Kennett, Hopkins & Co. to J. R. Cochran: The opening was weak on lower cables followed by a raily of 1 per cent, mainly on covering by shorts. The remainder of the session developed a very bearish feeling as late cables coatinued to come in weak. Clearances were rather small and very little export enquiry. The immediate course of prices appears to be downward. If foreigners continue to take our wheat as fast as during the past month it will doubtless prevent any material decline. It will be necessary, however, to closely watch the speculative situation as well as the crop outlook abroad. It is a splendid scalping market for those who are willing to take quick profits.

Schwartz, Dupee & McCormick to A. G. Brown: Corn market opened strong on good buying, said to be to cover one or two lines of local shorts. September sold from 60% to 67%c, closing 65%c; October sold from 60% to 57%c, closing 65%c; October sold from 60% to 57%c, closing 65%c. A sharp break took place before the close induced probably by the fact that the estimated receipts of 700cars for to-morrow were somewhat larger than had been expected. Oats were firm.

Kennett, Hopkins & Co.: The inventory of stocks turned out much more satisfactory to longs than anticipated, and the market developed considerable strength early, but gave way later in sympathy with other markets. It appears from the secretary's report that pork decreased last month 28,000 bis., lard 16,600 theres, ribs 16,400,000 lbs., lard 16,600 theres, ribs 16,500 theres, ribs 16,

Money has loaned as high as 4½ per cent. It was down to 2 at the close. The banks are losing money by the interior movement this week more than at any previous time. New York exchange at western points is strongly against the city. Money is also dearer in London. The stock market closed quiet, something above the lowest prices, but as a rule below last night's figures.

Henry Allen & Co. to J. J. Dixon & Co.: The market to-day was subject to several counter tendencies, it opened favorably for an advance, but an attack was made by the bears upon Union Pacific, and the whole market moved downward. When the onsiangut had ceased some of the loss was recovered, but toward the end the list again orders have fallen off materially, and the market is now practically again in control of the professional operators.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Geoca, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to fesist every tendency to disease.
