

NO COMBINE BINDER TWINE.

At only ten cents per pound STANLEY MILLS & Co., of Hamilton, are offering the very pick and choice of all the American brands of binding twine. We have handled the same pure sisal brand for four consecutive seasons, and with all our experience in selling twine we have never yet had any other twine of any material whatever to give the great satisfaction that this Stanley Sisal Pure White Unmixed Binding Twine has given our customers in the past. We guarantee every ball to pass without a hitch through any and every machine. No knots or snarls or bunched gatherings in the balls. It is not the nature of pure sisal to have these bunches of waste material, which are so common in manilla and in mixed twines. There is no oil in this twine whatever, but its great point is the way it works. Our customers all agree that it is the best and most even-working twine they ever used. It runs from five hundred to five hundred and fifty feet to the pound, and is stronger than any other twine produced. This twine is manufactured in the United States, and outside of the great twine combine. It is put up in sacks of sixty pounds. Our price is ten cents per pound, f. o. b. Hamilton. Terms, cash with the order. We have only one price, viz., ten cents per pound. We make no reduction for carloads, but have only one price for any quantity, large or small. Send two cents in stamps for sample, or fifty cents for sample ball, and name your nearest express office. We are a wholesale firm, selling direct to farmers and any others who can pay spot cash. We issue catalogues twice a year, and will mail you one if you will send us your name and address. These catalogues are simply illustrated price books of our entire stock; forty pages of interesting matter, if you are a cash buyer. Free to all.

TRADE MARK.

GOOD CROPS OR POOR CROPS?

Which Shall it be for 1893?

W. A. FREEMAN, Esq., Hamilton, Ont.: Oakville, April, 1893.
Dear Sir,—I have used your fertilizers on field carrots with the very best results. I had a fine crop of very large carrots. I would recommend your fertilizers to those requiring a first-class manure.

Yours, etc., (Signed) CHAS. CARSON.
W. A. FREEMAN, Esq., Hamilton, Ont.: Oakville, May 2nd, 1893.
Dear Sir,—I received to-day seven sacks fertilizers, for which I enclose \$28. I found your fertilizers especially good for turnips last year, although the reason was very dry, so this year I would like to enter the turnip contest. Please send me a book of your rules when convenient, and I will do my best to give the fertilizer a help along, and oblige,

Yours, etc., (Signed) ISAAC C. WILSON

THE WORTMAN & WARD MFG. CO.'S SPADE HARROW

The Best Pulverizer! The Best Cultivator! And The Best Harrow Ever Made.

It has no equal for pulverizing hard clay lumps. It is beyond question the best machine for making a seed bed on inverted sod. For preparing fall plowing for spring seed ing, especially in heavy clay soil, where the land is baked or become hard and difficult to move. For cutting up and pulverizing any kind of stubble land, either for the purpose of starting foul seeds or fitting for seeding. It is unquestionably far superior to anything in the market for cultivating any kind of land that is very difficult to subdue. Where every other tool has failed the Spade Harrow will be found to be just the machine needed. We also manufacture the "Daisy" Barrel Churn, Cistern, Well, Force and Wind Mill Pumps, Horse Hay Forks, McKay's Patent Combination Sling. Prices and terms given on application. Address—

LONDON, 332-d-om ONTARIO.

THE LOCKED-WIRE FENCE CO., INGERSOLL, ONT.

Branch Office:
141 KING ST.,
LONDON, ONT.

The accompanying Cut represents five panels of fence and gate of the LOCKED WIRE FENCE.

Each panel represents one rod (16 feet), 7 wires, 4 steel stays. The crimp in the wire, in combination with steel clamp, when locked acts as a spring, adjusting the fence to heat or cold.

—PERFECTLY—
Safe, Stronger, Better
AND CHEAPER
than any other fence.

This is, without doubt,
the best fence on
the American
continent.

All persons having wire fences erected in the past, should use the stays and steel clamps of the Locked Wire Fence Co. on them. The crimp consumes all the slack, makes the fence tight, and adds over 100 per cent. to its value at a very small cost.

We desire to inform the farmers and public generally that we are prepared to supply the material or erect this fence throughout the Dominion of Canada.
