### The Champion Won

**JOHNSON MEETS COOK.**  
A few days ago one of the leading residents of Northern Bight, Trinity Bay, walked into Franklin's and bought a FRASER ENGINE, he had examined all the different makes in town including Dr. Cook's. He said the FRASER has less rods and fittings about it to get out of order than other makes, it certainly is easily understood, it looks good and strong, and from what Capt. Dan Green, who used ONE on the Labrador the past summer tells me it is the best Engine made for fishermen. This is why I am buying a FRASER. The Champion won, and Dr. Cook was down and out, the right estimate being placed on him as usual.

### Juvenile Meeting

Albert Edward Branch of the Nfld. British Society held its monthly meeting last evening, there being a large attendance of members. Five new members were added to the roll and several others applied for membership. It was announced that the amusement rooms will be opened to the lads for the winter months. The Society will parade with the parent body on New Year's Day when the new badges will be worn. On the second Monday in January another meeting will be held when the reports of the various committees will be presented and dealt with.

Simplicity, Durability and reliability are features of the FRANKLIN'S.

### Hr. Grace Notes.

The Bell Island steamer, Baleine, arrived here on Saturday night en route to Bell Island from Halifax. She had on board a quantity of explosives, and consequently anchored well off in the Harbor.

The funeral of the late Mrs. Edward Pippy took place yesterday afternoon, and was attended by the members of the Salvation Army here, of which Mrs. Pippy was an adherent, also by a large number of other friends.

Sergeant John Ryan of Trinity was in town yesterday, and his friends were pleased to meet him. The sergeant was en route to St. John's with a man belonging to Trinity to undergo treatment at the Asylum for the insane. Coming up by the S. S. Ethie on Saturday they missed the train by about half an hour. Yesterday morning he came up here and placing his charge in the keeping of Mr. Trapnell for the day, he took a turn about the old town, where he did duty for so many years.

Mr. W. J. James has just been honored by his brethren of the Masonic Lodge here by being elected its master for 1913.

A very enjoyable and intensely interesting Thanksgiving service, took place at St. Andrew's Church last night. The service was under the auspices of the W. F. M. S. of the Presbyterian Church. The reports read were very encouraging, and showed that though but few in number the ladies of the Church are doing a lot for their cherished cause. The Rev. J. S. Sutherland of St. John's, gave a very interesting address, giving some surprising facts as to the amount of work yet to be done for the missionary cause. A prettily rendered solo by Miss Thompson was the next item on the program, the accompaniment being in the hands of another of our talented young ladies, Miss Whiteman. The Rev. T. B. Darby came next with an address on the Mission Work. Mr. Darby is a favorite at meetings of this nature, and his remarks were well received, if one can judge by the very nice collection taken up at the close. The choir of the Methodist Church who kindly assisted the choir of St. Andrew's rendered a very pretty anthem. The Thanksgiving service for 1912 was indeed a great success.

Several young men were running up Water St. on Saturday night and as one was running some distance ahead of the others a pencil-pusher thought it a good time to ask: "Who is that?" The answer which came quickly, was a surprise, for he said "Bell Island boat." Quite a curiosity we thought to see the Bell Island boat going up Water St. of course he meant the boat had just arrived.

### Cruel Treatment.

At 8 o'clock last night Const. Noon found a horse standing at Adelaide Street without any person in charge of the animal. The beast had been there from 5 till 8 p.m., when the officer placed it in Mr. John Fitzgerald's stable. The owner will likely be prosecuted for cruelty.

### Seamam Hurt.

The sherr. Nellie M. which arrived on Sunday from Macao via Barbadoes and Charlottetown had variable weather. At one period she was 25 days becalmed, then had it stormy and lost her foresail and mainsail. While at work when in Barbadoes seaman Jeremiah Osmond of this city cut his knee severely with a drawing knife and is in hospital there.

### Great Welcome for Coaker

AT CHANGE ISLANDS.

Special to the Evening Telegram.  
**CHANGE ISLANDS, To-Day.**  
The President of the Union arrived here Saturday from Coakerville in the height of the gale in Capt. Joseph Elliott's motor boat. The President spent Friday at Herring Neck. The people accorded the visitor a grand reception, although all had given up hope of his arrival owing to the gale. Flags were hoisted and guns belched forth their welcome; not even a hurricane of wind was sufficient to tame the people's enthusiasm. A crowded meeting was held at the Fisherman's Hall in the evening, when the President delivered a two hours' speech, dealing with the Union's political aims. The meeting was addressed by delegates from the Straight Shore en route to Bonavista. The President, accompanied by five delegates, left early this morning for Bonavista by the Fogota. The weather is very wintry and gales of wind seem to be the order of the day. Change Islands Council is a unit for Coaker, and there won't be 20 votes cast against Coaker here next fall. The people generally agree that the Advocate has sent the Chronicle to an early grave, and no one here regrets its disappearance. Volleys of musketry belched forth their welcome again as soon as the last moment of Sunday was expired, and the people kept cheering and firing for Coaker until 7.30 a.m., when the Fogota steamed out of sight in the snow. The men then left for their home cheering for President Coaker, the future candidate for Fog District. THOMAS W. PECKFORD.

### Fairbanks.

The boat which leads in autumn's gales Without the need of oars or sails, An engine has which never fails, Fairbanks.  
Though many agents on you call To sell their engines, big or small, Barr has on hand the best of all, Fairbanks.

One hundred thousand is the test. All working on the ocean's breast, Which clearly proves that they're the best, Fairbanks.

A boat with one like birds may soar When leaving land or nearing shore Though water over it may pour, Fairbanks.

Never yet have one gone wrong. Sampson wasn't half as strong. They're spoken of in prose and song. Fairbanks.  
To work them is a simple thing. They pleasure to possessors bring. Of all the engines 'tis the King, Fairbanks.

### Cable News.

Special to the Evening Telegram.  
**NEW YORK, To-day.**  
A rumor is current in London that the Irish Crown Jewels, mysteriously stolen from Dublin castle in July 1907, have been mysteriously replaced intact in their original position. It has been impossible so far to obtain corroboration of this report.

**LONDON, To-day.**  
Austria's refusal to submit the Austro-Servia differences to the conferences has created an extremely bad impression in St. Petersburg, according to the Daily Mail correspondent. Stocks fell heavily yesterday in spite of the efforts of the Government to prevent a panic.

**CORONA, Alaska, To-day.**  
Nine men are believed to be killed yesterday when a snow slide on the Copper Mountain carried away seven buildings. Eleven men were buried under the avalanche. Only two have been recovered alive. The mine which is copper property is owned by the Great Northern Development Co.

**ST. PETERSBURG, To-day.**  
Russia's attitude with respect to the Balkan situation has not been changed by the apparently serious military preparations of Austria. The Imperial German Chancellor's pointed speech in the Reichstag, and the renewed triple alliance.

**SYDNEY, To-day.**  
The Dominion Coal Co. added to its fleet 2 steamers, the Corunna and Nevada, each with a carrying capacity of 1400 tons.

### Conundrum for Dr. Cook.

Out of ten Fishermen buying Motor Engines at the Battery, St. John's, this fall, who examined all makes, and evening after evening discussed and argued the merits of all. Why did every one of these ten practical fishermen buy FRASERS.  
Answer.—Because, after the fullest investigation they knew the FRASER to be the best.—Nuf Ced?
