

**M. ROSE AUERBACH,**

Bronze Medallist at World's Fair.

Miss Auerbach is a painter of flower subjects of repute, not only in Canada, but also in England and the United States, where many of her works are placed in important private collections. Her large panel, "Pansies," exhibited at the World's Fair, was much admired, and obtained for her the Bronze Medal. Through the kindness of the other artists, I am permitted to offer a few of her small subjects, and hope they will meet with favor.

**G. S. WALTERS,**

London

Member of the Royal Society of British Artists.

This artist's marine scenes are exceedingly delicate in color and so true to nature, that they readily commend themselves to art patrons. They are difficult to get and always of value.
