THE "TIGER" OF FRANCE IN AN AMIABLE MOMENT.

CONTEMPLATING A MASSACRE

OF ALL FOREIGNERS IN MOSCOW

Letts Said to Have Wrested Power From Lenine, Who

Is Now a Ruler in Name Only---Are Reddest of Jacobins.

Copenhagen, Aug. 13 .- Dr. Martini, head of the Danish Red Cross in Russia, has returned. He says there are some reports that Nikolai Lenine,

"Russia-that is Moscow-at present is governed by the Letts, Peter, Oderschenski and Antonoff, who probably organized the Hungarian Bol-

shevik regime. They are the reddest of Jacobins and will, as soon as pos-

sible, carry out a massacre of all the foreigners in Moscow. George Tchitcherin, the Bolshevik foreign minister, admitted to me that the gov-

ernment was unable longer to protect us. I believe that Lenine is now residing at Tula, outside of Moscow. Trotzky has more power. He is believed to be with the army."

NOMINATION BY GLENGARRY

Ottawa, Aug. 13.—The Liberals of Glengarry and Stormont at a special meeting at Alexandria, Ont., on Friday, August 15, will formally present

the party nomination to Hon. W. L. Mackenzie King, the new leader

chosen at the convention last week to succeed the late Sir Wilfrid Laurier.

Hon. Mr. King will accept the nomination and later go down, when he will

deliver his first campaign speech after the convention in Ottawa. The

Glengarry delegates were called together at the Russell Hotel by President F. T. Costello of Alexandria and Secretary C. H. Cline, K.C. Cornwall, of the Glengarry association, when it was agreed to offer the comination to the new leader. After consulting the home members of the organization

a hitch was threatened thru the interference of certain Ottawa ex-ministers and others, presuming to speak for the Glengarry executive, but they

were brushed away and the coast cleared for the new chief, who will most

likely be elected by acclamation. There would be no compromises with the

Union government. Glengarry has been vacant since the last election, in 1917, when the late John McMartin, the widely-known contractor and mine

operator, was chosen by acclamation as a Union government supporter

the Bolshevik premier, has not really ruled in the last three months. "The ultra-radicals have taken power from him," Dr. Martini told The

CHURCH OF ADVENT DEFIES BISHOP; JOINS REFORMERS

Two-Thirds of Congregation Seek Pastures New - Remainder Stay at Home.

An official of the ex-congregation of the Church of the Advent stated yesterday that, following the action, or rather lack of action on the part of Bishop Sweeny, two-thirds of the church members will join forces with the Reformed Episcopal Church, and that the remainder, disgusted with the

that the remainder, disgusted with the brand of treatment meted out to them by "ecclesiastical autocrats," have decided to spend Sunday in their homes. It is also alleged that a curate, accompanied by a small congregation, still visits the Advent each Sunday and holds service.

Since the removal of the Rev. Herbert Naylor against the wishes of the congregation, the people held open air services conducted by the lay reader, but such services are now discontinued. At present the members of the church are waiting until a small hall, now under construction in the vicinity, is completed, when they will rent the building for Wednesday evenings and Sundays.

vicinity, is completed, when they will rent the building for Wednesday evenings and Sundays.

The trouble between the members of the Advent and the church authorities is not due to parochial jealousy as is common in church quarrels, but arises from the alleged unwarranted removal of a popular incumbent, and the refusal of repeated pleas for a commission of inquiry.

Sold Mission.

It was further stated yesterday that St. John's had sold a house and mission situated on the corner of St. Clair, and partly owned by the Advent Mission. It is said the congregation of the Advent could have sold that property for a sum sufficiently large to clear debt and mortgages and still leave a falance of \$400. It is also stated that the two buildings sold only realized \$400 when sold recently by St. John's.

In reply to a ugestion as to their immediate plans, it was stated that Bishop Brewing, of the Reformed Episcopal Church, has been approached and, on the bishop's return from England, he will be asked to provide a curate for the congregation at present unattached and that later they will build a small church.

INVOLVED QUESTIONS REQUIRE ATTENTION **OF NEW AMBASSADOR**

more particularly in the province of

Will Include Complicated Financial Relations Between Britain and United States, and Also Adjustment of Mexico Difficulties.

Washington, Aug. 13. - Questions arising out of the peace settlement which Bonar Law announced in the house of commons today would require the attention of Viscount Grey, he new British ambassador to the United States, are understood here to include a readjustment of the com-plicated financial relations between Great Britain and the United States growing out of loans and credits ad-Great Britain and the United States growing out of loans and credits advanced by America. There also must be an almost immediate recasting of many existing treaties between the two countries, necessitated by the radical changes following the war. Many of these conventions date back for more than a century and were said by officials to have been applied to modern conditions only by the exercise of the greatest liberality of construction. The La Follette shipping law swept away completely one treaty relating to the rights and duties of sailors and port authorities and this never has been replaced.

In the early days of the war there were many issues between the state department and the British foreign office growing out of interference with American commerce by British warships and British orders-in-council and the many claims for damages by American shipowners and merchants pending when the United States entered the war still technically are open. Lord Grey was the British secretary for foreign affairs when these issues arose and conducted the negotiations for his government.

Conditions in Mexico.

There has been a suggestion, too, that conditions in Mexico were such as to demand consideration on an international basis in view of the large interests of foreign investors, and especially British, in that country. For

Hazelton, Pa., Aug. 13.—Alliance of the forces of the United Mine Workers of America and the four brotherhoods of the railroad workers will be perfected at the international convention of the miners in Columbus, Ohie, next month.

This fact was revealed here today by Thomas Kennedy, of this city, district, president of district No. 7: U.-M. W. of A. The preliminary steps.

KINGSTON RADIAL

KINGSTON RADIAL

Kingston, Aug. 18.—E. F. Hinch of the Hydro radial engineering department of the Hydro-Electric Commission, was here today interviewing the merchants and shippers with a view to ascertaining the possible revenue there might be in freight and express in the event that a Hydro radial line was put in here.

Chatham, Ont., Aug. 13.—Important Hydro developments locally and in the district may result from a visit here yesterday of J. J. Jeffrey, assistant chief engineer of the Ontario Hydro Commission. The official met the city council in caucus and discussed a proposition, which cannot be made known at present, but which will have a beneficial effect on the local Hydro system.

Put Wires Underground, Says Drayton, in Judgment

Ottawa, Aug. 13.-That in congested areas of large urban centres telegraph wires should be put under ground is the opinion expressed in a judgment handed down by the railway board today. The judgment deals with the application of the city of Montreal for order directing the CPB and an order directing the C.P.R. and G. N. W. Telegraph Companies to place their lines and wires under ground on certain streets. Sir Henry Drayton wrote the judgment before his retirement from the chairmanship of the board.

YORKSHIRE MINERS SITUATION BETTER

Legislation May Be Introduced Making Strikes Illegal Without Notice.

London, Aug. 13.—The coal miners of Yorkshire, where more than 200,000 men have been on strike since July 21, decided today to resume work. This action was taken at a mass meeting

at Barnsley.

The Yorkshire miners are not all willing to resume work. Ten thousand men on the Pontefract district voted today against resuming work, and it is said that in other districts the miners
