100 Cents on the Dollar

THE tractor that is really a 100-cents-on-the-dollar investment for the farmer is the tractor that can be used practically every day of the year, one that is 100% efficient, both on the belt and the drawbar.

The International 8-16 kerosene tractor meets the above specifications. The drawbar has a wide range of adjustment both up and down and sidewise so that the tractor will pull any machine or implement on the farm with equal advantage. The 8-16 pulley is so placed that the tractor can be backed into the belt quickly—so placed also that the belt doesn't rub against any part of the tractor nor drag on the ground. And 8-16 power is just right—neither too heavy nor too light—it fits practically any drawbar or belt power task on the average farm.

Aside from its adaptability for all-year-round farm work, the International 8-16 tractor is a 100-cents-on-the-dollar investment because of its exceptionally efficient and economical (kerosene) operation; because, too, you can always secure repair and expert service without delay through the 16 branch houses listed below, which also supply hundreds of local agents.

If you are interested in a 100-cents-on-the-dollar tractor investment just write your name and address along the margin of this advertisement and mail to our nearest branch house so that we can send you full descriptive information of the International 8-16.
