News of the World Condensed For the Busy Reader

Fire Destroys Village.

PITTSBURG, Pa., Nov. 17.—The village of West Zoliarville, Washington County, was destroyed by fire of unknown origin early yesterday with a loss of over \$50,000. A score of sleeping people were rescued.

To Prevent Armenian Massacre.

NEW YORK, Nov. 17.—A resolution calling upon the powers that signed the Berlin treaty to prevent the massacre of Armenian Christians in Turkey and to secure civil rights for Jews in Roumania, was adopted at the central conference of the American rabbis today.

Wholesale Murderer Hanged.

ABERDEEN, S. D., Nov. 17.—Emil Victor, a young man formerly of East Aurora, N. Y., was hanged yesterday for the murder of J. W. Christie, Mrs. Christie, Mildred Christie, aged 19, and Michael Roane, an employee of Christie, at Rudolph, S. D., last July. The motive for the murder was robbery.

Empress of China Buried.

PEKING, Nov. 17.—The body of the late Dowager Empress of China which was removed from the forbidden city a week ago was buried in the eastern tomb yesterday. The construction of the Imperial mausoleum building was begun today in the vicinity of the Confucian examination halls in the Imperial city.

Calgary's Growth.

CALGARY, Nov. 17.—The phenomenal growth of Calgary has necessitated a large addition to the equipment of the fire department. Thirty-seven new alarm boxes have been placed in various sections of the city to serve new subdivisions rapidly building up. A new motor chemical hose cart is expected in a few weeks and these additions will make the department equal to that of the larger eastern cities.

No Alien Labor Contract.

VANCOUVER, Nov. 17.—Magistrate Williams yesterday dismissed Thomas Morgan and Samuel Silverblatt, sailors, who were charged with importing alien labor. The reason for the dismissal was that the charges of a contract had not been proven. The case arose out of Louis Rosenbloom coming here from Portland to work for Morgan and Silverblatt. It was shown, the court said, that Rosenbloom came to better his condition and under no contract.

Rockwood Church Burned.

ROCKWOOD, Ont., Nov. 17.—At the conclusion of service Sunday night in the Methodist church, a chandelier containing a dozen lamps fell and an explosion occurred, the whole interior of the church being soon wrapped in flames. Fortunately the river was close at hand and the congregation formed a bucket brigade. The fire was extinguished after burning practically all the seats, and doing several hundred dollars' damage to the interior of the edifice.

Amundsen Arrives.

NEW YORK, N. Y., Nov. 17.—En route to Chicago to purchase supplies for an Arctic expedition, Capt. Roald Amundsen, discoverer of the North-west Passage and supporter of Dr. Frederick A. Cook in the North Pole controversy arrived from Copenhagen yesterday on the steamer United States. Capt. Amundsen declined to discuss the polar dispute, nor would

he say whether his coming northern trip was intended to have any bearing on the controversy.

Strike Idea Disapproved.

NEW YORK, Nov. 17.—The strike of the 2,000,000 members of the American Federation of Labor, should the United States supreme court decide the contempt cases against Messrs. Gompers, Mitchell and Morrison, proposed by the Central Federation of Philadelphia, is not approved by labor leaders here. Officers of the largest unions in this city declare that the plan would violate all pending agreements with employers, which would be fatal to the labor cause and therefore the calling of such a strike would be the hardest blow the American Federation could give itself.

Italian Counterfeiter Arrested.

NEW YORK, Nov. 17.—By arrest of thirteen Italians here yesterday United States secret service men think they have rounded up the leaders of a band which has trafficked for at least a year in a large amount of counterfeit money, made in Palermo, Italy, and circulated in America. The prisoners taken in raids upon several Italian shops include Giuseppe Morello, in whose flat were found seven alleged "blackhand" letters, which he had written to merchants in New Orleans and which had been returned, the police believe, by merchants who met the demands for money. In a cellar under a restaurant, Pasquale Vasi, a young man was arrested. In his possession were found 1,200 counterfeit two dollar bills.

An Undesirable.

