The Best Quality at a Reasonable Price

Gold or Gold Filled?

A mistaken idea in regard to gold and gold filled spectacle ware is very prevalent. As one of our customers recently expressed it, she preferred gold filled to solid gold because the gold was too soft and bent too easily.

Her impression was wrong. Gold is of all known materials for spectacle making the best and most serviceable. It will not rust or corrode. It can be tempered and has great resiliency, while gold filled spectacle ware, which is the imitation, the substitute, lacks these very essential qualities.

When your gold frame is bent it springs back to its original shape, when your gold filled frame is bent it stays bent. The additional cost of gold over filled is only about two dollars.

Come in and let us illustrate these qualities to you.
