### General Lawton Estimates That an Army of 100,000 is Required.

### Americans are Now Beginning to Realize the Difficulties To Be Encountered.

New York, April 17.—A World dispatch from Manila says Major-General Lawton today authorized the World correspondent to make this statement: "The present prospect is that 100,000 troops will be necessary to pacify the Philippine Islands."

General Lawton's expedition has been ordered to Manila and is preparing to return there immediately. All territory he captured was to be evacuated, and all launches seized restored to their original owners, that is, they will be given back to the persons from whom Aguinaldo's soldiers took them.

After giving the opinion that 100,000 men will be required to subdue the island, General Lawton explained as follows: "The difficulties in the way are those of fighting guerrillas in a tropical country. With my brigade I could force my way from one end of the island to the other, if I did not have to hold the territory I traversed. By leaving garrisons behind it would soon eat up my whole force."

General Lawton regretted exceedingly that he will be compelled to evacuate the territory captured by his expedition.

### The Situation at Manila.

Manila, March 19, via San Francisco, April 17.—War has become so common an experience to Manila that the average citizen no longer thinks of becoming excited over it. Every morning the bells of the churches ring out, and a brief address was presented to Lady Minto, and her ladyship then laid the cornerstone with a silver trowel.

Manila, April 15.—Major E. L. Bond, chairman of the board of marine underwriters, who has just returned from Europe, addressing a meeting of the Board of Trade today, said marine insurance rates will probably be advanced for the city, Lawrence during the coming season. ### Unencumbered With Useless Baggage.

Trousers and drawers, a shirt worn outside them, a straw hat, a cartridge box and a rifle, a section of a bamboo filled with rice, a handful of green peppers tied in a handkerchief, and sometimes sandals. These form the equipment of the Filipino soldier.

No finer country for defensive fighting or maneuvering for a military operation could be imagined.

The Chinese are the scavengers of war. Like vultures they hover in the wake of the army, flocking down upon the ashes of every battle. Calocan church is a church to dig out stuff that no white man could possibly use. Some of them peddle water and cigarettes on the line. One saw a daring that the others creep along the ground with rifles, and the pulpit is under a hot fire and did a good trade, and when some competitors appeared he hastened to point out to them the spot where a soldier had been wounded, seemingly to impress upon them the danger of their position.

### Lawton's Return.

Washington, April 17.—At the war department today it was stated that the return of General Lawton does not indicate the failure of his campaign, but is evidence that he accomplished all he attempted—the capture of gunboats and the driving of the rebels out of Santa Cruz. When he left Manila General Lawton took rats for ten days only.

# Hunting a Murderer

### The Indian Who Killed Philip Walker Is Still at Large.

### Members of the Kamloops Tribe Are Supposed to Be Assisting Him.

Kamloops, April 17.—(Special.)—Casimir, the Indian murderer of Philip Walker, is still at large. All day yesterday armed men of the reserve searched the hills and woods in the neighborhood of the Indian reserve. His camping place on Saturday night was located, but the bird had flown. In spite of the close watch kept on the reserve, Casimir made his way to an Indian's cabin and at the point of a rifle compelled the inmate to procure him a horse and saddle, retiring again before the alarm could be raised.

A fresh posse of mounted and armed specials was sent out this morning. Casimir declared to the Indians that he would never be taken alive.

The murderer is the adopted son of the chief of the Kamloops tribe, and the impression prevails that the Indians, through fear of the chief's disapproval, are not lending the authorities the assistance they might, in fact, there are reasonable grounds for the belief that Casimir has obtained food and shelter from the members of the tribe since the murder.

The government's prompt offer of a reward of \$200 for the arrest of Casimir is warmly approved, as it is believed the hope of securing this sum will induce the Indians to betray the murderer's hiding place.

Coroner Clarke is holding an inquest this morning on the murder of Philip Walker. The funeral of the murdered man takes place to-morrow afternoon.

### RIOTOUS SOLDIERS.

United States Recruits Wreck and Burn a Saloon in San Francisco—Cavalry Quell the Disturbance.

San Francisco, April 17.—A riot took place at the gates of the Presidio this evening, where the 100th Cavalry were quartered, and as a result a saloon was wrecked and burned.

The trouble began on Saturday evening, when Charles King, a recruit of Company C, 25th Infantry, who had been drinking, went into John Robb's saloon. While there he became involved in a row with some soldiers, and was so badly beaten that he had to be taken to the hospital.

On Sunday afternoon two of King's comrades, hearing of his condition, went to the saloon for the purpose of finding out how the trouble originated. The bartender was rather curt and offensive in his replies, and the soldiers went out and told their comrades. Last night a crowd of recruits went to the saloon, where they demolished the furniture, bar fixtures, bottles, emptied the liquor, and set a complete wreck of the place. By this time 300 or 400 soldiers surrounded the place.

Meantime the police were notified and several officers who appeared on the scene were greeted with jeers. The mob began to demolish the doors and windows, and ending with firing the buildings.

News of the riot finally reached headquarters. Colonel Freeman of the 24th Infantry, promptly ordered out several troops of the Fourth Cavalry, with instructions to round up all recruits in the camp and keep them under guard pending investigations, which the military authorities will begin to-day.
