SUBURBAN TRAIN GIVES
BATHURST GOOD SERVICE

(From the Gloucester Northern Light)
I. C. R. Management puts on new train between Newcastle and Campbellton that will be of great convenience to section served.

Starting on Monday last, a suburban train service was established on the I. C. R. between Newcastle and Campbellton, and the time table has been arranged so as to give the section of country between these two towns local service at hours in which previously the need had been greatly felt. Until this week, eastbound trains all passed Bathurst in the morning, and west bound trains in the evening. The new train passes Bathurst eastbound at 9.20 in the evening and westbound at 8.30 in the morning.

Our despondency is increased by the discovery that 1916 weather is no better than the 57 varieties we used in 1915.

A local merchant who had been getting his monthly account sheets and counter check books printed in Toronto was surprised and delighted when we delivered him a recently completed order. Best I have ever had, was his verdict. We can supply your needs at short notice.

CLASSIFIED

Advertisements under this head are charged for at the rate of a cent a word a week. Minimum charge 25c.

GIRL WANTED
For general house work. Apply at once to GRAPHIC, Campbellton.
Jan. 19-2-pd.

Jan. 18-2-pd.

WOOD FOR SALE
I have a quantity of green hard wood in four foot lengths, also some in stove lengths. Same will be delivered in Campbellton at reasonable rates.
For particulars apply to JOHN NELSON.

RECRUITING RESULTS
NOT SO GOOD THIS WEEK

Only Five Names on the List during the Past Week. Men Seem to be Waiting for the Acadian Battalion

(From the Gloucester Northern Light)
The news that a distinctly French-Canadian Battalion was being raised in the Maritime Provinces was spread throughout the country about a week ago, and seems to have affected the recruiting figures for the 132nd Battalion. It is expected that when the recruiting for the Acadian Battalion is undertaken, and the Acadian officers are stationed at Bathurst, men will flock to sign on just as rapidly as they have been doing for some time past.

Lt. Col. L. C. Daigle of Moncton, who is to command the new battalion, was here for a few days during the week, and on Sunday met a large number of the Acadians belonging to the 132nd, some of whom expressed a willingness to transfer, as a first step in the forming of his battalion, Col. Daigle is visiting the different units throughout the Province, and securing the names of Acadians who prefer to join a regiment composed entirely of men of their own nationality. This will probably mean a reduction of from 100 to 150 in the present strength of the 132nd, so that extra efforts will have to be put forth to bring this battalion up to its full strength. Those interested in recruiting matters in this country are of the opinion that for a while the introduction of the new unit will disorganize recruiting, but no doubt when the Acadian campaign is in full swing more recruits than ever will present themselves to the different officers. It is felt that Capt. Tilley, Chief Recruiting Officer for New Brunswick would have used better judgement if he had held one of these regiments back until the other was completely filled.

The paymaster of the 132nd, Capt. F. G. Burr, was here during the week, and the recruits were paid for the time due.

On Friday night the Soldiers paraded to the Opera House where they were pleasantly entertained with moving pictures. The following were the recruits who signed on this week:

John Arseneau, Tracadie
Francis Bradeau, Paquetville
Isidore Hachey, Bathurst
Omer J. Doucet, Petit Rocher
The recruiting meetings at Grand Anse and Carquet last week were well attended, but on account of the scarcity of men in these places, very few men signed on. The speakers were Rev. Thos. Albert of Shippegan and Mr. P. J. Veniot of Bathurst. Several of the men of the 132nd, belonging to the places mentioned were also in attendance and report that they were used in great style.

On Thursday of this week a great recruiting meeting will be held in Bathurst, probably at the Opera House at which the principal speakers will be Chief Recruiting Officer Tilley, and Major Percy A. Guthrie, a returned wounded hero.

NOVEL FEATURE OF THE WAR

A novel incident of the war in Africa is a naval engagement officially reported as having taken place on Lake Tanganyika, the long, narrow stretch of water which forms the boundary between German East Africa, the Belgian Congo and British Central Africa. British vessels have captured the German armed steamer Kingani after a brisk action and taken her into port. Command of Lakes Nyassa and Tanganyika will enable the South African troops now being assembled to overrun the colony, to choose their point of attack along 500 miles of lake shore on the western and southern boundaries of German East Africa, while the Germans will have to dissipate their strength in guarding the entire lake shore, not knowing where the blow will fall.

HOW LONG WILL
THE WAR LAST?

The War Against Health Is Quickly Ended By "Fruit-a-tives".

