

# These are Facts Not Theories....

The everlasting, perpetual and constant problem of the manufacturer, the problem which abides with him day and night is the selling problem.

The buyers of to-day, merchants and consumers, **MUST BE SHOWN.**

## Canada's First Business Exhibition

offers a chance, with a minimum of expense and a maximum of results that cannot be doubted.

These exhibitions have demonstrated the fact that even in the United States, they give thousands of business men an opportunity to see and investigate devices and appliances of which they have hitherto known nothing whatever, thus uncovering to salesmen, customers they would never otherwise reach.

If you produce or sell anything needed in a modern business—office, store, or factory, then write for space to-day. Only a few spaces left.
