**WHITELAW REID
DEAD AT LONDON**

American Ambassador to Great Britain Succumbed to Pulmonary Oedema

London, Dec. 15.—Whitelaw Reid, the American Ambassador to Great Britain, since 1905, died at his London residence, Dorchester House, shortly after noon today from pulmonary oedema. The end was quite peaceful. Mrs. Reid and their daughter, Mrs. John Hubert Ward, were at the bedside.

The Ambassador had been unwell since nine o'clock in the morning, and at intervals during the previous twenty-four hours, he had been slightly delirious as a result of the drugs administered to induce sleep. Sir Thomas Barlow, physician to the King, who was called in, last week when Mr. Reid's illness became acute, and his regular physician, Dr. William Hale White, issued the following bulletin as to the cause of death:

"A fortnight ago the American Ambassador had a slight bronchial attack, similar to others from which he had suffered at considerable intervals. On Wednesday last asthma supervened, and the asthmatic paroxysms became very severe, leading to extreme exhaustion. It was hoped that he might rally as no pulmonary symptoms had appeared. With difficulty the paroxysms of asthma were kept under control, but Sunday morning the exhaustion became extreme and he died from pulmonary oedema at 12.10 p. m."

The Hon. John Hubert Ward, who with his wife, had been at Dorchester House, continually since the Ambassador's condition became serious, notified the staff of the embassy when the patient began to sink, and when death occurred he sent word to the King and Queen at Buckingham Palace, the Queen Mother Alexandra at Sandringham, and the officials of the court.

Almost immediately the King sent his equerry, Sir Harry Legge, to express the condolence of himself and the Queen. During the afternoon messages conveying the warmest sympathy were received from the Queen Mother Alexandra and the other members of the Royal family, the Court officials, members of the Government, and of the various embassies and legations, while many who had heard the news of the Ambassador's death, or who had seen the flag at half-mast on Dorchester House, called at the Embassy. A wireless message was also sent to Ogden Reid, the son of the Ambassador, who had left New York yesterday in the hope of reaching his father's bedside before death.

**DRAW 14 FROM
BURNING HOUSE**

Pittsburg, Dec. 14.—More than 200 persons, residents of the Library Apartments, a large residence building in the business part of the North Side, were driven into the cold streets this morning by a spectacular fire which destroyed the structure.

WHY HESITATE.

An Offer That Involves No Risk For Those Who Accept It.

We are so positive our remedy will relieve constipation, that we offer to furnish it free of all cost if it fails.

Constipation is caused by weakness of the nerves and muscles of the large intestines or descending colon. To expect relief you must therefore tone up and strengthen those organs and restore them to healthier activity.

We want you to try Rexall's Orderlies on our guarantee. They are eaten like candy, and are particularly ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on the other organs or glands. They do not purge or cause any inconvenience whatever. They act to overcome chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Two sizes, 10c and 25c. Sold only at our store—The Rexall Store. Geo. Y. Dibbles.

**NOT GUILTY IN
JACOBSON CASE**

Pastor Emelius and Two Other Defendants Acquitted in Murder Trial

Houlton, Dec. 16.—The jury in whose hands the fate of the three members of the Jacobson family, charged with the murder of C. A. Jacobson, was given Saturday at the conclusion of Judge Haley's charge, reported at 1.45 o'clock Saturday afternoon, bringing in a verdict of not guilty in the case of the three respondents.

Dinner was carried to them at noon. Mrs. Jacobson, her son Edgar, and her son-in-law, Rev. C. N. Emelius, the defendants, remained in the courtroom except during the noon recess, awaiting the verdict. Mrs. Jacobson was quite pale from the effects of a hemorrhage of the lungs during the night and the result of the nervous strain of the ten days' trial.

**VALLEY RAILWAY
BUYS LARGE FARM**

Woodstock, Dec. 14.—Representatives of the St. John & Quebec Railway Company have agreed to pay Charles L. Smith \$20,000 for his farm, the price he asked. The transfer will take place as soon as some minor details are fixed up. The farm contains nearly 600 acres and is considered one of the best in the country.

It is presumed that the C. E. R. figures in the sale to the St. John & Quebec Company, as the land is so situated as to be of great value to both lines.

**HORRIBLE ACT
ENRAGED MAN**

Bellefleur, Ont., Dec. 15.—E. D. Wellman, a Rawdon township farmer, aged thirty-eight, committed suicide Saturday afternoon after attempting to murder his fifteen-year-old bride of a year. The latter is so badly wounded that the doctors say she cannot recover.