VANCOUVER, Nov. 17.—John E. Smith, the unfortunate individual who has an impediment in his speech and uses most disgusting language anywhere and everywhere he may be, is going to leave Vancouver as soon as he can close up his affairs. Last week he was examined by a medical commission with a view to determining if he is a subject for the asylum. He has been given the police a lot of trouble in his vulgar language. The climax came when he was arrested for pointing a revolver at a man. Smith came here from Tacoma about two years ago, and has been tolerated ever since, most people sympathizing with his affliction.

Liquor With Meals.

VANCOUVER, Nov. 17.—Magistrate Williams in police court yesterday decided to study for a week on the question of the right of hotels to serve liquor with meals during prohibited hours. This morning Mike Fitzpatrick, proprietor of the Butler hotel, was summoned on a charge of selling meals and liquor to two police constables at 7:30 o'clock Sunday evening. There had been a complaint that the hotel was selling liquor with meals. The case was decided by a jury. The hotel was fined \$1. The license bylaws make no provision for the serving of guests of hotels liquor with their meals, while the provincial statute distinctly allows such service. It is the question to be decided which is the law.

Seeking Proper Colonists.

CALGARY, Nov. 17.—That the problem of those administering Bow

Valley irrigated lands has been elevated to strictly colonizing efforts is now admitted. The sales have exceeded the hopes of the most sanguine, and the necessity of today is to place restrictions upon the sale of lands so that newcomers will have their best interests protected in the years to come. Evidence of colonizing effort is shown in the fact that C. W. Peterson, general manager of the Canadian Pacific Irrigation Colonization company, who has for many years been associated with the colonizing of the West, left today for Europe, where he will spend four months thoroughly organizing a large agency force to operate in Great Britain and in the best agricultural countries of Europe. Europeans are all intensive agriculturists, who will indefinitely maintain the fertility of the soil and produce a maximum of yield. Maintenance of the present exceptional fertility of the soil is one of the problems confronting the colonizing of Bow Valley lands, and the endeavor is to place upon these lands those who will practice rotation of crops. Settlers arriving here from worn-out farms in some of the States appreciate the fact that they must adopt a different system of farming from that in vogue on the lands they were forced to leave. They therefore are meeting the Canadian Pacific half way and seem anxious to carry out any practical suggestion.

LIVE NEWS OF THE PROVINCE

Work Resumed.

Development work, has resumed on the Golden Eagle mine, on the North Fork, owned by Vancouver syndicate. Ralph Poe is foreman of a small force which commenced operations this week.

Elkhorn Mining Company.

The Elkhorn Mining company held a meeting in Greenwood on Wednesday. James A. Russell was elected president. H. Browning, secretary-treasurer, and Messrs. McKenzie, McGillis and Loftsd, directors.

Granby Smashes Records.

Granby mines continue to smash previous records in the output of ore. This week's shipments totalling 30,577 tons, and exceeding that of any previous week by 2,000 tons. The smelter treated 27,245 tons during the week, which is likewise a record at the big reduction works.

"Pay Day" Indeed!

Last Wednesday was pay day at Granby mines, when about \$55,000 was distributed in wages in Phoenix. The payroll to the mine and smelter employees on the same day amounted to about \$35,000. The smelter mine will pay about \$15,000 in wages on Monday next.

Badly Hurt.

Stephen Walley, a young rancher living at Bonanza, was brought to the Home hospital the other evening suffering from painful injuries, the result of a gunshot explosion. It was at that place some days ago. From his story it appears that he was kneeling on this hill, crossing the main thoroughfare of the city, when his object some way it exploded. Just what happened he does not know. He was carrying a gun, and had been in a match or fire of any kind in the neighborhood. Walley was brought in on a train, leaving and was conveyed to the Home hospital, where he is doing nicely under the care of Drs. Rose and Hartin. His injuries consist of a badly lacerated leg and body.

Dangerous Riding.

