2. Shall accord the right to a non-exclusive, irrevocable, paid-up license to the other Governments to make, use, and have made or used such invention or discovery by or for such other Government or Governments or for purposes of mutual defense in all countries.
3. Shall not discriminate against nationals of the other Government or Governments in the grant of licenses in any patents or patent applications owned by each Government or in which each Government acquires ownership or rights under this Agreement, but shall accord licenses to nationals of the other Government or Governments on the same or as favorable terms as it accords licenses to its own nationals (including its Government owned or controlled corporations when such corporations practice the invention or discovery in the performance of services for a party other than the licensing Government).