MRS. DEWOLFE

East Ship Harbour, N.S.
"It is with great pleasure that I write to tell you of the wonderful benefit I have received from taking 'Fruit-a-tives'. For years I was a sufferer from Constipation and Headaches, and I was miserable in every way. Nothing in the way of medicines seemed to help me. Then I finally tried 'Fruit-a-tives' and the effect was splendid. After taking one box, I feel like a new person and I am deeply thankful to have relief from those sickening Headaches."

Mrs. MARTHA DEWOLFE.
"FRUIT-A-TIVES", the medicine made from fruit juices, has relieved more sufferers from Headaches, Constipation, Stomach, Liver, Kidney and Skin Troubles than any other medicine. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

DOUBLING THE
PRICE OF HERRING

Proper Curing Methods will Make Canadian Equal to Scotch Product

To dispose of 600 barrels of cured herring at \$11 per barrel, f. o. b. Nova Scotia, while his neighbours were getting only \$4 to \$4.50 per barrel, was last summer, the fortunate experience of a fish packer at Goldboro, Guysborough county, N. S. This highly satisfactory result was secured by disregarding the old-fashioned Nova Scotian style of packing the fish in tight, well-made barrels that will retain the pickle and preserve the flavour. This was done in consequence of the representations of Mr. J. J. Cowie, inspector of pickled fish for the Fisheries Branch, who, at the request of the Goldboro firm, secured an expert from Scotland to take charge of the work. As a result of this valuable object-lesson, Mr. S. Y. Wilson, a large dealer of Halifax, has determined to put up some 2,000 barrels next summer in the Scotch way.

THE LATEST IN
MACHINE GUNS

The latest machine gun adopted by the War Office is known as the Caldwell machine gun being named after its inventor, a machinist of Victoria, Australia.

It can fire at the rate of 1,000 shots per minute (it is said that the speed has been increased to 1,200 shots per minute); has two barrels, which can each be fired independently of the other, and is air cooled, which does away with necessity for carrying water to cool the barrel while working.

Driver James O'Brien, the first Irishman to win the Victoria Cross in the war, has died in the King George V. hospital at Dublin. He served with the Royal Field Artillery in the retreat from Mons, and made a gallant dash under shell fire to save a gun which he brought to safety. For the service he was presented with the medal of the Legion of Honor. In the engagement he received severe wounds, which kept him in hospital for more than a year, but he was home on leave quite recently. He was born in Cashel Tipperary.

Pullman porters have had their wages raised about 10 per cent. It is estimated that this will lighten the burden of the travelling public about 1 cent to the thousand.

Speaking of titles, the Gaelic Mercury suggests that plain Mr. is good enough for any Canadian unless he can win a V. C., a D. S. O., or a D. C. M.

The Allies threaten to block Mitylene. After that if they do the same with acetylene and gasoline, the German sub question will be solved as far as the Mediterranean is concerned.

BONAVENTURE'S M. L. A.
IN ABLE SPEECH

Mr. Fabien Bugeaud Makes Good Impression in Seconding Address in Legislature

Quebec Jan. 18.—The Legislature yesterday afternoon occupied itself with the consideration of the Speech from the Throne. The proposer was Mr. Fabien Bugeaud of New Carlisle, Liberal member for Bonaventure County, and the seconder was Mr. Alfred J. Bissonnet, Liberal member for Stanstead. The first speaker addressed the House in French, and the second spoke in English, following the custom of many years. Both created a favorable impression. They were followed by Mr. Philomen Cousineau, the Opposition Leader, Conservative member for Jacques Cartier.

Mr. Bugeaud began by referring to the part played by the Province of Quebec in this war. He declared that at the present time, after a year's war the Germans still occupy four-fifths of Belgium and the richest part of the North of France. Before that horrible spectacle, Canada and particular French Canada has not remained unmoved. Our Province has not remained unmoved. Our Province has, and is still doing its large share, and its children are fighting in thousands on the battlefields of Europe. They have added another page to great history, and the French Canadians have again proven their loyalty and their love of liberty. One of our statesmen remarked one day that the last shot which will be fired on American soil for the defence of Great Britain would be fired by a French Canadian, and I may add that if necessary the last drop of blood to be shed in Europe for the triumph of Liberty will be Canadian blood. (cheers)

While our men are fighting the battles of civilization, our women are helping them as far as possible at home.

Taking up the question of agriculture, Mr. Bugeaud referred to it as the foundation of the prosperity of a nation. The Government of this Province which takes so much to heart the well-being of its people, has done much in recent years to encourage agriculture by the building and subvention of agricultural colleges and schools.

