

### CANADA GOING THROUGH TRANSITION PERIOD

Will Emerge With Its Usual Safe Method of Dealing With Affairs.

Addressing the Canadian Club in Montreal John W. Daffoe, editor of the Manitoba Free Press, argued that Canada, like the rest of the world, was in a state of change, with a readjustment of parties and the development of political groups, into a new parliamentary system. This was divided between the extremes of ultraconservatism, determined to hold on to existing conditions; and the opposite extreme of the Reds, determined to upset the existing order of things, while, between these there was the great mass of the people, who had no violent tendencies either way. In face of these conditions, Mr. Daffoe argued that the only thing to do was to face things as they were, permit full and free discussion by all concerned, no matter what their views, and, eventually, work out a re-orientation of public opinion so that gradually the country would emerge from this transition stage with its usual safe and sane method of dealing with affairs.

WONDERFUL IN  
**PILES**

Mr. WILFRED AMEY, 42, Lyall Avenue, TORONTO, writes: "On active service with the R. F. C. I contracted piles through sleeping on damp ground. Treatment by the M. O. brought no relief and various 'pile remedies' I tried proved equally hopeless. Shortly after my discharge from the service a friend strongly advised me to get Zam-Buk. One box of the balm brought such benefit that I determined to continue the treatment. In a few weeks Zam-Buk caused the piles to completely disappear. All other sufferers should know of this wonderful herbal healer."

### JAPANESE ARE PENETRATING THE PHILIPPINES

Working for Acquisition of Property Rights in Lieu of Immigration to U. S.

Baron General Tanaka's visit to the Philippines will end Tuesday, and upon his report to Tokio, coupled with Governor Woods report to Washington, is believed to hinge the future of American and Japanese relations concerning the Philippines. The Japanese seem to be working for the acquisition of property rights in the Philippines with, it is understood, an agreement to abandon further efforts towards immigration to the United States. That is something more than a surmise, but is wholly unofficial, as nothing is being given out.

It is positively learned, however that Japanese capitalists, desiring to invest in a sugar plantation here await the outcome of the negotiations. They refer to their virtually forced leaving the Payatas estate last year after purchasing the same in good faith. They also are deterred by the killing of nearly fifty Japanese planters and laborers in the Davao gulf region during the last few years. The Japanese have endeavored, with indifferent success, to establish profitable hemp projects there in the world's premier hemp region.

Governor Wood left Manila last night for a trip including Davao, in tending to make a two weeks' voyage but Mayor Peter Bowditch, of his confidential staff, has been in Davao for three weeks, going into every phase of the situation.

Baron Tanaka will leave the island prior to Wood's return to Manila, but the governor pinned a medal on Tanaka's breast on the eve of his departure to Davao. Baron Tanaka has been Governor Wood's official guest here ostensibly returning Wood's official visit to Japan last October. The Governor's being in Baguio when Tanaka arrived and leaving Manila before his departure is variously weighed, according to students of

### WHAT CAUSES HEADACHES?

"Fruit-a-lives" Prevents Auto-Intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial Constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood. As a result, there is Headaches, Indigestion, disturbed Stomach, Pain in the Back, Rheumatism and Eczema and other skin diseases. "Fruit-a-lives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich. 50c a box, 6 for \$2.50, trial size 25c. opinion here but nothing but apparent cordialities have been noticeable on the surface. The visit has been accompanied by series of formal and informal banquets, dinners lunches and speeches and the whole gamut of statecraft etiquette.

The under-surface opinion is that Washington will reply absolutely on Governor Wood's recommendations. It is also believed that Japanese seek chiefly trading opportunities for the purpose of making the Philippines a profitable midway station between Japan and Australia, but they also undoubtedly desire their old and new land purchases and plantation projects protected, especially the lives of the planters and laborers as fifty killings have rancored them more than is generally supposed.

### THE BUSINESS OUTLOOK

A former mayor was heard to remark last week: "This will be the best summer that Canada has ever had, Nobody has any money and everybody will have to work."

There is more truth than poetry in the remark. Up to the present time the condition has been: A couple of dozen millionaires have controlled manufacturing in Canada and have been charging three prices for their goods; a fairly large section in the unions forced up the trammen's wages under the McAdoo scale, and the railways increased the passenger and freight rates. Some 90 per cent of the people of Canada suffered patiently for years the theft of their money. People act in masses. They were slow to resist the rising tide of prices, but when the idea of the buyers strike did take root, it grew and bore fruit rapidly. With the refusal of the people to buy and a prospect of a lower tariff with the United States the manufacturers have been brought to their knees; the freight rates have been materially reduced because the railways wish to have freight to carry, and the workman must give an honest day's work for a good living wage.

The spring has opened with trade conditions very much improved, but if the former mayor correctly reports it, "nobody has any money and everybody will have to work" The watch word should be courage, says the Manitoba Free Press, rather than hope. No miracles are going to happen. The clouds are not going to disappear in a moment letting the sun shine with all his old-time splendor and setting the birds a-singing. People are not going to get anywhere in 1922 by speculation or by sitting about waiting for something favorable to happen; but it would not be surprising if it were to turn out to be a fairly good year for men of our age—men who are not afraid of the future, who are not afraid to take legitimate business risks, and above all who are not afraid to work in the good old fashioned way that has gone somewhat out of style in recent years—Exchange.

### No Appetite

Nervous exhaustion leads to distaste for food. The nerves of the stomach are weak, digestion fails and you become generally upset and out of sorts.

The secret of complete restoration is in getting the nervous system fully built up.

Mrs. R. Cheney, 208 Richmond St., Chatham, Ont., writes:

"I was troubled with indigestion, which caused me many sleepless nights. I would be in terrible distress at times, and would get no relief for two or three hours. For sixteen months I ate nothing but Shredded Wheat biscuits, as I dare not eat anything else. I did not know what to do, as I had tried so many different remedies, as well as doctors' medicines, without gaining permanent relief. Finally I got some of Dr. Chase's Nerve Food, and while on the second box noticed that I was improving. I continued the treatment until I am now fully restored, and have returned to my regular diet. My husband has also taken Dr. Chase's Nerve Food with splendid results, so we are glad to recommend it to others."

If you have never tried D. D. D. for skin disease, whether a small spot, or whether one of the dreaded forms—the torment of eczema or the hard scales of psoriasis—put a bottle on our guarantee that if it does not relieve, your money will be refunded. \$1.50 a bottle. Try D. D. D. Soon.
