MR. KRUGER'S

The Old Gentleman Loath to Give Up the Game.

Fighting on the Portuguese Frontier-"Fort Canada." So Named by Baden Powell.

London, Sept. 22 .- A St. Petersburg dispatch says that Kruger's object in coming to Europe is to appeal to the tribunal of international arbitrators instituted by The Hague peace conference, to which Great Britain is a signatory power. It is stated on trustworthy authority that Russia will not depart from the policy of non-interference in South African affairs, because the czar is most anxious to maintain good relations between the powers, in order to settle the Chinese difficulty. BETWEEN FOUR FURES

The war office has received the following from Lord Roberts, dated Nelspruit, Sept. 19: "Rundle attacked the enemy on Sept. 18 from Bronkhorstfontein, and captured one gun and 30 wagons, Knox overtook the rear guard at Klompjesdoorns. His only casualty was one wounded. Hart is moving successfully against another band near Potchefstroom. Hildyard has arrived tober. at Creotylei, 16 miles southeast of CC Utrecht, and has taken three prisoners, without opposition.

Two British officers, who were captured at Cypnergat recently, were released on Sept. 11, and reached Bloemfontein on the 16th."

POLE-CAREW'S POSITION. London, Sept.21.-The war office gave out the following dispatch from Lord

Roberts this evening: "Watervalboven, Thursday, Sept. 20.

TREASON BILL PASSED. Cape Town, Sept. 22 .- In the Can House of Assembly the treason bill was passed to a third reading by a vote of 46 against 37. The clause in the third chapter of the bill, disfranchising convicted rebels for five years. was adopted by a majority of 10 on Sept. 10, the house rejecting an amendment by Mr. Molteno to the effect

TOO NERVOUS

Many Pale. Weak Men and Women Find Themselves Daily Growing Weaker and Fast Approaching Nervous Collapse and Prostration - Their Only Hope Is In the Use of

CHASE'S NERVE

In sleep and rest alone can nature repair the daily waste of the body and store up the energies required for the duties of the day following. If the nerves are weak and exhausted, and you lie awake, longing for morning to come, you know that you will arise tired and worn out, and one day nearer to nervous collapse, nervous prostration or paralysis. Sleeplessness, irritability, headache,

neuralgia, loss of energy and ambition, confusion of the mental powers, and feelings of lassitude and despondency are among the indications of an exhausted nervous system.

The first thought is to take some opiate to induce sleep, a grave error, indeed, against which many nervous and physical wreck could warn you. There is no rest, no restoration in sleep, or rather unconsciousness, produced by opiates, and the deadening offect on the nerves merely hastens paralysis or prostration.

The most natural and most thorough merve restorative obtainable is that which is known as Dr. Chase's Nerve Food (pills). It gets right down to the foundation of disease, and by form-ing new, red corpuscles in the blood, and rekindling the vitality of the wasted nerve cells, gradually and perfectly restores new life and vigor to the weak and run-down system.

There is no guesswork, no experi-menting, and no faith required when you use Dr. Chase's Nerve Food (pills). It is composed of the elements of nature, which go to form new nerve tis-

sue, and can no more fail than can the laws of nature.
Dr. Chase's Nerve Food (pills) is no miracle worker. Though many cures brought about by its use were truly miraculous, it was after the treatment was used regularly and persistently for many weeks or months, as the case required. You can be absolutely assured of a restored and revitalized nervous system if you use Dr. Chase's Nerve Food (pills) according to direc-The phenomenal growth in the sales of this great restorative are the strongest evidence of its wonderful 50 cents a box, 6 boxes for \$2 50, at all dealers, or Edmanson, Bates & Company, Toronto. Toronto, Sept. 22.-Charles Kennedy, of C Canadian Battery, besieged in Runstenberg, in company with Baden-Powell, writing under date of Aug. 1, says: "Every day since the siege started we have been kept busy from daylight to dark throwing up rock breastworks, forts, etc. We have now got a position so strong that we are able to resist all the Boers in South Africa if necessary. Our main fort is a 'peach'; it has been officially named 'Fort Canada,' by Baden-Powell. The fort contains four bastions, which are called Kingston, Toronto, Hamilton, and Winnipeg, those being the towns to which the different subdivisions be-

LABOR CONGRESS

Immigration of Chinese and Japanese To Be Thoroughly Investigated-Political Action-Socialist League.

Ottawa, Sept. 21.-The commission to inquire into the whole question Chinese and Japanese immigration into Canada and the methods to be taken to regulate it has been appointed by the government. Its members are Mr. Ralph Smith, M.P.P., Nanaimo, president of the Labor Congress of Canada, now in session here; Mr. R. C. Clute, Q.C., Toronto, and Mr. Munn, a bar-rister of New Westminster, B.C.

