**and Specks before the Eyes**

Liver derangement is the cause behind these distressing conditions, and only restoration of perfect natural action can effect lasting cure. That is why Dr. Cassell's Instant Relief is so immeasurably superior to the old-fashioned cathartic liver-pills and aperient salts. Such things can only give passing relief by forcing the liver to unnatural action, and have to be continued. Dr. Cassell's Instant Relief strengthens the liver, and so brings about natural action in a natural manner.

Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, sick headache, dizziness, specks before the eyes, flatulence and windy spasms, acidity, heartburn, impure blood, and that dull, heavy feeling which is a sure indication of liver trouble.

Ask for Dr. Cassell's Instant Relief and take no substitute.

## Fashions and Patterns

A Simple, Serviceable Model—1471—What housekeeper or home worker does not appreciate a "cover-me-all" apron of this kind. It is a simple style, good for gingham, lawn, percale, cambric, denim, cretonne or sateen. The fulness may be held over the back by the belt, that may be slipped under the front or may hold the front on the outside. The pattern is cut in three sizes: small, medium and large. It requires 5½ yards of 36-inch material for the medium size. A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

A Simple, Smart Model—1921—Ladies' house dress with sleeve, in wrist or elbow length. Serge, taffeta, gabardine, voile, linen, drill, gingham, chambray, seer-sucker and percale are all nice for this style of garment. The waist fronts show deep box plaits beneath pointed yoke sections. The sleeve may be fin-

ished with sleeve in either of two lengths. This design is nice for serge, satin, taffeta, gabardine and broadcloth, and lovely for combinations of material. In blue serge, with waist of crepe in a matched or contrasting shade, the model will be suitable for general wear and also for more formal occasions. The sleeve may be finished in wrist length with deep cuff and added trimming, or in the comfortable short sleeve style, with turnback cuff. The pattern is cut in six sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. It requires 2½ yards of 44-inch material for the underwaist, and 3½ yards for the overdress, for a 36-inch size. The skirt measures three yards at its lower edge. A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

A Smart and Up-to-date Style—1938—One-piece over dress, having an under

ished with a band cuff in wrist length or with a turnback cuff in elbow length. The pattern is cut in six sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. It requires 6¼ yards of 44-inch material for a 36-inch size. The skirt measures about three yards at the foot. A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

A Simple School Dress with Sleeve in either of two styles—1936—Striped woolen in brown tones was used in this instance, with trimming of brown velvet. Blue serge with braid or embroidery or red cashmere with black satin for collar and cuffs is also very appropriate for this style. The belt portions are stitched to form convenient pockets at the sides. The skirt is gored and is arranged in smart plaits. The pattern is cut in five sizes: 4, 6, 8, 10 and 12 years. It requires 3¼ yards of 36-inch material for a 6-year size. A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

A Smart Style on Popular Lines—1940—Ladies' dress, consisting of a one-piece over dress and an underwaist,

waist in surplice style, with sleeve in either of two lengths (for misses and small women). This style would be pretty combined in satin for the under-skirt, crepe for the tunic and lace, net or tulle for the underwaist. The style is charming in its simplicity and especially adapted to slender figures. It could be made of gabardine or serge with contrasting silk for the waist. The pattern is cut in three sizes: 16, 18 and 20 years. It requires 4¼ yards of 44-inch material for the underdress and three yards for the overdress, for an 18-year size. The underskirt measures about 2½ yards at the foot. A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

A Popular Model—1939—Girl's dress, with blouse and skirt attached to an underwaist. Sleeve in either of two lengths. Serge, gabardine, satin, voile, nun's veiling and all wash fabrics are nice for this style. Corduroy and velvet may also be used. The blouse is full beneath square yoke sections, over the fronts. The sleeve may be finished in wrist length with a band cuff, or with a