On Saturday afternoon Wellman borrowed a neighbor's shotgun, saying he wished to shoot some weasels. About 4.30 o'clock he entered the bedroom, where his wife was lying ill, and without warning, fired point-blank at her head. The charge of shot destroyed one eye, carried away a portion of the roof of the mouth and knocked out several teeth. Wellman then went upstairs, reloaded the gun, tied a string to the trigger and discharged the gun with his foot. Part of his head was torn off and he died instantly. Mrs. Wellman's mother, who heard the shots, rushed to the house and summoned help. Coroner Algers, of Stirling, was notified and to him Mrs. Wellman, although mortally wounded, was able to tell the story of her husband's deed.

**AN AGED WOMAN
BURNED TO DEATH**

Sackville, N. B., Dec. 15.—Saturday morning Mrs. Annie Copp, widow of Silas Copp, was burned to death at her home, Jolicoeur. There is a stove in her room and early Saturday morning a fire was made in it. Mrs. Copp got up and sat down by the fire to warm herself, as she had been in the habit of doing.

She was then left alone for a few minutes and later members of the family household heard a thud as if a body had fallen. They rushed to Mrs. Copp's room and were horrified to find her lying on the floor dead. Her clothing was completely burned from her body.

THE HOCKEY PLAYERS.

Maritime Pro-League and Its Former Players Are Cutting Some Figure.

Montreal, Dec. 16.—The exodus of hockey talent and near talent scheduled to entertain the fans and grow rich on the abundant shekels offered in the provinces by the sea, sets in this week in earnest.

Harry Scott left this morning for Halifax. He will play with the Halifax Crescents, and the Fort William speed boy is commanding a big salary in the east. He turned down a \$15,000 offer from Lol Solomon, of Toronto, while stopping off a day in the Queen City.

Two other middle west cracks are also scheduled for the Crescents in the persons of Walker and McGregor, a pair of wing men. Norton and Smeaton, two Westmount defence players, are also being trailed by the Halifax manager, as well as Green, a Fort William defence player.

Fred Doherty is scouting in Ontario for the Moncton team which last year won the championship. So far Doherty has signed up Cross, a goal tender, and Folsome, an O. H. A. player who has had a try-out with the Toronto pros, but did not quite make it. Sydney has been seeking Tetreault, who was with the Wanderers last year.

Walter Miller made a bit with the Wanderers at practice on Saturday. Ernie Liffiton has gone to Toronto where he will report to Manager Nicholson of the Tecumseh. He played in Halifax a year ago.

An old, yet new face at the Ottawa practice Saturday night was that of "Rat" Westwick, the former brilliant rover of the Senators. He is faster than some of the many candidates now trying for places on N. H. A. teams, but it is not "Rat's" intention to "come back."

**AUTOS MEET IN
HEAD-ON COLLISION**

Two Cars Crash Together near Andover—One Occupant Injured

Andover, Dec. 15.—A head-on collision between two motor cars took place here this afternoon, as a result of which Mrs. Alma Armstrong, of Perth, sustained some minor injuries and the car she was on, owned by J. E. Armstrong, of Perth, was completely wrecked. Beyond getting a shaking up the other occupants of the cars escaped without injury, but it was a wonder that some of them were not killed. The other car owned by J. H. Knapp, of Andover, was only slightly damaged by the collision.

At the time of the accident Mr. Armstrong had with him in his car Miss Alma Armstrong, Miss Annie Stewart and Murchie Stewart, all of Perth. Mr. Knapp had in his car Mr. and Mrs. N. S. Wootton, Dr. and Mrs. Welling and Miss Beatrice Welling of Andover.

The accident took place in the main street of the town near the post office. The cars of J. E. Armstrong and George Armstrong were passing down the street nearly abreast. Mr. Knapp coming in the opposite direction at a swift pace, got past George Armstrong's car, but was at a loss as to how to turn to pass the other and before the danger was realized the cars collided with a crash that was heard for some distance. Murchie Stewart was thrown bodily out of the car, but suffered no more serious damage than a few bruises. The accident caused considerable excitement in the village.

A farmer brought a load of 10,000 holly wreaths into the Milford, Del. market, and a broker purchased the entire lot for \$300.

each day to decide upon something that will suit their individual taste and purse. The merchant who has a store full of goods and wants to sell them, cannot sit back and whistle and expect people to know what he has to offer.

HE MUST ADVERTISE.

And the more energy and life he puts into his advertising the better the results, the larger his sales, more money.

To reach the buying public there is but one medium—

A German philosopher has estimated that a single grain of wheat produces 50 grains, and that these 50 will each produce 50 grains more, and so on. Thus he finds that the grain would develop in the following way: In the second year there would be 2,500 grains; in the third year 125,000; in the sixth year 15,625,000,000 grains; in the 12th year 244,140,625,000,000 grains. The third year's crop would give 300 men one meal, leaving enough bran to feed eight pigs for one day. The produce of a single grain in the 12th year would suffice to supply the world with food during a lifetime.
