded by Ald. Partridge. The mover said Mr. Templeman was at present in Ottawa and he was doing his best to bring the matter to a head. A resolution by the council would do some good. Ald. Stewart sugested that the city might purchase the reserve at a small The motion was adopted.

The following motion recomm the mayor was moved by Ald. Stewart and seconded by Ald Harrison and car-"That the clerk of the municipal coun

cil be instructed to forthwith notify Messrs. Walkeley, King & Casey, the contractors for the waterworks at Beaver lake, to proceed on or before the 10th inst., with the completion of the said waterworks, in accordance with the contract, and that they be further notified that unless they so proceed and continuously prosecute with reasonable diligence to completion, the corporation will, without further notice, take over and complete the said works and charge the cost of the same to the said contractors.' The consideration of the bicycle by-law

was deferred for a week. Ald. Partridge on a question of priv ilege, stated that certain individuals had been singled out by the police in carrying out the order for the removal of goods from the sidewalk.

Ald. McCandless contended that the order was too strict. One man had teen ordered to remove goods which extended two feet over the sidewalk. The council adjourned at 9:10.

to think," says a lady in her letter. No wonder. In her cuse you wouldn't have dared to do it either. Here's her story: "When I was a young girl," she says, "I was subject to frequent attacks of sick headache, and heaving and retching after meals. However, I got along fairly well up to the autumn of 1884, when I broke down altogether. My skin was sallow, and I had a foul taste in the mouth, and no appetite or relish for food weight, and oppression at the chest, with a strange feeling of constriction or tightness around the sides.

"Besides these things, there was much pain between and under the shoulder blades, and the pain and weight at the back of my neck was so intense that I could not hold my head up. Then my breathing became so short and difficult that at night I was not able to lie down in my bed. It seemed to me as if I must suffocate.

"Night after night I paced the floor all night long, anxious for daylight. I wanted to be moving about the house no rest night or day, only getting an occasional doze in the arm-chair by the fire. Yet I was so weak I could barely stir, and what the end would be I did not dare to think.

"I took all kinds of medicine, and consuited two doctors, but was little or none the better for anything they did for The second doctor said my trouble all arose from indigestion and the liver, and now I think he was right; yet even a correct opinion does not cure a disease. "For over two years I suffered agonies, and feared I should never be well again, In December, 1886, my husband heard what wonderful cures had been brought about throughout the country by Mother Seigel's Curative Syrup Then he got me a bottle from Mr. Wand, chemist, at I eicester, and I began taking it, although (I must confess to you) without a particle of faith in it. Yet, behold! in less than a fortnight I was quite a new woman, being free from pain, and able to eat and digest nourishing food. This was so surprising that I kept on taking Syrup, and after I had used three bottles I was in better health than I had been for years. Since then I have grown strong, and am new in the best of health. You are welcome to publish these facts, and I will gladly answer inquiries. (Signed) Eliza Farmer, the Common, Barwell, near Hinckley, Lei-

reached Suva, on April 17th, which port School Trustees Object to the Proposed Amendment to the Publie School Act.

> Trustee Yates Thinks That the School Trustees Are Old Enough to Look After Themselves.

A special meeting of the board of chool trustees was held yesterday evening to consider the proposed amendment to the school act now before the legislative assembly. The proposed amendment is that in addition to the trustees elected the municipal council may nominate three members of the council to sit on the board of school trustees as representatives of the city

After explaining the object for which the meeting was called. Chairman Hayward said that he had been reading one of last year's reports of the city council, found the following statement:

REVENUE. Balance on hand Jan. 1, 1896....\$ purposes (\$8,123,07 still out

standing) ... rom revenue or school tax.... 10,775 00 .\$50,673 72 Total receipts

EXPENDITURE. For education\$43,276 52

Total expenditure\$45,485 56 Unexpended balance\$ 2,188 16 Trustee Dr. Hall was entirely against the amendment as proposed.

not think the council should be allowed to place any of their members on the board of school trustees, for as could seen from the statement read by the chairman they were paying very little for educational purposes.

Trustee McMicking concurred. The council had no right to be represented, have given the board a chance to have been heard from on that subject. They were his wards, as it were, and he ought to have looked after them. Trustee Vates-I gress we have to

look out for ourselves. If a change was to be made in the school act Trustee Yates thought it should be so amended that the special tax levied for school purposes could be placed in the hands of the school trustees that they might use it as they saw fit.

Trustee Yates-Well, if you don't look out he'll have it on the statute books, which will be worse. Trustee Belyea then moved the follow-

educational affairs in cities." Trustee Mrs. Grant seconded the reolution, which carried unanimously. The trustees being in a resolute mood, another resolution followed, moved by Trustee Belyea, and seconded by Trustee Dr. Hall: "That the hon, the minister of education be requested to grant of speculation, and nothing more defithe board an interview for the purpose will be known until the head office make of useussing the proposed amendments to the public schools act and that the secretary of the board be asked to request the attendance of the mayor at such interview." This motion was also Monthly Competition for B.C. for the Year 1897 carried unanimously and the board ad-

CAN ONLY BE ENJOYED BY THOSE W JOSE BLOOD IS PURE.

We Are Living in an age of Pale Sallow Faces - Heart Palpitation, Severe Beadaches, and Extreme Weakness the Distressing Result-There Is Ho for Such Sufferers.

I'rom the Belleville Sun. There is no home complete in its hap-

piness where there is not perfect health, especially among the younger members of the family. How often is the beauty of a young girl marred and her spirit broken by weakness and irritability caused by those complaints to which so many females are subject at the present day. Mrs. Robert Twa, New Carlow, Ont., tells for the benefit of others of Trustee Belyea was also opposed to the restoration of her daughter from a Sixteen of the passengers who were released yesterday came to town last evening. Dr. Watt has been working night and day since the ship arrived at the station. The passengers and crew realize that he was simply doing his duty in detaining them. life of misery. She says:-"For upment, and the smallest amount of exertion would fatigue her. If she did any work about the house she would tremble with weakness. She was pale, seemed almost bloodless. Her heart at times would palpitate violently, and she was the victim of severe nervous headaches. Her condition was such that we became much alarmed. We tried a number of remedies but they did her no good. Theu we decided to give Dr. Williams' Pink Pills a trial, and before the first box was completed we could see that they were helping her, one of the first signs of returning health being an improve ment in her appetite, which before had een extremely fickle. A continued use of Dr. Williams' Pink Pills drove our every symptom of her illness, and she has since enjoyed the most robust health. She has not, in fact, had a day's illness since she discontinued the use of Pink Pills, and it is with feelings of gratitude that I recommend them to mothers whose daughters may be in a similar condition.

It is a lamentable fact that there are thousands of young girls throughout Canada whose state of health is alarm-ing and whose condition is certain to develop into hopeless decline unless prompt measures are taken to give new vitality to the blood and nerves, by which means only can disease be driven from the system. In this emergency Dr. Williams' Pink Pills is the only medicine which will effect a prompt and certain cure. The pills supply the blood with its lacking constituents, strengthen the nerves, and bring to pallid faces the rosy glow of health so much sought for There is abundance of evidence to prove that Dr. Williams' Pink Pills cure after all other medicines have failed, but it is better far to apply to them for relief at the outset than to experiment with other medicines until perhaps it may be too late. Tasist upon getting the genu-ine, put up in boxes, the wrappers round which hears the registered trade mark "Dr. Williams' Pink Pills for Pale Peo-ple."
