To the Electors of St. John's West: A few weeks hence you will be called upon to cast your vote for the Candidates to represent the above District in the House of Assembly for the next four years, and a few words with reference to the various 'nomin

SIR E. P. MORRIS.

I will first take the record of the Morris, who is posing at the present time as the 'Saylour' of our country. His name has been figuring lately in some notorious dealings especiall in connection with the famous 'Mori son' Timber episode, and his direct denial that he never, in all his pub mote or otherwise in any shady spec ulations in connection with the dis-posal of certain mining and timber properties to outside capitalists, al though his name appeared recently in a 'Prospectus' as holding a number of shares, together with other promir ent public men, the facts of which have already appeared in your paper. As this matter has never been cleared up, perhaps it is possible that Sir Edward might publicly and by affidavit deny same. Otherwise he will be ranked in the same class as Piccott and others of that ilk, who have been striving their utmost since they became Crown Ministers to loo the Public Chest right and left. The Morison affair is too well known to the intelligent readers of the People's Paper, to need further comment by me, suffice it to say that Morris condoned the Minister of Justice's acts right through and even went so far as to say that it was per fectly ridiculous to think that Mori son had any real motive in this fa mous deal as far as his honesty an integrity was concerned. It would also be interesting to know what Morris thinks of the now historical "Clap the Grips" letter of Piccott who did his utmost to fleece Mark Gibbons out of his just rights in a sale timber property made sometime ag to one Soy, and it was only on an appeal to the Courts of Justice that Piccott was made "cough up" Gibbons' portion of the spoils. This, gentlemen, is the man who is appealing to the West End Voters for a further return to power to enable his Executive Ministers to sell the best inter ests of this poor old country for mer financial gain, and personal aggrand izement. The people are astonished at some of the notorious "goings on the past four years of Tory administration, and should they get by an

lease of power, then the outcome HON. JOHN R. BENNETT. I will now take Sir Edward's lies tenant in this District John R. Ber nett, who is appealing to the country on his merits as Colonial Secretary What has he really done for the masses in the electoral division of the West End? Absolutely nothing, but has he been dilatory in looking after his own personal gains? For facts and figures in this direction I would refer you to the recent statements published in the columns of The Evening Telegram. He has received large sums in arbitration fees an ossible by huge arbitration fees amounting to thousands of dollars which will come out of the pockets of very tax-payer in the Colony, Suc post as Colonial Secretary requires man of keen foresight, ability, energy and diplomacy of a large ex-ent, and not the ability of a man of froth." So much for John R. We now come to Michael J. Ken nedy, and what do we find to justify in the least degree, his eligibility or

sultability for re-election. Simply read the list of Government building firm of M. & E. Kennedy figuring in colossal sums. Paid patriotism al-

right, and a great incentive for Michael to follow up his leader through thick and thin. The above is only a mere bagatelle of some of the doings of the famous trio, and I could recite many more outrageous pickings which possibly you are al-

pickings which possibly you are already aware of.

Now we come to the Opposition candidates. Just make a comparison and what do you find? Have their names ever figured in huge land scandals? No. Have they ever been guilty of wrong doing in any enterprise, whether private or public? The answer is obvious. Why? Because

does not need any introduction or comment, suffice it to say that he is a man of sterling worth, and one who has been noted for his philan-thropic work for many years. In his capacity as Mayor, he has always shown wise judgment in all moveshown wise judgment in all move-ments appertaining to the welfare of the city, and the people have yet to be shown any of his predecessors who have done better work for the municipality. When he represented the District of Ferryland some years ago, he proved himself a faithful member in every conceivable way, and his constituents had good reason and his constituents had good reason and his constituents had good reason to be proud of the excellent work in-augurated by him for the district. Possibly the most outstanding fea-ture in the Mayor's life is his long and honourable connection with the T. A. and B. Society, and his untir-ing efforts on behalf of Temperance. He is, as I have mentioned, an hon ured member in the above Societ, not soon be forgotten. This, gentlemen is only a brief synophsis of the career of the West End Opposition Leader, and it is unnecessary for me o say that if elected, as he surely

in general. We now come to Mr Ellis's right hand man,

of the firm of Hon. John Anderson, who has proved himself in a very short time, one of the shrewdest business men of Water Street. As a platform speaker he has very few ness acumen, should make him or of the most successful members the House of Assembly. He is great favourite both in Church a Social affairs, and his advice is eag. ly sought in these directions. The is no doubt whatever but that M Cowan is one of the coming publications. men of the country, and I predict fo him a brilliant success at the forth coming elections. Our esteen

successful business man, and word is his bond at all times, and one of the faithful few who did desert Sir Robert Bond some years ago. He is a true Liberal in the true sense of the word, and at all has stood by Liberal principles. The above, gentlemen, is only a short description of the candidates who will appeal to you for individual support on the 30th October, and it behoves everyone of us to stand by the old Liberal guard, and oust fron power once and for all, those who are aptly described by their own journal as paid "placemen" and "pensioners" of a rotten Government, "Easy Street," made possible by deof our public service. You will hear from me again in the near future on some of the grand

CLEAN ADMINISTRATION:

Labourers and Workingmen generally, day after day you are having it served out to you by Morris's pap-fed papers, how interested he is in your welfare, and that his great interest in you and your families is the one thing that goes between him and his sleep. Are you going to allow Morris and P. T. McGrath to pull the wool over your eyes? Are you going to allow yourselves to be made a laughing stock by such tricksters? Are you laborers as forgetful as Donald? Do you men, you laborers, forget how you were turned off the dock only last summer, and the poor section men compelled to come in off the line and take your places on the steamships with a cargo of rails? This, scandals committed by Ministers of with the cordial reception given vol-the present Government in their mad untary by the residents of the Battery, Signal Hill, Plymouth and Quidi Vidi Roads, tells positively without a doubt that St. John's East is as it always was Liberal to the core. In fact the Tory-Reid pawns will be, as far a the city is concerned, practically snowed under, for the East Enders are determined to uphold the glorious tra-ditions of their forefathers by casting the largest Liberal vote on record o the 30th inst., as victory is perched or the Liberal Banner and as was show Monday night by many of the young voters standing in their doorways flags

Your Duty.

Nothing to do with the Custom if he didn't get off the premises, by one of the "swelled-head" bosses? Is the little labor that you are getting there now, to gull you until after election day, going to cause you to forget? Again, are you laborers going to forget how you were treated by Croshie when he neeked you off the world's goods to keep them in comfort. Very well, You did not reach this satisfactory "MIANUS KEROSENE" suppose that you are a man of family the market, but none of them came up with sufficient of the world's goods to our requirements until the Mianus state of affairs without care and labour-few men do. Suppose you are awakened some night with shouts of alarm ringing in your ears. Too what late then to talk of prudence; too late then to say: "If I had only, etc., etc." That "If" means too much to many get on Polling Day? Are you going forgetful people. Is it not always the duty of a self-respecting citizen to those within it. Is it any more then his duty to those depending on him to protect them as far as possible?
