HOSPITAL FOR SICK CHILDREN, TORONTO, CAN.—PLASTERED WITH ADAMANT.

fire or water, and cannot be broken or marred by furniture. Crumbling walls, falling ceilings and defaced decorations are unknown where Adamant is used. It is mixed with water, and applied by any mason, in the ordinary manner. It has been used all over this country and abroad for the last four years, and is endorsed by architects, engineers, and scientific men.

Write to any of the undersigned for information:

Adamant

is the Modern Wall Plaster, while old style mortar is a relic of the dark ages, and has been tolerated for centuries for the want of a better substitute.

Adamant dries within three days; lime mortar is soft and damp for weeks.

Adamant only requires heat for ten hours after application in the coldest weather; lime mortar requires heat and constant care for at least a month in such weather.

Adamant is not affected by
