

2. With the limited accommodation at present available, required work is now being conducted for students of the first two years, but the requirements of Corporation call for work for the first three years. Lack of accommodation is the only reason why ~~it is not at present being applied to~~ ^{physical education is not given} students of the third year. The present program is only made possible by the fact that a one hour period in the academic schedule can be used for practical work. A student at the present time can leave any of the buildings on the lower Campus, take his period in the gymnasium, and return for a lecture at a succeeding hour. This program could not be carried on if the building ~~is~~ ^{were} erected adjoining the Stadium on Macdonald Park unless an auxiliary gymnasium ~~is~~ ^{were} erected on the lower Campus. It would be impossible to conduct a gymnasium class period in one hour as ~~could~~ ^{can} be done if the building ~~were~~ ^{is} situated in the neighbourhood of the ~~academic buildings~~ ^{other}. It is felt that great difficulty would be experienced in securing two hours from the academic time tables during which a gymnasium period could be held. Eminent more satisfactory arrangements ~~can~~ ^{can} be made with the Faculties concerning time tables ~~so that~~ ^{and} the hour devoted to this work ~~could~~ ^{can} be used to far greater advantage in striving toward the objectives already outlined. Even with the building conveniently situated the question of arranging a time table for practical physical activities which will fit in with the academic time tables of the ~~departments or faculties~~ ^{departments} is an extremely complex one. It is highly desirable that all the required class work ~~be~~ ^{can} be conducted between the hours of 9 A.M. and 4 P.M. so that the hours from 4 - 7 P.M. ~~might be available~~ ^{are available} for voluntary exercise and competitive athletics, thus leaving the evening free for study.

3. The School of Physical Education has, this Session, a record enrollment of 23 full time students in the first year and 5 full time students in the second year, there being more than twice as many first year students as any previous session. The total registration is 70. The demand for graduates is greater than the School can supply. It is the only School of its kind in Canada, and is almost certain to maintain its present standing ~~and~~ ^{and} even continue to grow. As the length of the School course is extended there must be a still further interlocking of the Schedule with the academic work of the first and second years in such subjects as English, Physics, Chemistry, Psychology, etc. If a separate Department or Faculty of Education is established in the future to take care of such departments and phases of education as the School of Social Service, School for Graduate Nurses, Department of Religious Education and Education proper, it seems that the logical place for the School of Physical Education ~~should~~ ^{will} be in this newly formed Department or Faculty, provided that sufficient opportunity is given for the special subjects and practical work that must necessarily be on the Time Table. In such a school there must be a judicious alternating of practical and theoretical work which can only occur if the building in which the practical work is ~~to be~~ ^{is} conducted is in close proximity to the academic buildings.

4. The Health Service for students through which students receive free medical attention has proved to be a very important factor in the life of the undergraduate. For the Session 1921-22, 1600 consultations have been held, 250 visits have been made to the homes of students and 150 students have been referred to Hospital. The consultations which occur chiefly at noon could not be carried on nearly as satisfactorily if students had to go to Pine Avenue.

physical education is not given
