According to information received at the board of education offices, about one hundred dwellings are to be erected during the coming year in the Dantorth avenue district between Doniands and Gledhill avenues, north of Danforth. The additional school accommodation required will exceed the enlargement being provided for by the expenditure of \$90,000 for the Wilkinson Public School. The local situation there is already complex owing to the clamor from York township residents just north of the city for school privileges in the Gledhill Avenue School. In this case the board of education is divided. A majority of the management committee favor township children being given two class rooms in the dhill Avenue School, but a majority of the trustees want the tangle over Kitchener School affairs adjusted before any more privileges are extended to the township pupils. As the whole district is now teeming with an overpopulation of children of school age, the situation is one which Chief Inspector R. H. Corley says calls for a board of education with imagination, as the trustees are simply out of breath trying to keep pace with the growth of the schools.

will be laid before the minister of justice.

The crime for which Cooper was to pay the supreme penalty occurred on May 24, when it is alleged that cooper, with two companions, participated in an attack on the old man's house and that one of the others struck the old man down. It appeared that the victim was able to crawl from the door to his bed, and the theory was advanced that Cooper had gone back and finished him. Altho the others were acquitted on medical evidence, it is claimed that the new evidence will establish that Taylor was carried to the bed when he fell, and died from the effects of the blow from Cooper's companion.

Berlin, April 20.—Every German town and city which had its own garrison, of which it has been proud for decades, has been officially notified by the national assembly that it has been decided to disband the German army. The official notification, while refering to the creation of a new army in the future, says its strength is entirely unknown at present and deckares that it recognizes towns will be injured economically by the withdrawal of garrisons. They will, however, have to accustom themselves thereto, the message says, and the authorities will try to consider economic problems while re-grouping army units.

BRITISH SUBJECTS ARE STARVING! The Greatest Tragedy That Has Visited The World In Years Is Taking Place To-day---InIndia

India is in the deadly grip of plague and famine. The state to which the population has been reduced is appalling, and prevailing conditions are so terrible that they baffle description.

In the Central and Northern Provinces of India death stalks through the land, taking a toll that makes the Great War's casualty list pale into insignificance.

To date the estimated number of dead from plague and famine in the past year is over 32,000,000. The poor have eaten all their food, and the physical conditions of thousands upon thousands is such that they are too weak even to carry their water jars. Others, driven mad with hunger, are eating roots, seeds, kernels of old nuts, or thing they can pick up. Think of it! 150,000,000 loyal British subjects go hungry, morning, noon and night.

INCONCEIVABLE CONDITIONS PREVAIL

No rain has fallen since last May, and there have been no crops. Wells are drying up. Traffic has practically ceased. Mails are undelivered, and business is at a standstill. Food riots take place daily in the cities.

MILES OF DEAD

Some conception of the awful death toll may be gathered from the following comparison: If coffins for the 32,000,000 British subjects who have died during the last year through plague and famine were placed, head to feet, they would reach a distance equal to one and one-third times around the

Words fail to portray the ghastliness of this stupendous tragedy, and photographs taken in different parts of the country depict scenes too gruesome for publication.

In a recent article "The Christian Herald" of New York says: "Letters from India bring news of an appalling famine now prevailing. Food prices have soared to heights unknown for a hundred years. We appeal, in the name of universal pity and human nature, for help."

The Government of India is doing what it can, but it cannot cope with the situation. The call has come to help—that call is urgent. Unless the peoples of the world pour help into India millions more will die, and the world will be shocked to know the terrible results of their procrastination and

'Can any red-blooded Canadian, after reading these facts, fail to give-and give liberally ?

Shall we, a Christian people, turn deaf ears to the pleadings of starving women and children? In the hour of the Empire's dire need India gave ungrudgingly of her men and treasure—sending over three times as many soldiers to the front as Canada did.
