Mr. E. F. Park, Burgessville, Ont., writes: "I have for sale a grand lot of strong Cotswold ram and ewe lambs, a number of shearing ewes and some good rams, two-shear and yearlings, and a number of show sheep for early fairs. Sheep are in good demand."

The well-known champion Hackney stallion, Administrator, was sold at Peterborough, England, recently to Mr. W. Burnell Tubbs at the big price of 975 guineas (\$5,120). The champion brood mare, Rosadora, and her foal at foot, by Administrator, went to the same gentleman at 710 gs. Mr. C. E. Galbraith, who sold these animals along with about 17 others of various ages, and realized an average of over £136 a head, has no reason to complain of any slackness in the demand for high-class Hackneys.

The question of dealing with weeds is one that is pressing itself upon all who have any regard for either the appearance or productiveness of their farms. They are a great hindrance to a farmer's success, occupying space and using up plant food. They are vigorous feeders and thus deplete the land to no purpose. They also draw largely on soil moisture; a ton of weeds (dry matter) requiring from ten to twenty tons of moisture to produce it. The lack of moisture in our land lessens the power of the crops to make use of plant food in the soil. Weeds also require the expenditure of labor each year to keep them in check. This means money.—Fraser.

Mr. W. F. Stephen, Huntingdon, Que., writes: "My stock of Ayrshires came through the winter in fine condition, and, on our luxuriant pasturage, are giving us a heavy flow of milk. Have sold quite a number lately: a yearling bull to the Hon. J. C. McCorkell, Cowansville, Que.; another to Geo. Ewart, Cazaville, Que.; two females and one male to Dr. Geo. H. Dunsmore, of St. Albans, Vt.; a bull calf to Peter Tulley, Athelstan, and one to Jas. Smilie, Huntingdon. I have a very fine yearling bull on hand yet. My bull, Lessnessock Rare Styk's Heir 16818, is developing into a splendid stock bull. I have some grand heifer calves, and one bull, dropped in January and February, from Pilot of Glenora 16743. I expect to spend the next six weeks at Institute work among the farmers of New Brunswick and P. E. I."

Colwill Bros., breeders of Shorthorn cattle and Tamworth hogs, Newcastle, Ont., write: "Business of late has been good in Tamworths, and although we have sold over 30 pigs for breeding purposes during the past three months, we still have a good lot on hand to fill orders with, and the most pleasant part of it all is our customers are invariably pleased with the stock we ship them. We never had a better lot of young spring pigs with which to supply our trade. Our spring litters have come especially strong and healthy. Our old stock hog, Colwill's Choice, is as active as he was at six months old, and his stock never appeared to greater advantage than at present. We are sending his stock from one end of this country to the other, and many of them to the United States."
