

We Court Investigation

THE SMITH MIXER

will bear the closest scrutiny and most exacting investigation. We are always delighted when a prospective customer shows the spirit of investigation. It means that the Smith Mixer will receive justice, that our claims will be supported. We don't want you to learn by hard and costly experience that you made a mistake in not buying the "Smith." We would rather have you study the matter very carefully and get in right at the start.

The "Smith" has never been known to fail, although there are more in use than of any other make. Thorough mixing, strength and durability are its features.
