FOOLING THE LISTENER

Paris Statesmen Will Speak Latin Over 'Phone

Ministers Have Resolved That Telephone Girls Will no Longer Have Chance to Betray State Secrets.

PARIS, April 14—Ministers of State and even deputies are brushing up their schoolboy and "Lycee" Latin. There is a reason.

Recently much political and government information has leaked unaccountably into print. Comparing notes, the politicians found no one to blame the betrayal upon but the telephone girls, who had listened at the wire. Instead of giving up talking important secrets through the 'phone, the French statesmen call one another up and converse in Latin, which telephone girls are not supposed to understand.

Not Cicero's Latin, nor even fair ecclesiastical Latin is employed, but good rough-and-ready "dog-Latin" goes. It carries intelligence from one pillar of state to another intelligibly, even if the vehicle be barbarous enough to provoke one of the preceptors of their youth to box their ears. And the "hello" girls, who say "Allo" over here, are raging. Nevertheless the girls will not study Latin. That is too much like work, and nobody who ever used a 'phone in Paris (where it takes half an hour on an average to "get your party") will admit that any telephone girl ever works.

SCIENCE OF CHIROMANCY

Learned Psychologists Discourses on Hand-Reading

Hand Reveals Age, Temperament and Character — Impossible to Predict Happenings in the Future.

PARIS, April 14.—Dr. Vaschide, a most serious psychologist, publishes in the dignified "Review of Philosophy" an elaborate study of chiromancy, the art or practice of foretelling the future of a person by inspecting the lines and lineaments of the hand. He gives results gained by his scientific study under test conditions.

Dr. Vaschide says that the hand alone, the wrist and body being hidden, reveals the sex of a person ninety times out of a hundred.

The hand alone reveals the age of the person with special exactness at ages which mark definite periods of organic development—that is, in trying to determine a person's age from the hand chiromancers make fewer errors when the person is thirty years old than at twenty years, at forty and at sixty. At ages intermediate between these they make many errors.

Vaschide finds that the face helps chiromancers in divining a person's age and intellectual pursuits. But the hand alone gives them, and correctly, a knowledge of temperament and character, including the ruling passions and the state of the moral conscience.

Of fifteen persons with hysteria, ten showed it in their hands; of twenty-five obsessed by fixed ideas, fifteen displayed it in their hands.

Of the claim that chiromancers can predict happenings in the future, the learned investigator finds little proof. If there is any, he says, it is certain that the probability that a prophecy will be verified diminishes in proportion to the remoteness of the date announced for the future happening.

Predictions of death made by chiromancers which came under Vaschide's notice gave no scientific result.

"Such predictions are all chance," he says, "save that I know of predictions of death which provoked mental and physical ills and brought death by suggestion."

MAY BE A RAILWAY WAR

C. P. R. Cuts the Immigrant Rate to Vancouver

Grand Trunk Applying to the Western Passenger Association for Permission to Meet the New Rate

MONTREAL, April 14.—There promises to be a lively skirmish between the Grand Trunk and the Canadian Pacific over the decision of the latter company to reduce its immigration rates to British Columbia. The Grand Trunk has already taken official action. It has made application to the Western Passenger Association for authority to meet the immigrant rates from Chicago, which the C. P. R. will bring into force on May 1, from Montreal and Quebec to the Pacific coast. It is contended that through the Canadian Pacific having lowered the immigrant rates by $12.75 to meet the views of the British Columbia government, which is anxious to secure immigration, passengers will be able to reach San Francisco by way of Vancouver as cheaply as by direct route, and other points more cheaply. The Western Passenger Association were indisposed to take any action with regard to the C. P. R. reduction when the matter last came up for discussion. The Grank Trunk maintain, however, that the cut will have an injurious effect upon their gateways of traffic, and will divert traffic that would go to the States over their system, as the Allan and Dominion lines would turn their business over to the C. P. R. on account of these low rates to the west.

It is thought here that the Grand Trunk will make a cut in rates and meet the C. P. R. through rate.

Considerate.

Prison Visitor—And what brought you here, my man?

Convict 4-11-44—Well, you see it was dis way. Me folks always said I'd wind up in jail, an' I didn't like to disappoint 'em, so I swiped a watch.

WILL MAKE TEST OF PICTOU-ST. GEORGE ROUTE ACROSS STRAITS

CHARLOTTETOWN, P. E. I., April 15.—The Provincial Government has decided to have no tolls on the Hillsborough bridge, which has been built by the Dominion Government at a cost of two million, but on which the Provincial Government pays yearly $9,750 in consideration of using it as a highway bridge in addition to the railway bridge.

As a compensation to other sections of the province fares on the ferry boats will be reduced.

A movement is on foot to have the winter steamers make a test of the St. George-Pictou route, and a message was sent from the marine department to have the Minto make a trip yesterday. In view of the heavy congestion of freight at Pictou and other unfavorable conditions the captain considers it inadvisable to interfere with the regular service at present.

It has been announced that Deputy Minister Butler of the railway department will visit this province during the coming summer and will meet our representatives and business men to discuss with them every phase of the transportation question.

A GOVERNMENT THAT TALKS.

(Edmonton Bulletin.)

The Alberta government's telephone policy now speaks for itself—from Calgary to Banff. A few days ago the first conversation over a government owned telephone line in Canada passed along the wires from the home city of the Minister of Public Works to the town in the mountains. The great National Park of Canada could not hear the voice of Calgary until the new provincial government of Alberta came to the rescue.

The completion of this first link in the chain of government telephones in this province is an event of no small importance. In this undertaking Alberta is blazing the trail and doing the pioneer work. Other provinces have discussed the question and considered it, but the Minister of Public Works here was the first to act and to carry to completion a government owned telephone. The line will be carried on vigorously during the present summer, and before the end of 1907 lines will have been built in many sections of the province and the government system will become one of the important telephone systems of Canada.
