There was also a large number of graduates is understood that the visitors will be banin the audience. The proceedings were opened by the oraion of president Harrison. The following extract from Dr. Harrison's eloquent and valuable address will give the reader an idea of the nature and scope of the president's able and scholarly address in praise of the founders of the university:

> DR. HARRISON. May it please your honor:

Sentlemen of the Senate and of the Alumni after the landing of the Loyalists, Sir Howard Douglas was appointed lieutenant governor of New Brunswick and major general in command of the troops in the province New Brunswick had a population of 74,000, jactatus et alto. and could boast of only five great roads. It was Sir Howard who designed the Nerepis 'Horses." we are told. "could trot the course Music in the Air. - Major Gordon has the time, but Lady Douglas saved the Doug- fer on him the degree of D. C. L. The public contained the record of her husband's servihouse now occupied by Sir John C. Allen. In connection with the re-printing of his annual address, I have received permission

which is self-explanatory:

Du Mount St., Grovonor Sq., London, England, Jan. 23, 1890. MY DEAR SIR, - You may perhaps re nember my name when I remind you that Chief Justice Allen introduced me to you in the Metapedia on a fishing trip. They will the latter part of September, 1888, at the university of New Brunswick, and that you kindly showed me over the college buildings. On that occasion you asked me if I knew who represented the late Sir Howard Douglas, and you put into my hands a copy of the university calendar for 1886-87, containing a reprint of Sir Howard Douglas' inaugural address as the first chancellor of the university, with the request that I would forward it to his representative? At that time, as I told you, I did not know who his representative was, but I kept the matter in aind, and having recently found out, I forwarded the calendar to him. He is General Sir Robert Percy Douglas, Bart. He is now an old man, having been born in 1805, and a soldier who has held high office, having of parliament for Liverpool. In 1847 he rebeen governor of Jersey and lieutenant governor of the Cape of Good Hope. You have given him great pleasure by sending the calendar to him. In acknowledging it to the time of his death in 1861 King's college me in a letter he says that in his retrospect had become the university of New Brunsof long years nothing is more marked in his wick. collections than the deep and sustained inerest his dear father retained unto the very last in regard to his sojourn in New Brunsof New Brunswick, and that he is proud to think that the relations of his father with the senate of the university are still remembered. He has also sent me the accompanying letter to be forwarded to you, a task which I have great pleasure in performing and of thus becoming the channel of communication between you. I entertain a very pleasant recollection of my afternoon visit to you. The beauty of the situation and the view of the city below through the trees, with their autumnal tints, impressed me as befitting the university; and I have since been interested in looking over the calendar

> If you have an opportunity will you re member me to Chief Justice Allen, and with dear sir,

Very truly yours, F. W. GIBBS.

After the fire Sir Howard moved to the translates as follows: "Most illustrous vicechancellor and you learned doctors, I present a distinguished man to you adorned with many virtues and honors, belonging to to publish the following correspondence military and civil affairs as well as to literature - Howard Douglas - a knight and a baronet, a worthy heir of the latter order from a renowned father, the former richly derived from his own king and that of Spain, a member of the Royal Society of London on account of the fame of his writings, for many years the governor of New Brunsof the province lastly a chancellor of a col-

> the man! I now present him to you that he | years' course. may be admitted to the degree of a doctor of civil laws, honors and causes." The Duke of Wellington gave Sir Howard a most kind welcome and Sir Walter Scott persuaded him to be his guest at Abbotsford. In 1835 Sir Howard was appointed lord high commissioner of the Ionian islands, where he won universal respect and esteem during six years of office. In 1842, shortly after his tired from public life, being then in his 72nd year. His life was prolonged till he had nearly completed his eighty-sixth year. At