Children have become very active in the use of Second avenue hill for a pleasure slide. The danger of sleighing on this hill, crossing the main thoroughfare of the city, can hardly be overestimated and prompt action must be taken or a serious accident is imminent. While the authorities do not wish to interfere with the full enjoyment of the children, they request that parents will take the hint and this prevent further annoyance.—Phoenix Pioneer.

Quitters Get Titles.

CRESTON, Nov. 17.—As a further proof of the success of the plan adopted for the Creston district in addition to building roads as well as expending money in public improvements generally, he has succeeded in obtaining crown grants for the old timers of Creston who had squatted on land in the early days and who have not been able to get titles to their allotments. The following telegram received by the manager of the Creston Review will explain the matter.

"Trail, B. C., Nov. 12, 1909.

"J. K. Johnson, Creston, B. C.
"Renwick wires crown grants for Creston lands. Can issue now as soon as payment is completed and application made. Please publish. (Signed)
"J. H. Schofield."

Fire in Royal City.

NEW WESTMINSTER, Nov. 17.—A fire, from some unknown cause, badly gutted the building of the British Columbia Milk Condensing Company and destroyed the stock and plant last night. The blaze in the factory, which is located near the foot of the Westminister bridge, was first noticed about 10 o'clock by one of the toll collectors, who saw the flames breaking through the windows. The fire department arrived very shortly, but being that the interior of the upper story a mass of flames, and it is extremely likely the structure would have been destroyed had not the fire boat Seneca, from the Fraser River mill, come upon the scene. It discharged a regular catarract of water, and the conflagration was finally controlled upon the roof work of the building. The owner of the plant, Messrs. The "The" loss, which has not yet been estimated, will be shared by these. It will be nearly \$20,000.

"Nothing Better."

P. Lund, manager of the Crown's New Pelly lumber company, who was returned last week from an extended tour of the southwestern States and Mexico, Mr. Lund returns jubilant over British Columbia. In a committee of five to revise the rules of parliament with a view of simplifying procedure and curtailing unnecessary discussion, thereby shortening sessions, and saving the people's money. Mr. Verreille will once more intro-

duce his bill respecting hours of labor on public works.

Fruit Lands Sold.

W. J. Ripley, who owns ten acres of fruit land, three-quarters of a mile from Creston, five acres of which is cleared and planted with 36 trees, as well as over 700 berry bushes, has sold this desirable lot to Jack McKinnon. There was also a snug house on this land. This deal was closed on Wednesday last, and the price paid was \$1,000. One quarter-acre is also planted in strawberries and one quarter-acre in hush fruits. Mr. Carrigan will arrive here in two weeks' time to occupy the newly acquired land. The price paid for this plot was \$3,500. Both of these deals were put through by R. M. Reid, Creston Review.

Riches of Islands.

Arthur Gowing, of Taseo, Queen Charlotte Island, and Mr. Gowing, who has been prospecting in the Lardero, where he made some good finds, has made a discovery of the discovery made on Queen Charlotte Island, when he staked the Warwick group of islands, which he has promised to make a very large mine. Mr. Gowing stated that the main tunnel has been driven for a distance of 180 feet and is in ore for the entire distance. The ledge, according to Robert Smith, P. E. S., who recently surveyed the Warwick ledge has been opened for a distance of 180 feet, which makes it a veritable whale of a mine. The values range from 6 to 17 1/2 per cent in copper, 51 per cent in silver. The group has been bonded to an eastern syndicate for \$450,000 and has made \$250,000 payment has been made. The syndicate is now engaged in developing the group. Mr. Gowing's mission to Borneo and is the purpose of purchasing a compressor pump to be used in developing the property.

UNPREPARED BUSINESS DELAYS OTTAWA HOUSE

Yesterday's Session Took Up Anti-Boat Bill and Reference Was Made to Big Cement Merger.

OTTAWA, Nov. 17.—A vigorous protest was raised by E. D. Monk in the House yesterday that owing to the government having none of its business ready to bring forward, the House must be adjourned after a two hours sitting.

