

On October 6, 1983, the "G" Division Safety Bear visited the ore carrier, *M. V. Arctic*, on the shores of Strathcona Sound, Nanisivik, N.W.T. In his most northerly tour to date, Safety Bear also visited the schools in Arctic Bay and Nanisivik. Here we see him on the ship bridge with Capt. Dave Deere. Following a tour of the *M. V. Arctic*, Safety Bear was made honorary master of the ship.
