Amatite

ROOFING

IF you will write to-day for a free sample of Amatite, the end of your roofing troubles is in sight. It is the one roofing that needs no painting after it is once laid on the roof. If you would sit down and figure out exactly how much it cost to paint a smooth surfaced roofing during its life, you would find that the cost of this paint is more than the roofing itself. Amatite, on the other hand, has

a real mineral surface, and we sell the goods on the broad statement that it needs no painting of any kind. The man who puts Amatite on his buildings is insured against leaks and trouble for many years to come. Send name and address for a sample and booklet, which will prove conclusively how much better Amatite is than the old-fashioned "rubber roofings" which require constant painting and care to keep them tight.

PEERLESS

The Fence You Can Depend On

Peerless is *better* fence because it is made on right principles; from good material, by good workmen—in a well equipped factory.

The **PEERLESS** lock holds the horizontal and cross wires securely at each intersection. Ample provision is made for contraction and expansion due to sudden changes of temperature, sudden shocks, etc.

PEERLESS Fence is made of all No. 9 hard steel wire—well galvanized. When well stretched it never sags—never bags—looks well and wears well. That's why it is "the fence that saves expense."

Improved farm equipment means larger profits for the farmer. PEERLESS Woven Wire Fencing is the latest improvement in farm fencing.

Our free booklet will tell something new about fencing. A postal card will bring it.

This Cylinder shows why the "Eureka" Root Cutter

is the best on the market. See how it is designed. Grooved knives, with the grooves on one blade opposite the teeth on the next. Instead of slicing or pulping, the "Eureka" turns out roots in shreds—thin narrow strips—suitable for any kind of feeding. The "Eureka" shreds from one to two bushels a minute, and turns so easily that a child can operate it. The sloping form of the cylinder makes the machine a self-cleaner. Write for catalogue which explains fully. 7

Boys for Farm Help The managers of Dr. Barnardo's Homes invite applications from farmers, or others, for the boys who are arriving periodically from England to be placed in this country. The young immigrants are mostly between 11 and 13 years of age; all will have passed through a period of training in Dr. Barnardo's English Institutions, and will have been carefully selected with a view to their moral and physical suitability for Canadian life. Full particulars as to the terms and conditions upon which the boys are placed may be obtained upon application to Mr. Alfred B. Owen, Agent Dr. Barnardo's Homes, 50-52 Peter St., Toronto.