At the Labor Congress yesterday the morning session was spent in a discussion on independent political action. Within the year the question has been referred to the various organizations in Canada and some had not re-plied. The committee, therefore, replied. ported thats the answers did not sufficiently indicate the opinion of laboring men. In amendment Mr. Mortimer, of Winnipeg, moved, seconded by Vice-President Flett, the resolution passed at Montreal last year approving of independent political action wherever practical. This amendment carried by a vote of 38 to 22.

The discussion showed that all were anxious to promote the interests of labor, but those who opposed the adopof the amendment maintained that such a course would be too rapid for the party itself and based their opinion upon the results of such action in the past. The result of the vote leaves the situation just as before, that wherever the local labor organizations consider it in their interests to put up a candidate, they may do so with the full approval of the Congress, but the advisability of such a course

is left to the local bodies. In the afternoon the delegates took up the report of the executive on the bill before the Dominion Parliament last session amending the trade marks act so as to protect the union label. The Senate had thrown out the bill, and the executive reported that Mr J. B. Jackson, registrar of the trade mark branch of the agricultural department, had declared the act would not be legal, as the label is not of a character to be patented by a trades union. The report was referred back to the committee. The principle of having the label of the United Gar-ment Makers' Union upon all clothing made for the government was in-

THE SOCIALIST LEAGUE. The Canadian Socialist League came up for a lengthy discussion on a motion to admit their representatives to the Congress, but the principles of the league not having been clearly shown to be in sympathy with trades unions, it was decided to reject the motion, on the ground that the former admission of leagues with ill-defined motives had not been beneficial. The vote stood 11 to 48. Delegates Rodier, of Montreal, gave notice of a similar proposal to that rejected, excepting that the representation which he proposes to give to the Canadian Socialist Leagues two from each province. The impression at the Congress is that his proposal will also be rejected, as there is little disposition to admit the Socialist organization.

The committee appointed to interview Hon. Mr. Mulock in reference to the dismissal of Murray Fleming from the Intercolonial Railway reported that the minister promised to investigate.

Shot Fired at Officers From a Saloon

Answered by a Volley-Man and Child Killed and Seven Others Wounded-State of the Strike-What Each Side Savs.

Shenandoah. Pa., Sept. 21.-The sheriff's posse fired on a crowd of riotous men near here this afternoon, killing two persons and wounding seven others. Sheriff Toole and Deputies O'Donnel and Brenneman were called to Shenandoah today to disperse the mebs that threatened mine workers and colliery property. At quitting time the three sheriffs and a small posse whom the sheriff had summoned on the ground, went to the Indian Ridge colliery of the Reading Company to escort the working men to their homes. The colliery is located a short distance

east of Shenandoah. The workmen left for home shortly after 4 o'clock. They walked up the middle of East Center street, reached the Lehigh Valley Railroad station. Here had gathered a large crowd of Poles, Slavs and Hungarians, men, women and children, who lined both sides of the street. A shot rang

FROM A SALOON.

This was followed by a shower of stones. Many of the crowd had picked up sticks and stones, and were acting in a threatening manner. Seeing this the sheriff, who had previously cautioned his men to keep cool and not use their firearms, commanded them

ORDER TO FIRE.

The order was obeyed with terrible results. The crowd pursued the sheriff and the posse to the Ferguson House, where they took refuge. Sheriff Toole shortly afterward telephoned to Harrisburg, and asked that a detachment of troops be sent here. It was learned that Adjutant-General Stewart, was in Philadelphia, and a telegram was sent

OPERATORS' STATEMENT. Wilkesbarre, Pa., Sept. 21 .- The coal operators issued this statement today: "All the Reading collieries in the Schuylkill region are working. The Cameroon and Hickory Ridge collieries of the Pennsylvania Ralroad Company are working full handed. The Williamston mines of the same company are also in operation. The Lehigh collieries in the Mahanoy region are working full handed. The report sent out from Hazleton that the operators will surrender rather than lose a big winter's trade is misleading. The operators have made up their minds that they will not recognize the miners' union if a pound of coal is not mined all winter. The issue is not so much a question of wages as it is the recognition of the The operators of the anthraunion. cite region can never consent to have a lot of bituminous men run their business. STRIKERS' STORY. Hazleton, Sept. 21.-President Mitchell at noon gave out the following statement: "Reports received at this office today show that 80 per cent of the mine workers of this Lehigh region are on strike. Large numbers are join-ing the ranks of the strikers daily. All who have gone on strike have remained out, and from their own expressions they are determined to win. ARBITRATION!

