Manufacturers Insurance Company.

### 12TH ANNUAL MEETING.

The Most Prosperous Year in the Company's History.

A large number of shareholders, policyholders and agents were present at 3 p.m. on the 22nd at the Manufacturers Life offices to attend the twelfth annual meet-

The following is the Directors' Report:
The Directors have pleasure in submitting the Twelfth Annual Report of the Manufacturers Life Insurance Company, which shows another year of very satisfac-

Two thousand two hundred and seventy-four (2274) applications have been received for \$3,758,689 of new business, and policies have been issued for \$3,434,880. One hundred and eighty-four (184) applications for \$323,800 being either declined, as not being up to the standard, or held in abeyance at the end of the year for further consideration. The insurance issued, therefore, shows an increase of \$741,670 over that

increase of \$1,205,495, which is the largest gain in one year in the history of the company. Even these figures, however, do not show the actual gain in level premium business, as during the year a large part of our natural premium insurance has been replaced by level premium policies. The actual gain in the amount of level premium insurance in force was \$1,734,375.

The premium income also shows a very substantial gain of \$52,970.02, the figures being \$450,736.47, as compared with \$397,766.45 for 1897. The income for interest and rents was \$65,429.86, bringing the total income up to \$516,166.33, a gain of \$67,882.41. The total expenditure, including expenses of management, death claims and other payments to policyholders, dividends to stockholders, and re-insurance premlums, was \$290,880.75, so that the excess of income over disbursements amounts to \$225,285.58, a very handsome sum to add in one year to the accumulated funds, which now amount

The certificates of the Auditor and Auditing Committee, which are appended to the financial statement, certify to the regular monthly audit of the Company's affairs, and to the examination of the securities.

The management is to be congratulated on the fact that the year's operations have merited the complimentary remarks which appear on another page from Mr. D. Parks Fackler, than whom there is no more eminent or independent actuarial authority on

#### Summary of Financial Statement

| New Premium Income   | \$100,470 98   |
|--|----------------|
| Renewal Premium Income   |                |
| Interest and Rents   |                |

|  | \$1,522,871 61 |
| : -LIABILITIES   |                |
| Reserve for Policyholders (Hm. 4 per cent. and 41/2 per cent.) | \$1,349,755 00 |
| All other Liabilities  | 13,714 58      |
| Surplus over Liabilities, including Capital Stock              | 159,402 08     |

I wish first to express my regret at the absence of our President, Mr. George Gooderham, who has been unavoidably detained longer in British Columbia than he had anticipated, and who, had he arrived in time, would have performed this duty, as he has so ably done year after year in the past. The Directors' Report, and the detailed financial statements accompanying it, show a year of remarkable progress. The rew business is not only much greater in volume than in previous years, but it has been well taken up and paid for, and bears a high average annual premium, as evidenced by the fact that, without including any single premiums, the first-year premiums collected in cash amounted to over \$100,000, as against \$72,000 for 1897.

have shown a much larger surplus, but, believing a conservative policy the safest and best for all concerned, the reserves on a large part of our business have been calculated on a 4 per cent. basis.

Mr. R. L. Patterson, in seconding the report, illustrated the remarkable growth of the Company during the four years of the present management by quoting the fol-

| lowing figures:      | 1894.         | 1808.        | Gain.     |
|----------------------|---------------|--------------|-----------|
| New Insurance Issued | . \$2,462,068 | \$ 3,434,889 | \$ 972,82 |
| Insurance in force   |               | 13,072,724   | 3,517,42  |
| Assets               | 001 001       | 1,522,871    | 700.55    |
| Cash Income          | 000 400       | 516,167      | 219,69    |
|                      |               |              |           |

is even greater than the above figures in themselves would indicate, as on the 31st December, 1894, twenty per cent. of the entire business in force was on the Natural Premium and other cheap term plans; whereas, in 1898, only seven per cent. of the business was on these plans.

