## MORNING NEWS OVER THE WIRES

Before the tariff commission at Montreal yesterday Canadian manufacturers of boots and shoes contended that their prices are not and never have been profiteering prices. At the same time they pleaded for the maintenance of the present protection on the ground that United States manufacturers have a capacity beyond the needs of their own markets and would flood Canada, if given a chance. Sir Henry Drayton and J. B. Palmer, of Fredericton, had a good natured controversy as to whether or not a twenty dollar pair of shoes could be considered a luxury.

All the members of the crew of the stranded freighter Francis J. Wilder have been taken off in safety. The ship lies hard aground for practically her entire length in about fifteen feet of water on Panake Shoals in the Great Lakes. She was bound from Duluth to Sault Ste. Marie and went aground during Saturday's storm.

E. W. French and S. H. Shaw of St. John were in Fredericton yesterday attending the biennial meeting of the New Brunswick provincial board of the B. of R. T. At the meeting resolutions were passed calling for the abolition of the luxury tax and for the raising of the exemption upon the income tax \$500.

At Geneva, Switzerland, yesterday, Paul Hymans was elected permanent president of the League of Nations. The first session of the league assembly was greeted with the ringing of all the bells in Geneva after several minutes' silence on the part of all the people of the canton.

Rev. John Stratton, pastor of the Calvary Baptist church, New York, last night addressed a huge audience in St. James Methodist church, Montreal. His visit in the result of the latest of the Montreal dancing masters to sue him for \$10,000 unless he retracted the denunciation he made especially with regard to the two dances named after John and Charles Wesley.

The two proprietors and the doorman of the theatre in New York where six children met death in a fire panic recently were held in \$10,000 bail in New York late yesterday. The twelve children were injured in the panic were reported last night still in a serious condition.

Three dwellings in Bridgeport, N. S., were attacked by fire believed to be of incendiary origin early yesterday morning. One arrest has been made. At a sitting of the board of railway commissioners held in Moncton yesterday, Prince Edward Island shippers appeared and argued against an increase of forty per cent in the express rates. James Pullen, president of the Canadian Express Co., and J. McDonald, vice-president of the Dominion Express Co., were present.

FIGHTING CHANCE

AT QUEEN SQUARE

Mae Edwards Players Score

Again in Attractive Entertainment.

The high cost of living is slowly but surely coming down, at least in theatrical amusement at the Queen Square Theatre. The ever popular Mae Edwards Players are the cause. When one can secure an evening of amusement, such as is being offered by this popular company for the price charged, old times are surely in sight.

To begin with the company offered one of the best and latest New York successes, "The Fighting Chance." To say that the performance was good, or that it pleased the large house last night would be to understate the work of this excellent company.

Miss Mae Edwards and Jack Werner Corbin are both ideal stage artists and deserve great credit for the finishing touches they put into their work in whatever roles they are cast.

There is not a weak member in the cast and just to make it a double header this company offers exceptionally good vaudeville acts and also their own special jazz orchestra. These two innovations eliminate all waits, and there is something doing every minute. The play will continue tonight, tomorrow matinee, and tomorrow night.

## CONGRATULATIONS ON FORTY-SIXTH ANNIVERSARY

Premier Foster, Bishop LeBlanc, Mayor and Commissioners Speak at City Cornet Band Concert.

The forty-sixth anniversary of the founding of the City Cornet Band was fittingly celebrated last night in St. Vincent's auditorium. Before a large audience, which included the premier of the province, the bishop of the diocese and the mayor and all the commissioners of the city, the band, assisted by several of its friends, presented a concert which exceeded in excellence the successes of last year.

During the intermission speeches of praise and congratulation of the work of the band were delivered by Premier Foster, Bishop LeBlanc, Mayor Schuchman and Commissioners Bullock, Thornton, Frink and Jones. James Connolly, one of the charter members of the band, in a short address traced the history of the organization.

The numbers rendered by the band included Doring's march, "Distant Greetings" the overture of Suppe's "Poet and Peasant," grand selections from Gounod's opera "Faust" and Verdi's opera "Il Trovatore." The band accompanied some of the singers with fine effect. D. Arnold Fox and Miss Myrtle Fox were the accompanists and gave splendid support.

Max McCarthy rendered two delightful solos and Miss Ethel McGinley was heard in dramatic and humorous readings. Mrs. Rhonda Lloyd Winter besides giving two vocal solos, rendered two excellent violin numbers, all of which were well received. Fred Joyce's rich bass was heard to advantage in "Roll On Thou Dark and Deep Blue Ocean" and "Until," while Miss Estelle B. Earle sang sweetly. Bandsman D. J. Higgins was also heard in two well rendered solos.

FORSEES LEAGUE POWER.

Barrier Against Imperialism, Says Premier.

Paris, Nov. 15.—(By the Associated Press.)—France has shown the same ardor in her work of reconstruction as she did in the war, and has successfully crossed the passage from war to peace, which is always difficult for victors, says Premier Leygues in an interview printed today by the Petit Parisien. Discussing his foreign policy, the premier declared the government will seek to maintain and strengthen its alliances, and will examine in utmost sincerity of spirit all questions arising between France and Germany.

Belief is expressed by M. Leygues that the League of Nations will be a great force and a strong barrier against a return of imperialism and militarism. He declares the government's programme is to so enforce the execution of the Versailles Treaty that national reconstruction and the organization of work and production may be advanced.

ONE MINER KEPT AT IT.

Cardiff, Wales, Nov. 16.—A million of the coal miners of Great Britain participated in the strike, but there is at least one who did not obey the union call to quit work.