Yesterday's session was devoted to introducing and answering questions, and passing orders for returns, correspondence and papers. One of the first items introduced was a bill in the name of H. H. Miller, and is likely to provoke some discussion on the subject of gambling. Mr. Miller asked the minister to amend the criminal code respecting gambling on race tracks, and the business of pool-selling and gambling on tracks. He also introduced a bill dated with lengthy petitions for anti-gambling legislation from all parts of the country, and many were presented yesterday.

The recent cement merger was brought up by Mr. Bradbury, who asked if it was the intention of the government to take action to protect the public against this "huge combine." Mr. Fielding admitted that the government was aware through the public press that a number of cement manufacturers had consolidated into one large company. Whether prices had been unduly enhanced or not, Mr. Fielding was in a position to say. "There was one remedy against enhanced prices, by the introduction of a competition clause. It was proposed to introduce this session a measure making this the duty of the minister to keep under the control of the matter under the various provinces. Mr. Boyce was informed by Mr. Pugsley that applications had been made for subsidies for drydocks and shipbuilding yards at Port Arthur and Sault Ste. Marie, and that matter has been referred to the resident engineers of the public works department to report upon.

The passage of U. S. warships up the canals of the St. Lawrence to Great Lakes is arousing attention. Mr. Fielding was asked to what department was each application of the United States government made. Sir Wilfrid Laurier replied that every application was dealt with by the governor-in-council on reports of the minister of railways or the secretary of state.

Mr. Lancaster introduced three of his measures, which were read a first time. One of these limits appeals from awards of the railway commission. Mr. Lancaster claims that orders made by that body should be put into operation immediately. He would have all appeals entered within thirty days of the award, and then only on serious questions of law. Another bill seeks to amend the limitation of session regarding railway crossing protection, having for its object the exemption of municipalities from any share in the cost of such protection. Mr. Graham immediately entered his objection to this bill, as it would defeat the underlying principle of a joint bearing of cost. The last of Mr. Lancaster's bills provides, among other things, that a shipper must have the option of shipping at a higher rate of freight and full insurance instead of at a lower rate and limited liability on part of the railway companies. The second piece of government business done was the notice of Mr. Templeman that on Thursday he will move the motion calling for a resolution, on which a bill will be founded amending the Inland Revenue Act as follows: "That the person in whose favor a license is granted for an excise bonding warehouse, not included in the schedule of the act, shall, upon the expiration of the license, pay to the collector the sum of fifty dollars."

It is expected that the estimates will be brought down today by Mr. Fielding. Mr. McLean (Huron) has given notice of a resolution calling for a committee of five to revise the rules of parliament with a view of simplifying procedure and curtailing unnecessary discussion, thereby shortening sessions, and saving the people's money. Mr. Verreille will once more intro-

Recommended As An Ideal Remedy

For some years I have been greatly troubled with headaches and indigestion, brought on by stomach disorders, constipation, and biliousness. I had tried many remedies with only indifferent success, until 'Fruit-actives' came to my notice. 'Fruit-actives' cured me of these troubles, and I might say the effects were almost magical. Headaches and biliousness disappeared, and today I recommend 'Fruit-actives' to my customers as 'An ideal remedy.'

"I might also add that about three years ago I was laid up with LUMBAGO AND SCIATICA—couldn't get out of bed or lift one foot over the other. A good treatment of 'Fruit-actives' cured me of these pains and banished the Sciatica and Lumbago so that today I am as well as ever, and can lift anything necessary."

Debate in Senate

The senate yesterday commenced a series of speeches on the address in reply to the speech from the throne. Senator G. W. Ross, in moving the address dealt largely with the question of naval defence, claiming that although Canada was not technically but actually a nation, her nationality should be rounded off by the creation of an efficient naval force. He believed Canada would build her own navy and her own shipyards, and vessels should not be imported except in case of emergency. Armor plate and everything except the hulls of the vessels should be built in Canada. While under the control of Canada, the navy should be a unit for the defence of the Empire if required.

Sir Richard Cartwright said the insurance bill would be introduced in the address was over. It would be substantially the same bill as last year, with a few minor changes.
