

TABLE OF CONTENTS

Preface
Organization of the Study
Afterthoughts
1. Introduction
2. Energy and Power
3. Canada's Energy System Today
CANADA'S ENERGY USE IN A GLOBAL CONTEXT
CONVENTIONAL ENERGY RESOURCES AND RESERVES
1. The Resource/Reserve Spectrum
2. Hydrocarbon Resources
3. Hydraulic Resources
4. Uranium Resources
ENERGY FLOWS IN CANADA
1. Energy Supply, Demand and Trade
2. The Conventional Energy Mix
3. Energy Lifelines
4. Regional Considerations
5. Alternative Energy Use in Canada Today
AN EVOLUTION IN ENERGY OUTLOOK
THE PROBLEM WITH OIL
4. Canada's Energy System Tomorrow
GUIDING THE DEVELOPMENT
1. Conservation and Energy Efficiency
2. Renewable and Inexhaustible Sources of Energy
3. Environmental Concerns
4. Diversity in Energy Supply
5. Regional Considerations
6. Strategic Concerns
7. Social Concerns
ELECTRICITY AND HYDROGEN IN CANADA'S ENERGY FUTURE
FUTURE TRANSPORTATION FUELS
BUILDING A HYDROGEN AND ELECTRIC ECONOMY
