ties has been greatly curtailed, and conditions are not yet favorable for new issues.

No pronounced change for the better is yet to be looked for; on the other hand, there is a faction from recent pessimism, and discouragement is giving way to a caimer and more hopeful temper. There is a feeling that many of our troubles have been taken too seriously; that exaggerated fears have in some cases carried values below their intrinsic merits, and shat better things are in sight, if not already at hand. It is quite possible that here and there dividend reductions may have to be faced, yet it would seem as if the shrinkage which has taken place within the last eight months has amply discounted all such possibilities. Not a few good stocks are cheaper even at lower dividend rates.

The most disturbing feature in the market at present is the political situation. All indications point to liberal Democratic gains in November, and possibly a Democratic congress after the next session. Upon all pronounced reactions on the stock exchange good stocks are likely to prove a profitable purchase. Perhaps a sharp outlook should be kept upon the political borizon, for squalis are not improbable. Not infrequently the politicals considered it good tactics to create a scare, and there have been operators in the market quite willing to encourage such an opportunity for the purpose of picking up cheap.

BCHATS ON CHANGE

J. P. Bickell & Co. had the following at the close on Saturday:
Interboro issues attracted most of the attention to-day, the sharp advances the bonds and both stocks giving every considered the same properties of the market followed with advances of 1 per cent.
Incre in principal issues. Actual figure of New York banks showed reserve decreased \$6,700,000, due to \$17,600,000 increased \$6,700,000, due to \$17,600,000 increased in loans (a good deal of it, doubtless, the Rock Island preferred transfer), and cash loss of \$3,800,000, one-half of which was expected. The level of prices is a tractive, and, as Wall street forge quickly, banking interests, if they so will could speedily secure a good following the long side.

Chas. Head & Co. to R. R. Bongard The market to-day has been firmer a gore active under the lead of the tr don issues. We think the general feel is improving, and, altho steep products be reduced in price, investment deman stowing and fears of tight money ping away. We would still advocate ing on reactions for sales on railies.

Wood, Gundy & Co. have just complete purchase of \$950,000 fifty-year debtures of the Municipality of Point Grandiately adjoining the City of Vouver. These bonds are issued for ramprovements, waterworks, sewers other rubble improvements to be m comprovements, waterworks, sewers a other public improvements to be ma within the municipality during the myear or two. Negotiations have been compensed looking toward annexation of finuncipality to the City of Vancouvand annexation will probably be completed within a couple of years.

Wood, Gundy & Co. Have also purchas \$125,000 City of Regina 4½ per cent. debtures, \$115,000 due in 1925 and \$10,000 1930, being issued for paving and si walks.

The investment situation shows some betterment. Prices of many of the best class dividend payers are exceedingly low. Moreover, the current supply of securities has been greatly curtailed, and conditions are not yet favorable for new issues.
