

that Lieut. Munro and both seconds, if apprehended and convicted, will be hanged as felons. Public indignation appears to be particularly strong against the seconds, who, instead of delaying the matter till the brothers had time for reflection, hurried it on to a fatal issue in eight or ten hours.

No obstruction was experienced in the negotiations with the Chinese Court; and, in the West of India, Sir Charles Napier had shown as much skill in diplomacy as in arms, and had come to a satisfactory, and it was believed final, arrangement with the Amicars, of Scinde, without further military conflict.

A parliamentary return just published shows that the sums paid, or to be paid on account of the war with China, amount to £2,879,872, of which sum £804,964 are required to be voted in 1843-44, as balance due to the East India Company.

The entire amount of specie of the world, is estimated by Jacobs at £1,900,000,000. In Europe, there is supposed to be \$1,000,000,000. According to the best authorities, it is supposed that the paper circulation in Europe is fourteen times the specie currency.

**TURKISH MANUFACTURES.**—The Turks are imitating the English and French with marked success. They already manufacture cloths and silks, and it is supposed that ere long they will supply their own market.

The *Courier de Lyons* states, that water pipes of thick glass, covered with a coating of bitumen, and made to insert into each other with bitumen joints, are being manufactured at Rive de Gier. These pipes will, it is asserted, bear a higher degree of pressure than those of the cast iron, and are 30 per cent. cheaper.

Father Mathew, the apostle of Temperance, who has, from his private resources, distributed, gratuitously, several thousand copies of the Douay (Catholic) Bible, has now in the press a new edition of the sacred volume, to be issued in twelve monthly six-penny numbers.

Mr. O'Connell had another great gathering at Ennisceorthy on the 20th of July. Present, as usual, from 200,000 to 300,000. The remarkable feature was, that the soldiers of the 11th Regt. about one half of which is Irish, cheered the Repealers heartily as they passed. Nearly all the Catholic clergy of the diocese were present.

Another was held on the 23d at Galway, at which an occurrence took place which shows O'Connell's policy. The inhabitants of a village called Ahascragh had attacked some policemen, who had undertaken to pull down, not in the most amicable manner, some triumphal arches erected by the repealers. He rebuked them for breaking the peace, with great severity, and said he would blot Ahascragh from the map of Ireland. He seems to be determined to give the government no advantage, by committing any breach of the laws.

**THE REBELLION IN WALES.**—This singular outbreak continues its violence, and still eludes all detection or arrest. Quite an alarm was recently felt in Swansea by the discovery of a chest of arms, which had been sent for the use of the "Rebeccaites" from Sheffield. The destruction of turnpike gates is still carried on in Carmarthenshire, Cardiganshire, and other places, notwithstanding all attempts to stop it. The cause of this rebellion appears to be the oppressions under which the people are existing. They complain of an enormous turnpike tax, an unjust poor law, oppressive tithes, and exorbitant rents, occasioned by the prevalent absenteeism.

Father Mathew, after a triumphant effort at Liverpool, has gone to London. He will find work enough to do there. He describes the poor of the metropolis as in a more destitute and sunken condition than the same grade of people in Ireland. It is to be hoped that the magic influence which he has seemed to possess in the sister island will not desert him now.

The great iron steamer, *Great Britain*, has been launched at Bristol. She is a mammoth boat, will accommodate 300 first class passengers, besides carrying 1500 tons of goods. Her length is 320 feet, and tonnage 3500. She is to ply between Bristol and New York.

A contract has been entered into by two influential firms; one in London, the other at Liverpool; to convey out 5000 poor emigrants to Australia.

In the county of Cornwall there are 370,000 inhabitants, 10,000 of whom are miners, and 70,000 tea-totalers; and of this large body there were but five prisoners for trial at the last assizes! Thus abstinence lessens crime and abates misery.

**PROSPECTS OF EMANCIPATION IN THE FRENCH ISLANDS.**—It is said that more than a thousand slaves escaped from the island of

Guadaloupe to British islands, in the confusion which followed the great earthquake. A gentleman well acquainted with M. Guizot, (the French premier,) says that the latter is fully bent upon achieving the abolition of slavery in the French colonies, and he has no doubt it will soon be effected. The Portuguese Chambers are also contemplating its abolition in their colonies.

The colored population of Berbice, (W. I.) are said to have contributed in 1841, towards the support of the churches, schools, and missionaries of the London Missionary Society, \$30,797.

Negotiations for a uniform transmission of the post, through Prussia and Austria, have been opened by Great Britain, to prevent the pre-payment of postage and other inconveniences.

According to the minutes of the Royal Astronomical Society's Proceedings, it appears that on March the 5th the great comet which recently disappeared, was 8,000,000 German miles from the earth, having a tail 12,000,000 German miles long and 4,000,000 broad.

There are at this time constructing in Liverpool sixteen or seventeen vessels of iron, but not one new ship of wood is building on the stocks.

In one county in Indiana, there were, ten years since, sixty distilleries—now the whole country contains but two. In Lancaster, Pa., the great seat of distilleries, only two are now remaining.

The crimes included in the new treaty between Great Britain and the United States for the mutual surrender of fugitives from justice, are murder, attempts to murder, piracy, arson, robbery, forgery and uttering forged paper.

The Ohio Statesman estimates the surplus amount of wheat, raised in that State the present year, after supplying their wants, at 20,000,000 of bushels.

The new Steamer *Buffalo*, 96 feet long, was launched at Rochester on Saturday afternoon last. She is to be a temperance boat.

Another destructive fire has taken place in Toronto, which like most of its predecessors, resulted in a tavern. When Civic rulers consult the safety of the citizens, there will be few dram-shops licensed.