Disputes.

President McKinley Indorses the Principle-How the Arbitration Law Works in Australia.

Pittsburg, Pa., Sept. 21.—An effort was made to see President McKinley on his visit here on the proposal to arbitrate the differences between the miners and operators in the great strike in the anthracite regions. It was impossible, however, to secure an expression of opinion either on the strike or on politics.

Regarding the matter of strike arbitration, the following extract from an address delivered by President Mc-Kinley in the House of Representatives, April 2, 1886, will be of interest. At that time the house was in committee of the whole, having under consideration the speedy settlement of controversies and differences between common carriers engaded in interstate and territorial transportation of property or passengers and their employes. Mr. McKinley said:

"I believe, Mr. Chairman, in arbitration as a principle; I believe it should prevail in the settlement of international differences. It represents a higher civilization than the arbitrament of war. I believe it is in close accord with the best thought and sentiment of mankind; I believe it is the true way of settling differences between labor and capital; I believe it will bring both to a better understanding, uniting them closer in interest and promoting better relations, avoiding force, avoiding unjust exacasion an of earnings to labor, avoiding disturb ances to trade and transportation; and if this house can contribute in the smallest measure, by legislative expression or otherwise, to these ends it will deserve and receive the gratitude of all men who love peace, good order, justice and fair play.'

COMPULSORY ARBITRATION. Washington, Sept. 22.-H. H. Lusk, formerly a member of parliament of New Zealand, was before the indus-trial commission. He explained the system of arbitration in New Zealand, which, he said, had been extremely satisfactory. This system was in the form of compulsory arbitration, and it had had six years' trial. The fact that there was compulsory arbitration there made both employes and employers very careful before they acted. In these courts of arbitration no lawyers are allowed to appear-only the interested parties are heard. The arbitration law had been favored by the employes and fought by the employers before it had been enacted. Up to last year three-fifths of all labor in New Zealand was organized. Practically the scales of wages in New Zealand are made by the labor organizations for the men outside the unions as well as for those within. The arbitration court of New Zealand never fixes the maximum rate of wages. It simply fixes the minimum rate of wages that can be paid. The operation of this system, he said, does not hamper industries for the reason that in the six years it has been in use, the industries of New Zealand have increased one-third; this was by an increase in old industries, and the springing up of new ones.

LABOR NOTES.

President J. T. Shaffer and Secretary

John Williams, of the Amalgamated Association of Steel and Iron Workers, representatives of the iron and and steel manufacturers, are now holding another session on the much disputed wage scale in Cincinnati. About 60.000 men are affected. These men have been idle since June 30.

At the meeting of the Michigan Federation of Labor in Muskegon, Mich., the reports showed that during the two years 13 organizations affiliated, and several labor laws advocated by the federation had been adopted by the legislature. About three-fourths of the 1,200 from

LYNCHED BY LOUISIANIANS

The Proper Way to Settle Labor Four Negro Suspects Hanged by Whites in "Bloody Tangipoah."

> New Orleans, Sept. 21 .- In "bloody" Tangipoah parish, last night, four negroes were hanged. The victims were: Isaiah Rollins, aged 18; Na-thanial Bowman, 47; Charles Elliott, 20; George Bickham, 20.

They were in jail at Pontchatoula, charged with robbing the family of Henry Holfelter. Mrs. Louise Holfelter, who resisted the colored men on the occasion of the robbery, was choked and beaten so unmercifully that she lost her mind.

There were fourteen colored suspects in the Pontchatoula jail, accused of various robberies, when at 9 o'clock last night a committee of white citizens called on Sheriff Nix and demanded the keys. The sheriff refused. Axes were then brought, and the jail was immediately broken open.

Rollins, Bowman, Elliott and Bickham were hanged to a tree about two blocks away, after having been forced to confess their alleged part in the burglary of Holfelter's house. Not until 7 o'clock this morning were

the bodies cut down. Meantime the coroner's jury returned a verdict of death by "unknown hands." Citizens scoured the parish throughout the night, arresting all the negroes they could get their hands on. These were crowded into the little jail at

Pontchatoula. Mayor Jackson and the sheriff are using every means to restore order but are making slow progress. The better element among the colored population is fleeing to the churches, where the time is being spent in prayer.

A wholesale lynching of the negroes in jail is feared.

An attempt to remove the Illinois battleflags from their cases in the Capitol, to carry them in a parade, was abandoned, as the flags fell to pieces when exposed to the air.