The following is the letter received from Mr. D. Parks Fackler, Consulting Actuary, New York, reviewing the year's transactions:
Office of D. PARKS FACKLER, Consulting Actuary, 35 Nassau-street, Telephon

J. F. Junkin, Esq., General Manager Manufacturers Life Insurance Co., Toronto: Dear Sir,-In accordance with your request I have critically examined the statement of the Manufacturers Life Insurance Company, for December 31st, 1808, as compared with the previous year, 1897, which you have sent me, and find therein many

The new insurance issued in 1898 is shown to have been 271/2 per cent, greater than in 1897, and the total insurance in force at the end of 1898 was over 10 per cent. greater than at the end of the previous year. The new insurance issued appears to have been remarkably well paid for, inasmuch as the first year's premiums for 1898 are 40 per cent. greater than the new insurance premiums of the previous year, as I find by deducting the amount received for annuities in 1897 from the amount of new insurance premiums with which they were included. The increase in the renewal premiums collected-nearly nine per cent,-is also quite favorable. These increases in premium income with the increase of 30 per cent. in the interest receipts have made a very handsome increase in the total income of the Company. When I come to examine the cost at which this increased business has been ob-

tained I see no ground for criticism. Though the total expenses for 1808 were greater than for 1897, their ratio to the total premium income is less for 1898 than 1897. This reduction in the expense appears still more favorable when examined more closely, for, after deducting from the year's expenses 10 per cent. of the renewals as the cost of maintaining the old business and making a small allowance for the expense of taking care of the investments, the balance of expense, which may, be charged to new business, is a much lower percentage thereof for 1898 than for 1807; as I understand that the incidental expenses unpaid and unavoidably carried over to this year are no larger than is usually the case at the end of the year, there is special ground for congratulation on account of this reduction in expenses.

The General Manager, Mr. J. F. Junkin, in concluding his remarks, reverted to

the sensational rumors about amalgamations as follows: There have been many newspaper rumors circulating concerning supposed amalgamations amongst various Life Companies, all of which we have continued to ignore, not thinking it worth while to rush into print to contradict them. I do not think therefore that it is out of place for me to take advantage of this occasion to assure the stockholders, policy-holders and agents present, that so far as the Manufacturers Life is concerned, there is nothing whatever in these reports. We neither intend to absorb others, or to be absorbed. If anything were needed to convince the insuring public that we are in the field to stay, the following facts, amongst others, should

(1) We have, within the last few weeks, engaged Mr. G. F. Johnston, one of the most experienced organizers in Canada, to fill the position of Superintendent of Agencies, and thus further complete our already extensive organization.

(2) We are this week depositing \$25,000 with the Government of Newfoundland, and establishing agencies in that colony. (3) We shall, within the next few weeks, increase our subscribed capital from

\$627,000 to \$1,000,000, and our paid-up capital from \$127,000 to \$200,000. (4) We are introducing at the coming Session of the Dominion Parliament a bill to amend our charter in such a way as to give us more extended powers in the matter of investments, both in Canada and in such foreign countries as we enter for the transaction of business. Nothing more should be required to convince the most

A resolution was passed calling a special meeting of the Shareholders to consider and vote upon the increase of the capital from \$627,000 to \$1,000,000. All of the old Board of Directors were re-elected, and to fill the vacancies caused

by death or retirement during 1898, the following gentlemen were added: Mr. Robert Jaffray and Mr. J. J. Kenny, Toronto; Mr. Lloyd Harris, Brantford (of the Massey-Harris Co.), and Mr. J. F. Junkin, the General Manager, who will therefore in future occupy the position of Managing Director.

At a subsequent meeting of the Directors Mr. George Gooderham was again elected President, and Messrs. Robert Jaffray and C. D. Warren Vice-Presidents.

## Life MINES AND MINING STOCKS

Spokane Men Have a Good Plan on Foot for the Establishment of a Mining Exchange.

means of a Confederate State's bill. P. C. Snider caught Albinson buying some of the billings.

Prominent citizens of Spokane are trying to establish a mining exchange in that city and they are going about it in the right way. They hold that there are many millions of dollars ready to be invested in the mines of the Kootenay and the Northwestern States. The fonding of many wild-cat propositions has caused the public to be cautious and it is thought the establishment of an exchange, which would refuse to list anything but legitimate stocks, would do a great deal towards the establishment of a more satisfactory condition of things.

