MOTION IS RESCINDED

Board of Education Decide to Retain Kindergarten Teachers

Staff will Remain as announced in the Former Draft

The Board of Education at their meeting last night rescinded the motion carried at a previous session by which the kindergarten staffs of the Public Schools was to be cut down.

Mr. McGorvie stated that he had learned that it was impossible for the kindergartens to carry on their work properly with the proposed reduction to the staffs. There had been a decided increase in attendance at the kindergartens, and this had made the task of the teachers all the more difficult. His committee advised that the former motion be rescinded, and that the staffs be as formerly drafted up—one directress and one assistant.

Mr. McLachlan stated that he had since learned that the staffs were crippled in their work, and when the matter was formerly brought up he had not thoroughly understood all the points. He was now, in fact, drafting up, and he moved, seconded by Mr. Richards, that the staffs be left as per the former draft—one directress and one assistant.—Carried.

Mr. Brackin called for the yeas and nays, which were as follows: Yeas—Duncan, McGorvie, McLachlan, Richards, Somerville, McKeough—6.

Nays—Brackin and Morley—2.

It was moved by Mr. McGorvie, seconded by Dr. Duncan, that Miss Jean Angus be appointed a temporary teacher at Central School.—Carried.

Mr. Morley stated that the fence at the Collegiate Institute had been sold for \$15, and that its removal much improved the appearance of the property. The man who had taken it away—Geo. Bartlett—however, had neglected to fill in the post holes as per agreement. This would be attended to, however, by the committee. He moved that the Property committee be empowered to purchase seed for the lawn and have the holes filled in with earth.—Carried.

Mr. Morley also reported that he had instructed Park Bros. to install new grates in the furnaces at the C. C. I., and had sold the old grates as scrap iron. This action was ratified by the Board.

It was moved by Mr. McGorvie, seconded by Mr. Richards, that four more typewriters be rented for the C. C. I.—Carried.

Mr. Morley moved, seconded by Mr. Brackin, that a grant of \$10 be made to the C. C. I. for the purpose of advertising sports at that institution.—Carried.

Will Park wrote on behalf of the family of the late Inspector Robert Park, thanking the members of the Board for their many kindnesses during the recent bereavement of that family.—Received.

Canadian Clergy Swindled.

New York, Oct. 2.—Israel Salniko, a young Russian Jew, pretending conversion to Christianity and missionary worker to proselyte the Jews from Judaism for the Christian Church, was exposed by Dr. Daniel H. Overton, pastor of the Greene Avenue Presbyterian Church, Brooklyn, and Rev. Hickman Denning, rector of Trinity Cathedral, Cleveland, last week, as being a rank fraud and swindler, having victimized clergymen and congregationalists, Catholics and Protestants, out of many thousands of dollars in Boston, Montreal, Cleveland and other cities, including Toronto, by begging contributions and taking up church collections.

Finding the police here after him he skipped out. From papers found in abandoned luggage he swindled clergymen and congregations in Toronto out of nearly nine hundred dollars.

Intercolonial Wins.

Montreal, Oct. 2.—The arbitrators appointed to settle the differences between the Grand Trunk and Intercolonial Railroads regarding running rights to the latter over the Grand Trunk from St. Roch Junction, have announced their award.

The Intercolonial claimed that traffic originating on the Grand Trunk System west of Montreal destined for points on the Intercolonial was being forwarded elsewhere than via Montreal.

The award upholds the contentions of the Intercolonial and holds that the Grand Trunk committed a breach of contract, and an accounting has been tendered to ascertain the damage.

It's a big mistake to act small.

MEN'S ASSOCIATION

more enthusiasm into the work of the church, but it will include in its program much of the work at present done in other cities by Canadian Clubs and Y. M. C. A's. So it will be seen that it is working in a worthy cause, and should receive support and encouragement.

Hon. R. F. Sutherland, Speaker of the House of Commons, was the speaker last evening, and he gave an eloquent, interesting and highly instructive address. Mr. Sutherland is a natural orator of seemingly unlimited ability. His address showed that he is a man of deep thought, which he has the ability of applying in a most practical way. The choice of a speaker for the first meeting could not have been more fortunate.

Mr. Sutherland's subject was, "Church and State," and the theme which ran through his entire speech was man's responsibility to the church and to the state. He introduced this thought early in his address by lauding the formation of the association which he was addressing, and pointing out the responsibilities which rest upon every man in the congregation in making the present undertaking successful.

He had no use for the shriller, if every man in the audience would only perform his part, the effect upon the work of the church would be marvellous.

He then went on to point out what the Presbyterian Church stands for—Education, Liberty, Tolerance, Moderation and Unity.

In reference to the second of these he said there never was a time when the church should be more liberal than the present. Money and workers are badly needed in the Great Northwest, and liberality in spreading the gospel through this country means of great deal in the building up of Canada.

In reference to Unity, he compared the church to the state, and went on to illustrate in a most eloquent manner how that the one principle of Unity brought about the present happy conditions which exist in the confederation of the Dominion of Canada. Branching off for a moment on to matters of public interest, he repeated the words of a well known writer, that in order to establish a nation three things are necessary—a fertile soil, busy workers and easy transportation. Canada at the present time has all three of these, and what is now needed is capital and population, to continue the growth and prosperity. The church should, in reference to the immigration question, bring these new-comers under the very best influences if Canada is to attain to her highest mark.

In speaking of the duties of the Men's Association he gave some very valuable words of advice. One of the most effective duties, if properly carried out, is the encouragement of the pastor. Those who indulge in criticism in many cases, he said, are those who are the least practical workers. Criticism, when it is honest, is right and useful, but indiscriminate criticism should be discouraged and eliminated from every feature of private and public life. Many a useful man has been forced out of city councils through unreasonable criticism which is not reasonable, fair and just, is to be commended, but unjust criticism should be abandoned.

The speaker then spoke of the musical side of the services, encouraging the men present to put forth every effort and reasonable expense to uphold the hands of the pastor by providing the church with the best procurable music. Music is not only beautiful and pleasant, but it also has a practical side in church work. The social side was also referred to, and the speaker closed his remarks with a last appeal for the men to provide their church with and to perform their part with energy and enthusiasm.

At the conclusion of the address a vote of thanks was passed to the speaker, and Mr. F. D. Laurie and Mr. Geo. Wanda gave short addresses on different departments which were added to the scope of the work of the Association. During the evening solos were rendered by J. W. Wilson and R. W. Angus. Frank Phelps acted as accompanist, and also played for the different hymns which were sung.
