**FIRE IN THE WEST SIDE**

**House on Ludlow St. Owned by William Morrish and Occupied by Geo. W. Pollock Guttered This Morning.**

The firemen on the west side were called out about 4 o'clock this morning to fight a rather serious blaze in a two story wooden house on Ludlow street, owned by William Morrish and occupied by George W. Pollock. The house was almost completely gutted, and the firemen, who battled with the flames for about two hours, had much difficulty in preventing adjoining houses from catching fire.

Though it is not definitely known, it is thought the fire was started by hot ashes. The discovery of the blaze was made by Mrs. J. W. Gigger, who lives next. She heard a crackling noise, and on looking out of a window saw the woodshed back of Mr. Pollock's house in a blaze. She immediately aroused Mr. Pollock, who sent in an alarm from box 112 and the firemen quickly responded.

The flames by this time had gotten on the ell of the house and the fire was making great headway. The firemen fought it, from both front and rear, and kept it from spreading to the adjoining houses.

After about two hours' hard work the flames were subdued, but not until the building was about half consumed. It was almost impossible to save any of the furniture and what was not burned was destroyed by the water.

**AN INTERESTING GLOBE TROTTER**

**An Eighteen Year Old Spanish Youth who is Making the World Tour.**

An interesting visitor arrived in St. John yesterday on the maritime express, the person of Luis Fernando, of Madrid, Spain. Mr. Fernando is on a tour of the world for a wager and he has almost completed his journey.

Talking with a Times man last evening he said the Spanish government encourages a number of well educated young men to travel extensively each year and to observe what is being done in other countries that they may report on ways in which the Spanish nation may improve.

Mr. Fernando says he made a wager of \$5,000 against \$25,000 that he would make the world tour inside a period of two and a half years, calling at such places as were designated. He will also receive a gold medal from the Spanish government if he is successful and he has no doubt what ever on that point.

He left Madrid on January 20, 1897, going via the Mediterranean to North and South Africa, Australia, Asia, Europe, South America, the United States and a part of Canada. From here he will go to New York and from there via Washington to British Columbia, and thence to California, sailing from San Francisco for Madrid on February 25. He has about ten months yet before his time expires, but a portion of the time will be taken up on his arrival in Spain in getting a very voluminous report prepared in order that he can qualify for the winning of the wager.

He has in his possession 2,500 letters which he has received from consuls and majors in different cities of 10,000 or over, of a population.

A brother and a cousin of Mr. Fernando started out previous to his departure, to make the same kind of a trip but both died in Russia. Mr. Fernando says his father and a number of friends tried to persuade him not to attempt the trip but he was determined to go.

He confesses to being only 18 years of age and will celebrate his 19th birthday on the 25th of the present month. He is rather short, of a swarthy complexion and a very pleasant and genial disposition. He talks six or seven languages and has a very good mastery of English. His father holds the title of colonel in the Spanish army and fought in the Spanish-American war.

While in Rome Mr. Fernando was received in audience by His Holiness the Pope, and was allowed to kiss the papal ring and received a rosary from the pontiff.

While in the United States he met Taft and Bryan the rival presidential candidates. He thought from what he could gather that Taft would be selected, but says Bryan is one of the greatest talkers he ever heard.

He says he feels a little homesick sometimes but he is determined to complete his trip as mapped out. He is stopping while in the city at the Edward Hotel.

**TREED BY A MOOSE**

Howard Lingley, of Lingley station, had a very exciting experience yesterday while out moose hunting near his home. He secured a fine big bull, weighing 800 pounds, with an antler spread of 54 inches. The exciting part of the sport was when the animal charged on the hunter and forced him to take to a tree for safety. From his place of vantage in the tree, Mr. Lingley was enabled to put a shot into the moose that finished his playful antics.
