BOHEMIAN SPAS.

Over \$40,000,000 Spent There Each Year by Foreign Visitors.
According to the latest statistics about \$40,045,000 is expended each year by visitors from foreign countries who take the "cure" at the natural mineral spring resorts in Western Bohemia along the Erzgebirge (Ore Mountains). This

does not include the sum spent by foreign transient visitors who stop for less than eight days, or by those from the various crown lands. The grand total is not less than \$45,000,000 to \$50,000,000.
Some idea of the volume of business transacted at the great Bohemian spas may be deduced from the fact that the railroad office in Marienbad, which has a resident population of 6,279, receives from outbound passengers for transportation tickets alone, exclusive of baggage receipts, \$409,000 annually. The post office in the same city turns over to the government, after payment of all expenses, a net profit of a like amount. These figures can be multiplied by three for Carlsbad. The three resorts depending on their natural mineral springs for their purposes (Carlsbad, Marienbad and Franzensbad), pay \$913,500 annually in direct taxes, exclusive of the special assessments.

It was almost with glee that some Opposition papers announced that the Niobe, the Canadian training cruiser on the Atlantic coast, had struck on a ledge. Surely that is carrying politics a trifle too far. The Mail and Empire's heading was "Canadian Navy on the Rocks." The "Canadian navy" did not stay on the rocks, nor will the naval policy of the Government.—Ex.

The facility with which the guns on an American battleship perforated huge box kites at night shows that fighting from the surface still has advantages.