Millions of dollars have been spent by the Government for the construction of iron bridges and the improvement of public roads. He compared the roads of the Province of Ontario with those in Quebec, and said the Government of Quebec helped to construct 124 miles of roads whereas the Government of Ontario had only built 20 miles.

As to colonization during the last ten years, the speaker said that nearly 200 parishes have been established in the Province of Quebec, and the increase of the population particularly in the counties of Bonaventure and the District of Abitibi, has been most remarkable.

But the Government deserves particular credit for the great encouragement it has granted to the great cause of education and public instruction. The salaries of teachers during the first eight years have been substantially increased. In 1905-6 the average salary was \$155.00; in 1912-13, \$224. 00, or an increase of \$69.00 for both Catholic and Protestant teachers. These figures are only for 1912, but the speaker hoped that in the next report of the Superintendent of Public Instruction the average would be from \$240.00 to \$250.00. Money advanced for school purposes has increased from \$2,199,371.00 in 1905 to \$6,107,250.00 in 1913 and for school instruction in 1905 only \$268,084.00 were spent, whereas in 1913 the expenditure amounted to \$1,173,895.00.

After referring to the great protection and assistance given by the Government for Technical and Industrial education, the speaker remarked that the system of education in this country must be powerful enough to cope with the tremendous wave of immigration which is sure to invade our shores after the war. There is no doubt that the declaration of peace of very few years later, the population of this country will have reached the fourteen and perhaps the fifteen million mark.

Here the speaker made a very strong and outspoken protest against certain declarations made by a member of the Legislature at a recent political meeting when he said that the Province of Quebec was behind all the other provinces of Confederation, and expressed his sincere regret that all did not stand together to face a common enemy.

In closing remarks, Mr. Bugeaud thanked the Lieutenant Governor for his kind wishes which he expressed in his speech from the Throne, and assured him of his great loyalty to His Majesty.

"So that my executors may have ready money."

The following extract is from the will recently probated, of a man, successful, and, as the will proves, thoughtful business man.

Among the insurance policies on my life which are now payable to my children in equal shares, I am endeavoring to arrange that these policies shall be made payable to my estate so that my executors may have the ready money for the payment of my debts and the expenses of my funeral.

The \$27,047 life insurance prevented the sale of property which would otherwise have had to be disposed of at a great sacrifice.

The usual is plain. There is no estate, be it large or small, but should be covered by life insurance. A policy would prevent losses to your widow or your children that could not otherwise be averted, because it spells "ready money" especially if placed with

BLUETRY

The weather has been cold and bluetry for the past week. Monday afternoon and evening were especially bluetry.

LOST VALUABLE HORSE

The Shipen Lumber Co. lost a valuable horse on the way up to their lumber last week from Campbellton. This was one of a recent importation.

HAVE NETS OUT

The cold weather of the past week has closed the river down to the bay and the fishermen have their nets down in readiness for the next spring tide, when it is hoped good catches of smelt will be taken.

SOME COLD

Thermometer hovering around 20 degrees below zero, and the wind blowing a gale, made Tuesday morning a very cold one. The Ocean Limited was three hours late on account of heavy rail and cold.

BREAK IN WATER MAIN

A bad break in the water main was in evidence Wednesday morning in front of the Graphic office. The water ran down the street and into the basement of the Graphic, causing considerable inconvenience but little damage. Men are now repairing the leak. For a time there was no water on the high level.

MANY

Since the taking over of the Canada Eastern and the International railways it has been found necessary to rearrange the officials formerly housed at Moncton. With this in view the new depot here was built with spacious offices on the second floor.

Now after five years these have proved entirely inadequate and new offices have had to be provided for some departments. With this in view the former residence of the late Supt. E. Price is being overhauled and will be made to house several departments among these being the Trackmasters and Mr. Savage's.

HORSE DROWNED

Mr. Dugald A. Myles, of Brandy Brook, had the misfortune to lose a valuable mare, in the ice, last week. The ice had been made for several days, and teams had crossed in the place three days previous to the accident. Mr. Myles, who is very careful on the ice, was attempting to cross in order to haul wood for the building on the opposite side of the river, and following the track, already made drove out on the ice. It gave way at once in a great camel, and horse and sled immediately disappeared. This ice, instead of strengthening during the three nights severe frost, following the first crossing had apparently weakened and worn away. This horse was heavier than those that had crossed in safety before this.