He presented himself for work at a South Wales pit where 20 men were employed keeping the colliery in order. He went down for his seven-hour shift, cut coal, put it in a tub and took it to the pit mouth single handed.

MARRIED WOMEN TO GO

London, Eng., Nov. 16.—Camberwell Guardians are giving three months' notice to all married female officers, unless they have been deserted, their husbands are unable to maintain them, or they hold joint appointments.

## Catarrhal Deafness and Head Noises

If you have Catarrh, catarrhal deafness or head noises caused by catarrh or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Eucalypti (Double Strength). Take this home and add to it 1-4 pint of hot water and a little granulated sugar; stir until dissolved. Take one teaspoonful four times a day, after the first day's treatment. Breathing should become easy, while the distressing head noises, headache, dullness, cloudy thinking etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the back of the throat are other symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly ninety per cent. of all ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.

## EGYPTIAN WOMEN ARE TAKING INTEREST IN PUBLIC AFF.

(Associated Press Correspondence.)  
London, Oct. 30.—Egyptian women are at last beginning to take an interest in public affairs, particularly in the schools. Viscount Milner, in his report as High Commissioner of Egypt, says that no change which has taken place in that country in the last few years is more striking than the awakening interest of women in affairs outside of the home.

The commissioner added that a few years ago it was rare to find a mother showing a direct personal interest in the welfare of her daughter at school. All this was left to the father, who often had to overcome the mother's opposition to the education of her daughter. During the last few years these conditions have changed in the larger towns where mothers now visit the schools and discuss their daughters' progress with the head teacher, said the report.

This change is attributed by the high commissioner largely to educational prospects that its influence will be potent on the future progress of educational development in Egypt.

For years I have never considered my stock of household remedies complete unless a bottle of Minard's Liniment was included. For burns, bruises, sprains, frost bits of chilblains it excels, and I know of no better remedy for a severe cold in the head, or that will give more immediate relief, than to inhale from the bottle through the nasal organ.

And as to my supply of veterinary remedies it is essential, as it has in very many instances proven its value. A recent experience in reclaiming what was supposed to be a lost section of a valuable cover under has again demonstrated its great worth and prompts me to recommend it in the highest terms to all who have a herd of cows, large or small. I found I am safe in saying among all the patent medicines there is none that covers as large a field of usefulness as does Minard's Liniment. A real truer good for man or beast.

YOUTHFUL LOVERS' SPAT

GIVES PASTOR BAD SCARE

New York, Nov. 16.—When the Rev. Frances Brown of St. Andrew's Church, Yonkers, found a note on his doorstep warning him that his house would be robbed he and a policeman sat all night in the parlor waiting for the burglar.

He never came.  
Then they examined the note and found the words "Me and Betty" on the paper. Betty Brown is the nine-year-old daughter of the house. When asked what she knew of it, she said she and Wallace Lang, the ten-year-old son of a neighbor, had quarreled at school and she saw him later writing on a bit of paper.

Wallace was consulted, and he quickly confessed, saying that it was all a joke. Dr. Brown refused to press any charges against the youngster. But it is said that his father applied a good spanking.

## N. Y. POLICE TO SEIZE DEFECTIVE AUTOMOBILES

Motor Vehicles Will Be Stopped in Street and "Cripples" Sent to Garage.

Policemen who understand automobiles have been assigned by Police Commissioner Enright to begin tomorrow to stop motor vehicles on the street and examine them sending those in need of repair to a garage and giving certificates of good condition to the others.  
This is to be the principal feature of a campaign planned by Commissioner Enright against automobile accidents, which have been occurring in the last year at an unprecedented rate. Commissioner Enright said recently that, in his opinion, the majority of the accidents in which persons walking on the streets were killed or injured, were due to the carelessness of the victims, but another prolific cause alleged is defective mechanism.

The inspection will continue until Dec. 6 by which time practically all motor vehicles are expected to have been tested and given certificates or sent to garages. Where minor defects only are found the policemen will report the number and owner of the car and the nature of the defect. The owner will be ordered to repair it and will be dealt with later in case of failure on his part to obey the warning.

The patrolman examining the automobile also will hand to the chauffeur or driver a book containing the motor laws and the traffic regulations of the department. Across the cover of this book is the Biblical injunction, "Thou shalt not kill," which besides the motor law and the traffic regulations, the book contains several "don'ts" for the guidance of automobile drivers. Among them are: Remember the A. B. C. of the motorist. "Always Be Careful."

Slow down at street intersections. Examine your brake and steering gear before leaving your garage. Chains and other non-skid devices save accidents.

Parking your car for hours means a summons and the loss of time and money. Do not use horns or sound devices that make unnecessary noise and annoy sick and nervous people and horses. Learn the hand signals.

It is believed that the inspection of all cars by the police may result in the discovery and restoration of any stolen machines to their owners.  
Police Commissioner Enright outlined his plan for reducing preventable automobile accidents in a talk yesterday to all police inspectors, captains and sergeants, who were summoned to police headquarters. After describing the plan, he said that blank certificates would be furnished to all patrolmen to be pasted on inspected cars, showing the date on which the car was tested and found to be in good condition.

The reason for taking three weeks for the work is to allow time so that the work of inspection can be done, without hurrying the policemen making the tests or stopping too many automobiles in one day and causing traffic congestion.

While the inspectors, captains and sergeants were at headquarters yesterday Chief Inspector Loney addressed them on the subject of patrol duty and urged them to see to it that the patrol service of the department is more faithfully performed than it seemed to have been recently. There have been many complaints, he said, that patrolmen have not been walking their posts regularly, as required by the rules of the department. The sergeants were instructed to demand that all patrolmen under their command do their full duty in patrolling posts.
