RELIEF FOR FIRE SUFFERERS. ** in the Gamey case distinctly clears \$4,000 Needed at Once to Help Musquash People. +. Many Families Pitifully Destitute----Burning of Mills Will Take Away Their Living. **

His worship the mayor having opened a subscription list at the City Hall for the aid of the sufferers by the Musquash fire, the following committee have been named to take into con-sideration the most practical form of assistance for the families who have been burned out and inadequately insured: Chairman, His Worship White; Geo. Robertson, M. P. P., trea-surer; Hon. A. T. Dunn, Councillors W. J. Dean and Anthony Thomson of Musquash, L. B. Knight, J. A. Bal J. Max Anderson and T. B. Dunn; Joshua Knight, secretary. These gentlemen have decided that about \$4,000 will be required to furnish lumber and other matreials to aid fifteen or sixteen families in building houses for themselves, which will en-able them to overcome in some degree the peace. the sad calamity that has befaller them and the people of Musquash gen-erally. The committee suggests that prompt assistance in this case is most the peace. lesirable, as the work will be done by the people themselves. About \$300 in cash and large amounts of clothing have already been given. In addition

to the payments that may be made at the mayor's office, it may be stated that Mr. Robertson, M. P. P., and Fred B. Dunn will collect what they can. A Sun reporter last night had a chat with a gentleman from Musquash with respect to the condition of the people ash with own there. He said 31 families were burned out, of whom some 9 or 10 were in destitute circumstances. The fences which enclosed the properties of all parties were gone and the cattle were running loose. This gentleman holds that prompt assistance is the best way to assist these people.

The homeless people are at present located at the Dean hotel and the residences of Wm. Cairns, John Mc-Harg, John McLean, Mrs. Gamble Max Anderson, Geo. Stevens, D. H. Anderson and James Reed. A number are sleeping in the Church of England, Hon. A. T. Dunn, the Messrs, Knight and others in St. John have done much to assist these people and Mace's Bay parties. Robt. and David Mawhinney. Empire's resources are illimitable. Un- another direction on that line, the or-

ed a lot of clothing Some eight or ten people who had friends in St. John have come up here, and last night word came up to the effect that several had found quarters in the Orange hall down there. Mayor White of this city has received word from Ottawa, granting the loan of blankets and tents, but the people of Musquash have refused to accept on the ground that they could not guarantee to return them in as good condition as they may be when received. G. Clowes Carman of this city, who

of necessaries went down to Prince of Wales on Saturday. He will send load, which he has himself collected down today. They have plenty of food, but places of shelter are lacking. Al are huddled in about six houses and the Orange hall. The Prince of Wales people find shelter in five or six houses occupied by the McHarg families. It is said that Mr. Knight will take a couple of portable mills down and saw up the logs in the streams. Mr. Carman is of the opinion that a

people worked in Dunn's factory and Knight's mill, and if these or some other industries do not go up will be no inducement to rebuild. He, however, understood that Mr. Dunn would rebuild. The pulp industry was killed by the fire running through the timber Mr. Carman brought to town with

side, and a silver cream jug. The chain was melted. A coat of arms was quite distinct on the cream jug. These were found amongst the ruins of the Carman homestead, and dated back as far as the landing of the Loyalists.

84 Minutes. LONDON, June 5,-Railway racing n this country has been dormant for a while, but now it is beginning again. Two years ago, it may be remem-

coast lines for suprematy of speed be-tween London and Aberdeen via Edin-burgh in the former case and via Glasgow in the latter. It was recognized then that the east coast had the victory. Now they are at it again. Important developments are to be realized between London and Scotland during the summer months. The Great Northern Company, which is the east coast route referred to, has deterr to outdo its former efforts and run trains between London and York a distance of 188 miles, without stop. But the London and North Western

recent great speech was that the Unit-ed Kingdom is old, but the Empire is er victories by making the run her young. There are 40 millions of people tween London and Carlisle, a distance in the British Isles and 15 millions of of 300 miles, without stop, so as to beat

slands of the sea. The extent of the railway has already begun a battle in

their descendants in the colonies. Upon these must fail the burden of Empire, which includes the care of some 350 millions more in India, Africa and the the data and the the burden and South Western

visited Musquash yesterday, said last evening that several barrels and cases

very small percentage of the people will rebuild. A large number of the
