Miss Hutchinson says that Assistant Supt. Cusack flatly charged her with the murder of Mr. Burdick. "I am sorry for you, poor girl, that

you were forced to do this awful deed," she charges Mr. Cusack with saying. For two hours Miss Hutchinson was subjected to the severest of cross-examinations at the hands of Supt. Bull, Chief of Detectives Cusack and District Attorney Coatsworth. Seemingly there nothing that would warrant the officials in holding Miss Hutchinson, for shortly after noon she was released. However, this was not done until Philip V. Fennelly, attorney for Miss Hutchinson, had applied to Justice Truman C. White, of the supreme court, for a writ of habeas corpus commanding supt. Bull to produce her before him. This writ was secured only after District was secured only after District of Police Cusack said in sorroughly trict Attorney Coatsworth and Assist-Abbott had been appealed to 11 for relief. TAKEN FROM THE ITHACA.

At 8 o'clock yesterday morning several officers, including Chief of Detectives Cusack, Capt. Kilroy and Specials Coughlin and Cornish of the tenth precinct, went to the Ithaca, a private notel at No. 19 West Tupper street, between Main and Pearl streets, where Miss Hutchinson boards. She was summoned from the breakfast table and asked to accompany Mr. Cusack and Capt. Kilroy to the office of Supt. Bull. She was told, she says, that they had reason to think that she might know something that would lighten up the dark mystery of Edwin L. Burdick's death. A hack was at the curb

"Smoking Out" Is New Plan in Third Degree \$

[Buffalo Courier.]

A subtle form of the third degree was practiced by the police yesterday morning in the examination of Marion W. Hutchinson. It was as cruel and heartless as many of those other unnameable things which are countenanced behind prison walls.

When Miss Hutchinson, after being searched and held in a prison cell, was brought into Supt. Bull's office, her lungs were assailed with tobacco smoke. A dozen cigars in the mouths of a dozen detectives, who surrounded her, were puffed continuously until the room was so full of the foul fumes that even a hardened smoker would be compelled to

Reason for this smoke is evident. It was designed to make Miss Hutchinson sick, to cause her brain to reel, to make her

police headquarters. CHARGES SHAMEFUL TREATMENT.

The police say that Miss Hutchinson was treated with the utmost respect at police headquarters and that she was never at any time under arrest. They admit, that as a former employe of Mr. Burdick in his envelope factory in North Division street, she questioned about some points on which she was supposed to be able to give some vital information. Miss Hutchinson tells a different story. She says that she was subjected to the greatest ignominy. She said to a reporter for

There I was mortification over, I was thrust into a cell with a woman, whom I confidently believe to have been a police spy. She told me that she was from Scranton, charge of vagrancy. She endeavored to draw me out about the murder, but I was too much distressed about my own horrible situation to think about

It all amounts to this: that as a clerk addressing envelopes for the Roller Mill Magazine, in which he was interested. I did not know him at all. He was very reserved and rarely spoke me. Absolutely I had no relations with him outside the office. Why the police should so single me out is a mystery. It is more; it is a shame.

Miss Hutchinson says that her police inquisitors plied her with all sorts of interrogatories concerning her relations with and knowledge of Mr. Burdick. They wanted to know if he was attentive to her at the office or elsewhere; if he invited her to accompany him to places of amusement; if he made her presents of candy, flowers and things more substantial; if he took her riding in his automobile and a hundred other questions of similar tenor. It was in the midst of these of Police Cusack said in sorrowful

This charge, says Miss Hutchinson, was made with dramatic effect, but Miss Hutchinson, on the contrary, failed of its purpose because of her own conscious innocence.

Shortly after Miss Hutchinson was was formerly connected with the Bryployed, hunted up Philip V. Fennelly and enlisted his services in behalf of her relative. After leaving the city and county hall, Mr. Fennelly and the Misses Hutchinson went to the lawyer's offices on the tenth floor of the D. S. Morgan building, where a short conference was held. Then the young women returned to their homes. Their mother was at the door waiting for them, and the greeting between Mrs. Hutchinson and Miss Marion was pathetic. Both gave way to a torrent of tears. When a reporter for the Courier called later in the afternoon he was told that Miss Marion Hutchinson was prostrated by the excitement of the day and could not see anybody. However, after a few moments she appeared, and in This credited to her.

"OUTRAGE ON DECENCY."

Miss Hutchinson characterized the whole proceeding as an outrage upon decency and the rights of citizenship. She was for the most part conservative in her utterances, but evidently felt keenly her position.

Miss Hutchinson is about 23 years old and is a very prepossessing blonde of good figure and fair face, who knows how to make the most of each. She would generally be termed stylish. She has a fine voice and is well known in local musical circles, having sung at a number of concerts. She is also a member of the First Baptist Church choir at North Pearl and North streets, one of the most fashionable sections of the city. She has lived in Buffalo about a year, having come here from Ont., where her father is London health officer. She was accompanied

A TIME OF PEACE

London, March 7.-Whether or not the Irish Nationalists and the Ministry really are in league, as many allege, it certainly is becoming increasingly common to find the Nationalists in the Ministers' division

the Nationalists in the Ministers' division lobby.

This has given rise to all sorts of remarks. It is even said that Secretary Wyndham has convinced himself, as he is convincing the Cabinet, that it may go further than a generous land bill, and maugurate a new Anglo-Irish era of good-will by such a measure of self-government as would be called home rule if it were proposed by the Liberals; in other words, some such provincial councils proposal as formed Mr. Chamberlain's alternative to Gladstonian home rule. Some Radicals even protest that home rule, when it does come, will probably come on the initiative of the party which controls the House of Lords, namely, the Tories. It would be a happy circumstance if the outcome could be an agreement of both great parties, as was the present English franchise. That is a possibility of near politics.