One of the propositions is to have an exchange with a board of directors at its head, composed of the presidents of the four national banks of the city, they to constitute a committee to investigate the standing of any company asking to have its stock listed. When an application for listing was received the company applying would be furnished with the estimate of the expense necessary to have its property examined by the experts of the exchange. Upon payment of this sum the expense necessary to have its property examined by the experts of the exchange. Upon payment of this sum the expense necessary to have its property examined by the experts of the exchange. Upon payment of this sum the expense necessary to have its property examined by the experts of the expense necessary to have its property examined by the experts of the exchange. Upon payment of this sum the expense necessary to have its property examined by the experts of the exchange, which would be favorably passed upon by the committee and duly listed. The reports of these experts would be kept on file, so that they might be referred to at any time to secure information about any stock listed.

Mr. H. E. Lippman Has Moved.

The Rossland Miner has a two-column discovery and the propositions are trying to a constitute a committee and duly listed. The reports of the medical activation of the propositions are trying the day to th

Mr. H. E. Lippman Has Moved.

The Rossland Miner has a two-column article, stating that Mr. H. E. Lippman has left Rossland, owing several sums of money. Mr. Lippman, it will be remembered, some time ago, tried to float an enterprise, to be known as the "Rossland Commercial Company." He endeavored to interest some Toronto capitalists. His absence from Rossland may be only temporary.

the morning board as high as 12 cents. Iron Colt is very firm and there is considerable trading in White Bear, which seems to be a favorite cheap stock. There was considerable inquiry for Ecuador, and we will be glad to book any orders for this stock, which we understand will be put on the market at 6 cents. Wire your orders.

A DAY IN THE POLICE COURT.

Albinson, Who Worked Off a Confederate Bill as Good Money, Gets Sixty Days.

Alfred Albinson was sent to jail for 60 ACTIVITY IN THE SLOCAN. days vesterday, for working a slick swindle on Mrs. Ellis of 337 West King-street, by

Port Hope, Ont., Feb. 23.—Married at St. John's rectory, Port Hope, Feb. 22, 1849, by Rev. C. B. Fleming, officiating minister for Rev. Dr. Short, John Harcourt to Margaret McConkey, both of Port Hope.

The golden wedding of the above couple was celebrated yesterday evening at the family residence, Mill-street. All the sons and daughters, nine in number, were present to assist in the celebration; Joseph of Cobourg, Matthew and William of Detroit, Mich.; George, Owen Sound; Richard, Toronto; John. G.T.R. and express agent, Port Hope; Mrs. William Kerr, Cobourg: Mrs. E. T. Hamly, Port Hope, and Miss Margaret at home. The sons and daughters united together and presented the aged couple with a well-filled purse of gold. Valuable presents were also received from relatives and friends in Kingston, Rochester, Guelph, Hall's Bridge, Cleveland, Windsor, Cobourg, Toronto, Port Hope and Hope. One of the most interesting incidents in connection with the occasion was the presence of Mr. Charles Glichrist, who acted as violinist at the wedding celebration 50 years ago, and made the old violin ring again to-day. Letters of congratulations were received from many other friends, who, on account of illness and other circumstances, were unable to attend.

The Union Bank on Street Will Enlarge Premises.

The authorities of the Union Bank, Wellington-street, have decided to make very extensive alterations in their present building. Mr. Strathy, the local manager, when seen by The World yesterday, stated that operations would begin immediately, and when completed the bank will be one of the best appointed in the city. The vacant property to the east will be built upon and the offices will be brought to the front instead of the rear, where they are now situated. The fittings and interior decorations will, when completed, be very elaborate, and the balance of the building not occupied by the bank will be rented as chambers.

Treble Will Quit.

Treble Will Quit.

To-morrow night will see the finish of one of the smartest clearing-out sales of gents' furnishings. Toronto has had in years, and it will be the last day in business for J. M. Treble, who has for so many years been known to the people of Toronto as a dealer known to the people of Toronto as a dealer to-morrow everything is marked at 33 per cent, off the regular price, and those who appreciate really high-class furnishings will appreciate these big reductions. You are not buying from an old shop-worn stock, but picking from fine new clean lots, that were imported within the last few months for Mr. Treble's high-class trade. The time is short—make the best of it.
