GENTLEMEN, —My neighbor's boy, 4
years old, fell into a tub of boiling water,
and got scalded fearfully. A few days
later his legs swelled to three times their
natural size and broke out in running sores.
His parents could get nothing to help him
till I recommended MINARD'S LINIMENT, which after using two bottles,
completely cured him, and I know of several other cases around here almost as remarkably cured by the same Liniment,

settie down in the heart of working districts. The scheme is, no doubt, better adapted to the Continent, where Catholic workers are to be found in such large numbers, than to this country; but if such an order w re formed, it may be safely asserted that the members would have ample scope for zeal and energy wherever they cast their lot. They could most profitably devote themselves to lectures, and to the founding of associations and irstitutions of various kinds for the benefit of the toilers. In Germany, France, and Belgium social activity on the part of Catholics has reached an advanced stage, and we should not be surprised to see such an order as Dr. Eglert contemplates springing into life at no uistant date, The Church has always given to the world congregations qualified to grapple with the needs of the times, and on the Continent at least, an Order having sympathy for the workers as its guiding metive would seem to be a requirement of the day-Liverpool Catholic Times.
