## CANADIAN FISH

FOR U. S. MARKETS  
2,500,000 Smoked Bloaters Shipped From N. B.

Port Elgin, N.B., Dec. 26.—Port Elgin Fish Company have exported 25,000 boxes of smoked bloaters containing about 100 fish each, to New York.

It required 13 cars to carry this one consignment, over nine thousand dollars are spent here for these fish, which were all taken in about three weeks' time. The highest catch made by one fisherman amounted to \$280.00, which is not bad pay for about twenty days' work. As soon as landed the fish are salted, then it requires two or three weeks' more to string up the catch for smoking, the whole work of catching and curing requiring about six weeks' time.

Fifty employees are engaged in this work and when the smoking is finished half a dozen hands do the work of boxing.

The Young Bros. Company of the town also loaded two cars of 3,000 boxes for the New York market.

## LIVELY SCRAP AT

MISSION LAST WEEK  
Dominion Constable Savoie is in Hospital With Loss of Thumb

On Christmas eve, there were some lively times over at the Mission, as a result of which Dominion Constable, Wm. Savoie, is in the Hotel Dieu Hospital suffering from the loss of a thumb.

Conflicting stories are being told of the occurrence, but from what we can learn it appears that Savoie was called into a house to pacify two Indians who were quarrelling, one of whom had a gun. Liquor had been flowing pretty freely, and in wrestling the weapon from the Indian, the gun was discharged through Savoie's left hand. He was taken to the hospital here where the thumb was so badly injured that it had to be amputated. He is now as well as can be expected but will be off duty for some days yet.

## Don't be satisfied with anything less than an Edison Phonograph

Throughout the history of sound reproduction Mr. Edison has blazed the trail. Every important step has been conceived first in his mind. He is the acknowledged master of acoustics throughout the world. His recent triumph is the Blue Amberol Record.

It came, after countless experiments, with all its strength of volume, sweetness of quality and lasting endurance. To bring out the remarkable tone of this new record demanded a new reproducer. He invented it—the Diamond-Point Reproducer. With it there is none of the annoyance of changing the needle after each record. The diamond is as much a part of the phonograph as its beautiful cabinet.

Hear a Blue Amberol—this is all we ask. Your Edison dealer will play over as many as you like. We are content to leave the verdict with your ear.