It would be in bad taste for us to compare our college with the other colleges of the maritime provinces, but we are certainly wick, and especially to his share in the free to compare ourselves with ourselves. establishment in its present form and in its For certain reasons I am desirous, at the existing academical home of the university risk of being tedious, that the following facts and figures should be given to the public. I have counted the names on the matricula and the number of degrees conferred from 1829 to the present time, and I have arranged them in periods of five years with the following results: Let us begin with the names on the matricula. For the period ending 1834 there were 20 matriculants in all; for the next five years 32, for the next 33, then 30; making a total number of those who university of New Brunswick, from 1860 to 1864 inclusive, there were 69 matriculants, for the next five years 74, for the next five following years just the same number, 74, then 79, then 91, and for the last five years 162, making a total for the university of kind regards to him and you, I remain, my New Brunswick of 549 names on the matrithese 162 have been entered in the last five years. It is true that a number of these have not attended lectures after matriculation, but still the university is enlarging its different centres. Let us now apply another

test and a severer one, namely the total number of degrees conferred. For the period ending 1835 the number of degrees conferred was 20: from 1835 to 1840. The letter of Mr. Gibbs affords me the very 17; from 1840 to 1845, 23; from 1845 to 1850, 25: from 1850 to 1855, 33: from 1855 to 1860.

For the university of New Brunswick, from 1860 to 1865, the number of degrees confered was, 41; from 1865 to 1870, 60; from 1870 to 1875, 70; from 1875 to 1880, 67; from 1880 to 1885, 88; from 1885 to 1890, 98;

It should be added that besides these there are twelve students who have completed their its barriers of subscription, once more eleerning body of the university still, after a lapse of 60 years, retains a grateful sense of the devotion shown by my dear father to the devotion shown by my dear father to the cause of higher education in the province of which he was the Lieut. Governor. My

There is then no ground for despondency on the score of numbers if we compare the present with the past. The question remains, are we trying to adapt ourselves to the wants of the people with remains a grateful sense of the central Railway Company will be held at the office of the Secretary, in the cuse of higher education in the province of which he was the Lieut. L. A. Curry, J. D. Hazen and Arthur I. Trueman, all barristers of St. John. Dr. Bridges then presented Rev. James R. Mace for the degree of Ph. D., which was with regret that the old cannon is no more conferred upon him. There was an outburst of applause when the venerable metropolitan arose and pre- tered far and wide. The boys then repaired

sented Sir Leonard Tilley for the high honor-

ary degree of LL D, and as his excellency bowed to receive the honors, the building rang again with hearty plaudits. F. L. CHRISTIE, A. B., the valedictorian for the class of '89 then delivered his address. Mr. Christie's valedict-

ory was well delivered and the references to the question of reading was loudly applauded by the students. REV. J. DESOYRES.

After claiming indulgence for the prosaic treatment of a very simple though important topic, the speaker reviewed the various methods which had been tried in other universities to reach satisfactorily the numerous 38, then 25, and for the period ending 1859, class of young men intended for a business life. The English universities for a long time had provided solely for two classes of matriculated at Kings college 173. In the | time had provided solely for two classes of students; firstly, those whose aim was to pass three years pleasantly, and secure, if possible, the hall-mark of a degree, and secondly, those to whom the attainment of high honors meant the measure of the future career. But the great residuum, the vast cula. In 31 years there were 178 names on afford to pay some thousand dollars annuthe matricula of Kings college. In 30 years ally for an education which would have there have been 549 names on the matricula little apparent or direct benefit, remained of the university of New Brunswick, and of untouched. The university was not for them. About twenty years ago, however, great changes took place, especially at Cambridge, and the vitality of the institution was well proved by so wide a reform work by holding entrance examinations at being accomplished peacefully. The old school of rulers, those "heads of colleges," First, the establishment of new triposes, or

who, as Pope most unjustly said of Bently, 'slept in port," were slowly passing away, holding up hands aghast at the changes. honor examination, embracing subjects which before had been deemed unworthy of such a dignity and only fit for leisure hours. Then can e the vast development of the study of natural science; then the creation by Professor Humphrey of an efficient medical faculty. Still later the adoption of the Oxford system of class lists, and above all the purging away the narrow sectarian machinery from her theological school, with vating the study to its true position as the

strength.

