

ARTICLE II

The co-operation in the peaceful uses of nuclear energy under this Agreement may include, but is not limited to, the following areas:

- (a) supply of scientific and technical information, including technology;
- (b) supply of material, nuclear material and equipment;
- (c) research, development and application of nuclear techniques in agriculture, industry and medicine;
- (d) co-operation in the aforementioned fields between persons in Canada and in China;
- (e) technical training and related access to and use of equipment;
- (f) the rendering of technical assistance and services, including exchange of experts and specialists;
- (g) studies of nuclear safety and regulations; and
- (h) the exploration for and development of uranium resources.

ARTICLE III

1. The co-operation referred to in Article II of this Agreement may take the following forms:
 - (a) the Parties shall encourage co-operation between persons within their respective jurisdictions through exchanges of experts and specialists;
