MOLASSINE MEAL

The best feed for Live Stock known to Science

There is hardly a Farmer, Race Horse Trainer, Stock Breeder, Horseman, &c., in the British Isles that does not use Molassine Meal regularly for his stock.

MOLASSINE MEAL is a food and replaces other food stuffs. It will keep all animals in good health. Prevents and eradicates worms.

HORSES will do more and better work, keep in better health and do not chafe from the harness so much when fed on Molassine Meal. Is equally suitable for heavy draft horses, hunters and race horses, and will bring show animals to the pink of condition quicker and better than any ordinary methods of feeding.

MILCH COWS will increase the flow and quality of their milk and make rich flavored butter and cheese, and will prevent any taint in the milk when cows are fed on roots.

STOCKERS can be fattened quicker on Molassine Meal than anything else. It aids and digests their other foods and keeps them free from worms.

PIGS will be ready for the market ten days to three weeks earlier when fed on Molassine Meal than when fed on any other food.

SHEEP AND LAMBS, fed on Molassine Meal, produce the finest mutton and most obtainable, securing top prices.

KODAK FILM

Will tell the story of your vacation. There's film for a dozen pictures in each cartridge, the weight is trifling.

The Kodak itself slips into the pocket and the picture making is simple from start to finish. Press the button—do the rest—or leave it to another—just as you please.

The Kodak system does more than simply remove the inconveniences of the glass plate and dark-room methods of picture taking—it gives better results. There's no question about the advantages of daylight loading and daylight development by the Tank method. Thousands of the best professional photographers now use the Tank system for their work, even though they have the experience and the facilities for dark-room work. They have adopted the Tank because it gives them better results. If it's better for the professional there's no question about it for the amateur.

You can take good pictures with a Kodak. You can finish them well by the Kodak system without a dark-room—or if you prefer, can mail them at slight cost and no danger of breakage if you wish to have a professional finisher do the work for you.

Ask your dealer or write us for Kodak catalogue.

Kodaks, from \$5.00 up. Brownie Cameras (they work like Kodaks), from \$1.00 to \$12.00.