admirari far removed from the poet's graceful affectation, but the result of deficient depth, lack of heart and soul and One of the remedies must be found in efficient secondary education. The problem narrows itself in this province where you have the foundation laid in the system of common schools, while England is still the prey of conflicting reactions. What is to be the superstructure - what is to fill up the too brief period of time left, as it were unwillingly, to the educator? The mere retention of the boy till a later age at the day school, will not meet school, or the university with early admission and suitable curriculum; each PRACTICAL will have its supporters and its arguments. But a serious fact in the scale is that the

province possesses no Rugby or Uppingham, while it does possess a university HAS IN STOCK A FULL LINE OF Scotland had tried the experiment for centuries, and with success, why should it not succeed here. You will receive our vouth, and we must send them. We must raise up our young generation if they are Fine Rolled Plate Chains, etc. to prove worthy of their loyalist ancestry, and everything usually found in a first-class jewelry store. and it is by light and knowledge that they will gain strength. This is no local A FULL LINE OF vanity, we bid God speed to the sister in-

to the neighbor about to celebrate the Of the best makes. memories of past activity and success. May we not hope to recall something of SILVERWARE the old enthusiasm for learning, for simple living and high thinking which attracted to the old universities in days gone by thousands from all ranks of society. May ENGRAVING

couraged by our governors for research and experiment, a refuge from the narrowness | The Cheapest Place in the City for Fine Work of sect and party which still beclouds us. and Fine Jewelry. Here we can take sanctuary from the jar ring elements, and join, not only in word. but in the efforts which shall make the wish a reality, in your aspiration: Floreat semper Universitas Novi Brunsvici.

then announced as the subject for competition for next year's Douglass essay:

To DAVID KING, formerly of the Parish of Kings-clear, in the County of York, Farmer, and to all others whom it may concern. then announced as the subject for competition for next year's Douglass essay:
Emmerson's life and works, and the audience poured forth to the lower hall and terrace to enjoy the pleasant evening and listen to the fine programme of music by the Fredericton brass band. Here college songs, interspersed with dancing and promenading, were kept up till midnight, thus closing the college year of 1890 by one of the most pleasant and enjoyable occasions that has ever been witnessed at the university.

The time honored custom of firing the old cannon was then taken up by the students. Many old graduates will learn with regret that the old cannon is no more since '90. The second discharge was too much for it, and its fragments were scattered far and wide. The boys then repaired to the officers' square and the government artillery did yoemen service in awakening the city.

NEW ADVERTISEMENTS.

All the right, title, interest, property, claim and demand whatsoever, either at law or in equity, which Daniel Crowley had on the 19th day of March, A. D. 1889, in and to "All that certain lot, piece or parcel of land, situate, lying and being in the Parish of Manners-Sutton aforesaid (formerly Kingsclear) granted to one Jeremiah Crowley under the Great Seai of the Province of New Brunswick, by Grant No. 4847, dated the fourth day of August, A. D. 1851, containing fifty acres, more or less, and distinguished as Lot Number Thirty-two east." Also

A. D. 1851, containing fifty acres, more or less, and distinguished as Lot Number Thirty-two east."

Also

"All that certain other lot, piece or parcel of land, situate in the said Parish of Manners-Button, adjoining the above mentioned lot, and granted to the said Jeremiah Crowley under the Great Neal of the Province, by Grant No. 7710, dated the twenty-second day of September, A. D. 1856, containing fifty acres, more or less, distinguished as Lot Number Thirty-two west." Also

"All that crtsin other lot of land situate in Roach Settlement (so called) in the said Parish, owned and occupied by the said Jeremiah Crowley at the time of his death, containing one hundred acres, more or less, known and distinguished as Lot Number Fifteen, on the eastern side of the road," together with all buildings and improvements thereon, and all privileges and appurtenances to the same belonging or in any manner appertaining.

The same having been seized and taken under and by virtue of an execution issued out of the County Court of the County of York, at the suit of James R. Howie, against the said Daniel Crowley.
