Washington, July 2.—Strikes are prohibited for the period of the war, under an agreement reached between the Marine Engineers Beneficial Association, the American Steamship Association and the Shipping Board, an announcement to-day said. Union members failing to submit grievances to the board for settlement will become subject to discipline by the beneficial association. Overtime payment for all work done off watch at sea- except that necessary for the introcliate safety of the vessels was granted the union. The ruling is one of the most important of numerous far-reaching concessions granted by the board, doing away with the re-cent privilege accorded mates of calling men during their rest hours to any task they might find or devise without extra pay. Such work now will be compensated at the rate of time and a half.

While steaming just at dark, with all lights on and everything showing, those on the Llandovery Castle suddenly fell a tremendous explosion. The shock, they said, was just as though a Zeppelin bomb had been dropped on board. The Captain could not for a moment realize that he had been torpedoed, but he stopped the engines and put the ship full speed astern to facilitate lowering the boats.

And were questioned.

Scattered Wreckage

It is the opinion of the survivors of the ship that after they had left the submarine enemy tried to destroy all trace of the outrage he had committed. The submarine darted to and fro among the wreckage.

The submarine darted to destroy all trace of the outrage he had committed. The submarine darted to and fro among the wreckage, scattering everything, and the captain's boat had the narrowest shave, being rammed and sunk, and in addition fire was opened from the submarine, although there apparently was no target except possibly a boat from the hospital ship. It is though a thorough search has been made in the area where the Llandovery Castle was attacked, there w overy Castle was attacked, there was no sign of wreckage anywhere.

Wireless Destroyed.

Attempts to sent out S.O.S. wireless were in vain, as everything had been brought down by the force of the explosion. Seven boats were lowered. Some, it is thought, got away, though others were swamped or capsized when the hospital ship went down, as they could not get clear.
