Quick Work.

BEDSTEAD AND CHAIR MADE IN FIFTY-FIVE

floors of the House by Hon. Mr. McQueen A few days ago the Editor of THE TRIand Mr. Robinson, and was sworn in before Hanington gave notice of motion that ture Factory of Messrs. C. E. Burnham & the Government lay before the House ac Co., and while there Mr. Emery, of the counts of all monies paid for travelling and other expenses of members of the Executive from November 1st, 1870, to Co., and while there in Executive from November 1st, 1870, to Chair, that the editorial optics might see for themselves how such things were done Gillespie moved that all papers in connection with River du Loup Railway be laid before the House from 1st Nov, 1870, the Prince of Wales during his visit to the Willis commenced his want of confidence Upper Provinces! The hard birch speech twenty minutes past twelve.

He said he aided the Government when cutting off saw, where it was cut into cutting off saw, where it was cut into they had in hand the School Bill last ses-lengths, then passed to another circular sion, and gave them his cordial support.
But when that bill had become law and become firmly secured, he thought that where it was ripped up into sizes:—the pieces were then put through the planers where they received a smooth surface and where they received a smooth surface and when the Government lost the confidence of the country on other grounds he could intended for the posts, rollers, bannisters, etc., were then taken to the lathes and Though the Opposition did not oppose turned, other pieces to the machine saws, the passage of the address, it was not an evidence of weakness, but according to the usage of the Imperial and Dominion pieces were then removed to a carpenter's bench where they were "dowelled" and He said that he would assail the Government for their dilatoriness in enforcing whole time actually occupied in work on the School Law; that from May to November of last year nothing was done; and when the Province was districted it was done in such a negligent manner that it has given different hands and she is separate machines; rise to general complaints; that in St. John the arrangements have been so bad that though the Trustees have worked day and that though the Trustees have worked day and the strength of the s night everything relating to school business is still in an inefficient state. In every chined for it; ketches were put on and other Town in the Province the same state quantity of glue placed in each hole,—and the bedstead disposed of in what was equal

would give him the credit of being a most material; the pine block, say 15 inches Even though they had to go out of the Even though they had to go out of the planer, thence to the hollowing macountry for a man he thought it a hardship that operatives of this Province had the work taken from them and all the work taken from them and all the printing and books for the use of schools twinkling of an eye. It was then taken to had to be procured from Nova Scotia when the jig saw, where it received shape, and several printing establishments in St. was then passed along to the Variety John could easily have supplied all the Moulder, where it received its neat size and had its edges rounded :- thence it was He accused the members of the Govern-handed to the boring machine, which soon ment of taking no interest in enforcing the bored the necessary holes for the back, School law, and said the districts in the spindles and legs; thence it was carried to School law, and said the districts in the Province are now in total ignorance of the requirements of the law; and if the Government had displayed as much diligence as in going on fruitless delegations, it would have been better for the Province.

He charged them with inefficiency in the matter of Better Terms; that last Session, in pursuance of the action of the Legislature, delegates were appointed to conter with the Dominion Ministers and try to get better terms for New Brunswick, and that instead of the Province depending on the Provincial Secretary, they had to secure the aid of a non-official member.

Description of the letter terms in the districts in the secure in the sand-papering drum, where it was smoothed and polished, and next it was taken to the bench. In the meantime, a piece of birch had been cut off, ripped up, reduced to proper sizes and sent to the lathes, and other machines; then some went to the tennoning machine, thence to the boring machine and, later, to the polishing drum, and emerged in the shape of legs, spindles, back, etc., which were affixed to the seat and driven together. The several pieces—twenty in number—had been put through eleven different processes, the whole occupying equal to eleven minutes of one man's time. minutes of one man's time.

A party left town yesterday morning for These facts furnish some idea of what A party left town yesterday morning for the North Shore, on a deer stalking expedition. Latest news yesterday says:—
"Stuck at Sussex, waiting for train from Shediac. May expect to get there day after to-morrow. Don't see many deer, Pleasant—very."

These facts furnish some idea of what modern machinery can accomplish, and exhibit at the same time the resources of C. E. Burnham & Co.'s Furniture Factory, of which a full and particular description will appear in to-morrow evening's Tripleasant—very."

A large collection of MEERSCHAUM and BRIAR ROOT PIPES. feb 22
